Vermont

URS Table Number	General Notes
3, 6	State hospitals total and other psychiatric inpatient total in table 6 do not match the values in table 3 due to difference in data extracts (dates of extract and other variables).
4	Data values vary from 2014 to 2015 based on the pre-filled values in tables 4 due to difference in data extracts (dates of extract and other variables). Table 4 in 2014 was filled in by Vermont, in 2015 was filled in based on client-level data submitted from different dates of extract and variables.
5A/5B	Data values do not match the pre-filled table 2A/2B due to difference in data extracts (dates of extract and other variables).
6	Vermont closed its State Hospital in August 2011 due to severe flooding. A temporary facility opened in FY14 with 8 beds. Other hospitals provided small numbers of beds for patients also during this time. At the beginning of FY15, the new Vermont State Hospital, Vermont Psychiatric Care Hospital (VPCH), opened with a soft opening of a smaller number of beds and up to its capacity of 25 beds in August 2014. Thus, the numbers in table 6 show fluctuation between FY14 and FY15.
6	For Residential Tx Centers for Children 0-17, this value increased from 2014 due to an improvement/increase in the completeness of the data set used to generate these table values.
19A	Based on PPE of the overlap between mental health services databases and a statewide arrest database provided by the VT Dept. of Public Safety (for adults) and VT Dept. for Children and Families' child custody database (for children). Adult arrest data from the Dept. of Public Safety was not available for FY15.
19A	The values for the second part of Table 19A for 'Consumers Who Began Mental Health Services during the past 12 months' show a large decrease from the same table values for FY14. This is most likely due to a quality assurance process performed by the VT Dept. for Children and Families which resulted in the elimination of a large number of closed cases from the database for children.
19A	Based on PPE of the overlap between mental health services databases and a statewide arrest database provided by the VT Dept. for Children and Families' child custody database (for children).
