General Notes FY 2018

North Carolina

| URS Table Number | General Notes |
|---------------------------|---|
| 2A, 3, 4, 5A, 6, 14A, 15, | Due to the intensive review of active caseloads due to mergers and the use of claims based data, many clients previously reported as receiving mental health services were identified as not actually receiving services during the state fiscal year. Thus the number of clients reported every year for the prior decade were inflated. |
| 6 | All numbers in Table 6 are based on what TEDS records we could build based on the submission files that were available and data in the CDW database. Due to time constraints NC was unable to use the updated TEDS dataset to report more complete information for Table 6. |
| 7, 7A, 8 | State budget office stands by numbers and state is not able to modify them |
| 12 | Percent of adults meeting Federal definition of SMI updated based on SMI Diagnosis Codes with the current data set for FY2018. |
| 12 | Percentage of children/adolescents meeting Federal definition of SED based on SED Diagnosis Codes with the current data set for FY2018. |
| 12 | Percentage of adults served by the SMHA who also have a diagnosis of substance abuse problem updated based on FY2018 Dataset Created Matched Against CDW Database Substance Abuse Diagnosis Records. |
| 12 | Percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem updated based on FY2018 Dataset Created Matched Against CDW Database Substance Abuse Diagnosis Records. |
| 16 | 2017 data reported included clients that were served under the purview the state Medicaid agency. For 2018 reporting, only clients served under the purview of the SMHA are included resulting in decreases in the total number of adults with SMI, children with SED, as well as clients receiving specific EBPs when compared to 2017. |
