Note:

Are Client Counts Unduplicated? Duplicated between Hospitals and Community Number of States with Unduplicated Counts 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2016

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Age is determined at midpoint of reporting year.
 Gender None
 Race TennCare includes Native Hawaiian or Other Pacific Islander in the Asian race category and does not collect multi-race data. In FY2017, TennCare reported a higher number of individuals with unknown race.
 Overall Data includes: TennCare (Medicaid); TDMHSAS Behavioral Health Safety Net; non-Medicaid crisis; state psychiatric hospitals; and private psychiatric hospitals that contract with TDMHSAS. See General Notes for more information.

Notes:

US totals are based on states reporting.

This table uses data from URS Table 15a.

US penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Age Hospital and Community data: age is determined at the midpoint of the reporting year.
Gender None
Overall TN does not provide state psychiatric beds for those ages 0-17. Data includes: TennCare (Medicaid); TDMHSAS Behavioral Health Safety Net; state psychiatric hospitals and contracted private psychiatric hospitals. See General Notes.

Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2017

Tennessee

Reporting Period: 7/1/2016 To: 6/30/2017

Adults and Children who meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	84.0%	72.0%	71.0%	54
Percent of Children served through the SMHA who meet the Federal definition for SED	86.0%	70.9%	68.0%	54

Co-occurring MH and Substance Abuse Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	29.0%	25.4%	23.0%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	3.0%	6.2%	4.0%	56
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	17.0%	23.3%	21.0%	53
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	2.0%	5.1%	3.0%	53

Note

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

TennCare reports the count of SMI/SED and SUD who receive a behavioral health service. $SMI \& SUD / SMI = 30,156 / 117,585 = 17\%$; $(SED \& SUD) / SED = 2,018 / 102,730 = 2.0\%$ TennCare employs an operational definition based on diagnosis and a 15-month claims history to categorize individuals as having a serious mental illness (SMI). Substance abuse disorders (SUD) based on the presence of a secondary diagnosis of a substance use disorder (ICD-10 section F10-F19: Disorders due to psychoactive substance use).

State Notes

TN does not provide state psychiatric hospital services to those aged 17 and under. The forensic population is served in the state hospital population.

Tennessee

URS Table Number	General Notes
2A, 5A, 14A & 21	TennCare includes Native Hawaiian or Other Pacific Islander in the Asian race category and does not collect multi-race data. In FY2017, TennCare reported a higher number of individuals with unknown race.
3, & 15A	A person who was served in both a community setting and inpatient setting was included in both rows. "Other psychiatric inpatient" includes psychiatric inpatient services provided to TennCare (Medicaid) enrollees and to indigent patients through private psychiatric hospitals under contract with the TDMHSAS.
12, 14A & 15A	TennCare employs an operational definition of SMI/SED based on ICD10 behavioral health diagnosis and a 15-month claims history to categorize individuals as having serious mental illness (SMI/SED). Substance abuse disorders (SUD) were based on the presence of a primary or secondary diagnosis of substance abuse disorder (ICD-10 section F10-F19: Disorders due to psychoactive substance use). Co-occurring diagnoses were based on a primary mental health diagnosis and a secondary substance use diagnosis.
14A & 15A	In March 2015, Crisis Services stopped collecting data on diagnoses. Data from TennCare (Medicaid); TDMHSAS Behavioral Health Safety Net; state psychiatric hospitals; and private psychiatric hospitals that contract with TDMHSAS, are included in these tables.
12 & 21	These tables only include TennCare (Medicaid) data.
