

New Jersey 2018 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	7,808,416	39.79	23.69	58
Community Utilization per 1,000 population	7,577,095	37.61	22.99	58
State Hospital Utilization per 1,000 population	129,300	0.33	0.39	52
Other Psychiatric Inpatient Utilization per 1,000 population	447,545	1.85	1.58	41

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	758,207	43.7%	46.0%	57
Employed (percent with Employment Data)**	758,207	26.9%	22.2%	57

Adult Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	93.7%	80.4%	50

Child/Family Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	58.8%	72.3%	46

Readmission Rates:(Civil "non-Forensic" clients)	U.S.	State	U.S. Rate	States
State Hospital Readmissions: 30 Days	5,658	4.8%	7.2%	46
State Hospital Readmissions: 180 Days	13,392	15.2%	17.1%	50
State Hospital Readmissions: 30 Days: Adults	5,104	4.8%	7.3%	45
State Hospital Readmissions: 180 Days: Adults	11,997	15.2%	17.1%	49
State Hospital Readmissions: 30 Days: Children	545	0.0%	6.5%	17
State Hospital Readmissions: 180 Days: Children	1,386	0.0%	16.5%	19

Living Situation	U.S.	State	U.S. Rate	States
Private Residence	4,154,672	86.0%	83.5%	56
Homeless/Shelter	222,312	2.7%	4.5%	53
Jail/Correctional Facility	111,902	0.5%	2.2%	50

Adult EBP Services	U.S.	State	U.S. Rate	States
Supported Housing	91,920	3.1%	2.9%	35
Supported Employment	70,310	1.3%	2.0%	45
Assertive Community Treatment	76,802	2.0%	2.1%	45
Family Psychoeducation	39,412	1.9%	2.8%	15
Dual Diagnosis Treatment	250,051	-	11.6%	28
Illness Self Management	336,335	4.7%	20.0%	21
Medications Management	524,689	-	32.1%	19

Child/Adolescent EBP Services	U.S.	State	U.S. Rate	States
Therapeutic Foster Care	7,762	-	1.1%	22
Multisystemic Therapy	25,203	0.3%	3.8%	20
Functional Family Therapy	24,841	0.8%	4.9%	16

Change in Social Connectedness	State	U.S. Rate	States
Adult Improved Social Connectedness	92.5%	76.6%	48
Child/Family Improved Social Connectedness	77.5%	86.3%	45

*Denominator is the sum of consumers employed and unemployed.

**Denominator is the sum of consumers employed, unemployed, and not in labor force.

Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2018

New Jersey

Reporting Period: 7/1/2017 To: 6/30/2018

Adults and Children who meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	39.7%	70.3%	73.0%	56
Percent of Children served through the SMHA who meet the Federal definition for SED	42.2%	69.7%	69.5%	54

Co-occurring MH and Substance Abuse Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	22.3%	27.5%	27.0%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	2.4%	4.2%	3.0%	53
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	27.9%	25.7%	24.0%	55
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	3.4%	7.3%	3.0%	52

Note

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

There are two steps to identifying co-occurring clients in our USTF database: 1. Do they meet the SMI requirement of a GLOF of 0-5? 2. Do any of the following areas in the database indicate drug or alcohol abuse: 1. Referral Source (e.g. from Alcohol & Drug Treatment Program); 2. Past Services History; 3. Current Services Involvement; 4. Non-Mental Health Needs; 5. Primary Problems. There are two steps to identifying co-occurring clients in our USTF database: 1. Do they meet the SMI requirement of a GLOF of 0-5?; 2. Do any of the following areas in the database indicate drug or alcohol abuse: 1. Referral Source (e.g. from Alcohol & Drug Treatment Program); 2. Past Services History; 3. Current Services Involvement; 4. Non-Mental Health Needs; 5. Primary Problems. If both criteria are met, then the consumer is coded as a co-occurring client.

General Notes FY 2018

New Jersey

URS Table Number	General Notes
3, 6	State hospital data in Tables 3, 6, and 15 are from DMHAS's Hospital Census (Oracle) database whereas that in Table 2a is from the USTF client registry.
7	Total Medicaid Expenditures: in FY 2017 and in years past, the Division of Mental Health and Addiction Services (DMHAS) only included the Medicaid Disproportionate Share Hospital (DSH) expenditures at the State psychiatric hospitals. Other Medicaid-related funding was not directly appropriated to the Division. However, in State Fiscal Year 2018, we are including funding that is appropriated to the Division and transferred to the State Medicaid Division, i.e., the Division of Medical Assistance and Health Services. This includes both State and Federal funding for mental health-related expenditures incurred in Medicaid. These funds are now appropriated in DMHAS as a result of our transition to a Fee-for-Service reimbursement payment.
7	Total Other Federal Funds Expenditures: the Other Federal Expenditures line reflects third party costs funded by the Federal PATH formula grant and other restricted grants, and administrative expenditures for qualifying federal initiatives. The FY17 expenditure amount included the PATH award in the amount of \$2,139,241 and \$166,454 in expenditures from the Social Services Block Grant (SSBG) related to Superstorm Sandy. In FY18, there was a slight decrease in the PATH grant and all funding from the SSBG ceased. However, in SFY18, the estimated federal share of the State's Interim Managing Entity for Community Support Services was included.
7	Total Other Expenditures: the \$400K in 2018 was included in 2017 in the "State Funds" column. This represents funding for the "Cop2Cop" helpline for law enforcement personnel. This program is supported by dedicated funding sources, i.e., it is not appropriated in the State's General Fund. We have therefore shifted it to the "Other" column.
7	Total Other 24-Hour Care Expenditures: this increase from FY17 is due to the inclusion of Federal Medicaid funds in 2018.
7A	Total EBP for ESMI Expenditures: these expenditures are for the three provider agency contracts and the salary of the program analyst for the First Episode Psychosis (FEP) program. The increase from 2017 to 2018 is due to increased contract costs and the increase in the program analyst's hours. In addition, the FEP contracts are on a Federal Fiscal Year (FFY) cycle and the reporting period for this Table is the State Fiscal Year (SFY) cycle. Therefore, the timing of the payments, which are based on agencies Report of Expenditures (ROEs), also impacts the expenditure amounts from year to year.
7	Total CSC – Evidenced Based Practices for First Episode Psychosis Expenditures: these expenditures are for the three provider agency contracts for the First Episode Psychosis (FEP) program. The increase from 2017 to 2018 is due to an overall increase in the contract costs. In addition, the FEP contracts are on a Federal Fiscal Year (FFY) cycle and the reporting period for this Table is the State Fiscal Year (SFY) cycle. Therefore, the timing of the payments, which are based on agencies Report of Expenditures (ROEs), also impacts the expenditure amounts from year to year.
8	Total MHBG Expenditures for Non-Direct Service Activities: these expenditures are for salaries of the staff that work with the Behavioral Health Planning Council and the time spent on this activity will vary from year to year.
10	All Block Grant allocation amounts are listed in the Adult/SMI Column as we are unable to provide a breakdown.
16	The total number of children with SED that received specific services in Table 16 was 47,315. This number was reported by NJ Children's System of Care (CSOC). This number cannot be compared with the number (7,105) provided in FY 2017. The total number of children with SED that received specific services in FY 2017 (i.e. 7,105) was reported by SMHA based upon the number served by age group in Table 14A.
16	The decrease in the reported number of consumers receiving Supportive Housing services (6,063 adults with SMI in SFY17 and 4,014 in SFY 18) most likely is related to the phase-in of Community Support Services (CSS), which began in SFY18. The roll-out and transition from Supportive Housing to CSS was not a smooth process with regard to reporting. Many agencies continued to submit QCMRs for Supportive Housing well into SFY18, and many agencies didn't begin submitting QCMRs for CSS until much later in SFY18.

URS Table Number	General Notes
16	<p>During SFY 2018 while monitoring monthly utilization data, CSOC became aware of significant decreases in the provision of MST services in two New Jersey counties – Essex and Camden. Designated staff CSOC reached out to each provider agency to determine the cause and assist in developing a plan of correction. In Essex County the MST provider agency had experienced a complete turnover in staff resulting in a loss of community engagement. The plan of correction for Essex County involves re-marketing the MST services. A community “Kick-Off” is being planned and will include the courts, juvenile justice agencies, families, all partners within the children’s system of care including care management organizations, mobile response and stabilization services, family support organizations, CIACCs, education and other stakeholders. In Camden County, the MST provider agency reported difficulty in hiring due to what was perceived as insufficient salary by prospective employees. The MST provider agency met with CSOC and received approval for staffing reorganization. Salaries have been increased and CSOC continues to monitor staffing as well as provision of services.</p>
17	<p>The total number of individuals receiving family psychoeducation services in SFY 2018 was 10,912. The total number of families receiving family psychoeducation services in SFY 2018 was 2,518.</p>
17	<p>Each year, SMHA tries to collect data from all IMR-trained programs and despite our consistent efforts, about the same number of PC/PH programs, but not the same list of programs submitted data. Therefore, the responses vary from year to year.</p>
