Wyoming

| URS Table Number | General Notes |
|------------------|--|
| 5 | In FY 15 WY changed their submission for 'actual payment source' requirement. To increase accuracy of the actual payment source, actual payment information is no longer gathered at admission, but is now gathered at interim and discharge. This moved a large number of clients who have not had updated information beyond admission data into the unknown category, thus reducing the Medicaid numbers. |
| 5 | In past years WY has put all its non-Medicaid (including unknown) in the Non-Medicaid numbers. To clarify the change in actual payment source, we have moved unknown to the 'Medicaid Status Not Available'. This will be a 100% change, since last year there was no information in this field. This will cause an increase percentage change for 'Non Medicaid Sources' |
| 10 | Wyoming does not gather their grant totals by diagnosis; therefore no dollars are entered in this section. |
| 11 | WY does not survey the child population |
| 12 | The decreases in percent of adults/child served by the SMHA with co-occurring MH/SA diagnoses are due to we provided technical assistance to providers that were not correctly identifying co-occurring clients, thus improving data accuracy. |
| 14A/B | Provided technical assistance to providers that were not using SMI appropriately and we updated our definition of SMI to match the Federal definition. |
| 16 | No data is reported. WY does not gather data in this format |
| 17 | No data is reported. WY does not gather data in this format |
| 19A | We changed our reporting time frame of Not Arrested for MH from 30 days to 90 days |
| 20A/B & 21 | The total numbers of readmissions to the state hospital are small and any changes from one year to the next cause large percentage changes. |
