General Notes FY 2018

New Mexico

URS Table Number	General Notes
4	The State of New Mexico sourced it's data differently for 2018. Due to a change in our Administrative Services Organization (ASO) who came on board July 2017 (State Fiscal Year 2018) and switching from data sets from the Medicaid Managed Care Organizations (MCOs) to pulling data directly from our Medicaid Management Information System (MMIS). This accounts for the change between the 2017 total and what we reported for 2018. Our development team is working with our Medical Assistance Division (MAD) and ASO to better align the data next reporting period regarding their claims to our reporting needs.
5	Total number of consumers with non-Medicaid funding only: the State of New Mexico sourced it's data differently for 2018. Due to a change in our Administrative Services Organization (ASO) who came on board July 2017 (State Fiscal Year 2018). This accounts for the change between the 2017 total and what we reported for 2018. Our development team is working with our ASO to better align the data next reporting period regarding their claims to our reporting needs.
5	Total number of consumers with both Medicaid and non-Medicaid funding: the State of New Mexico sourced it's data differently for 2018. Due to a change in our Administrative Services Organization (ASO) who came on board July 2017 (State Fiscal Year 2018) and switching from data sets from the Medicaid Managed Care Organizations (MCOs) to pulling data directly from our Medicaid Management Information System (MMIS). This accounts for the change between the 2017 total and what we reported for 2018. Our development team is working with our Medical Assistance Division (MAD) and ASO to better align the data next reporting period regarding their claims to our reporting needs.
6	Total number of Consumers Served in State Hospital at the beginning of the Year: The State of New Mexico has increased our provider network which has allowed for more access to consumers within the state. This increase in the network has also allowed for more access to the State Hospital for services when necessary.
6	Total number of Consumers Served in Community Programs at the beginning of the year; Total Admissions to Community Program During the Year; Total Number of Consumers Served in Other Psychiatric Inpatient Settings at the beginning of the year; Total Admissions to Other Psychiatric Inpatient During the Year; Total Number of Consumers Served in Residential Treatment Centers at the beginning of the year; and Total Admissions to Residential Treatment Centers During the Year: the State of New Mexico sourced it's data differently for 2018. Due to a change in our Administrative Services Organization (ASO) who came on board July 2017 (State Fiscal Year 2018) and switching from data sets from the Medicaid Managed Care Organizations (MCOs) to pulling data directly from our Medicaid Management Information System (MMIS). This accounts for the change between the 2017 total and what we reported for 2018. Our development team is working with our Medical Assistance Division (MAD) and ASO to better align the data next reporting period regarding their claims to our reporting needs.
6	Average LOS of adults discharged from State Hospitals: the State of New Mexico has increased our provider network which has allowed for more access to consumers within the state. This increase in the network has also allowed for more access to the State Hospital for services when necessary.
6	Average LOS of adults (in facility < 1 year) who were state hospital residents at the end of the year: the State of New Mexico has increased our provider network which has allowed for more access to consumers within the state. This increase in the network has also allowed for more access to the State Hospital for services when necessary. The purpose of the State Hospital is to have a reduced length of stay (LOS) as services needed for the consumer are rendered accordingly.
7	Total Medicaid Expenditures and Total/Ambulatory Community Non-24-Hour Care Expenditures: Table 7 which was added to the URS in 2017 included an amount for Behavioral Health claims but did not account for the capitation paid Per-Member Per-Month (PMPM). To correctly calculate the Medicaid costs we worked with the Medical Assistance Division (MAD) to define their costs and provide us with the amounts to report on the URS. The 2018 amount is for on SMI and SED members based on claims data; however, the expended amounts are for the PMPM per member in addition to the Fee-for-Service (FFS) population. The standard we have developed with our Medicaid experts will be utilized going forward to report this number.
7	Total State Hospital Expenditures: this was not a required field in 2017, however it should have been reported. To correct this, the figure was pulled from our claims system and the criteria to pull the expenditures will be used from 2018 going forward.
7	Total Administrative Expenditures: due to BHSD staff increases and reduced turnover, administrative expenditures increased through the fiscal year.

URS Table Number	General Notes
7	Grand Total Expenditures: the collaboration with our Medicaid partners in the Medical Assistance Division (MAD) account for the increase in total expenditures for 2018. The collaboration between the two divisions will continue going forward to regarding URS reporting.
12, 14	Percent of children/adolescents meeting Federal definition of SED and Percent of children served by the SMHA with co-occurring MH/SA diagnosis: the State of New Mexico sourced it's data differently for 2018. Due to a change in our Administrative Services Organization (ASO) who came on board July 2017 (State Fiscal Year 2018) and switching from data sets from the Medicaid Managed Care Organizations (MCOs) to pulling data directly from our Medicaid Management Information System (MMIS). This accounts for the change between the 2017 total and what we reported for 2018. Our development team is working with our Medical Assistance Division (MAD) and ASO to better align the data next reporting period regarding their claims to our reporting needs.
15	Total number of consumers living in Private Residence; Total number of consumers in Jail/Correctional Facility; and Total number of consumers Homeless/Shelter: the State of New Mexico sourced it's data differently for 2018. Due to a change in our Administrative Services Organization (ASO) who came on board July 2017 (State Fiscal Year 2018) and switching from data sets from the Medicaid Managed Care Organizations (MCOs) to pulling data directly from our Medicaid Management Information System (MMIS). This accounts for the change between the 2017 total and what we reported for 2018. Our development team is working with our Medical Assistance Division (MAD) and ASO to better align the data next reporting period regarding their claims to our reporting needs.
16	Total number of consumers receiving supported Employment services: our Administrative Services Organization (ASO) has moved supported employment to a claims based program from an invoice based program which allows for the provider to more quickly bill and better collection data on the end of the SMHA. Due to having claims based data we are able to better tally the number of consumers served for this program.
16	Total number of Adults with SMI: our Administrative Services Organization (ASO) has moved more programs to claims from invoices which allows for better data reporting to the SMHA. With more programs in claims we are now able to identify consumers by diagnosis.
16	Total number of Children with SED: our Administrative Services Organization (ASO) provided total of children with SED from our Children Youth and Families Department (CYFD) who manage the services for youth. The inclusion of their data impacted our numbers to better reflect the population.
