General Notes FY 2017

Connecticut

URS Table Number	General Notes
5A/B	CT was able to better identify/improve reporting of clients served with Medicaid and non-Medicaid funding only for 2017 reporting
8	The significant difference in total non-direct MHBG expenditures between 2016 and 2017 is a result of the additional reporting categories included for 2017 reporting
15	CT continues to expand supported housing programs which has resulted in a decrease in total number of homeless clients.
16/17	Increases in total number of clients receiving EBP services are partly due to better data reporting and partly due to expansion of EBPs including supported housing, supported employment, ACT, MST, and continuing support of the IDDT model.
