**Note:**

US totals are based on states reporting.

This table uses data from URS Table 3.

US penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

**State Notes:**

- Age                    The adolescent program at the State Hospital was closed prior to the end of FY 2010. Age is defined as the age at the end of the enrollment period (6/30/2019)
- Gender                None
- Overall                New data methodology. See General Notes.

Arizona

URS Table Number	General Notes
2A/B, 3, 4, 5A/B, 6, 12, 14A/B, 15, 15A, 16	The reporting methodology was changed for this reporting period. This included a change in the data source. The previous data source was self reported and was not validated against actual utilization experience. The redesign now pulls most of the data from our claims/encounter data system, which results in more robust data and reflects true utilization experience of our clients. This also results in significant differences not only in number of clients, but on certain availability of data (i.e., ethnicity, living situation), which we will be working on how to capture this data in the future.
7	During SFY2019, the State received an increase in the MHBG Block grant; therefore, more funding was allocated and expended from SFY2018 to SFY2019.
7A	Arizona is unable to report expenditures in Table 7A activity categories from the Statewide Accounting System; however, the total expenditures for First Episode Psychosis (FEP) in SFY2019 is \$1,572,275.10 from the Mental Health Block Grant.
9, 11, 11A, 19A, 19B	Effective July 1, 2016 the Arizona Department of Health Services/Division of Behavioral Health Services (ADHS/DBHS) merged with the state Medicaid agency (Arizona Health Care Cost Containment System-AHCCCS) as a result of the state's administrative simplification. As part of this process, AHCCCS reviewed all ADHS/DBHS deliverables, including the Member Satisfaction Survey, to understand data methodologies and streamline data sources. AHCCCS continues to evaluate the best method to collect this data from our members.
14	Multi-racial is not an option anymore due to a new data collection methodology.
15	We are currently not collecting this data. We will review our process to initiate a change to capture this data in the future. Please see note for tables 2A/2B, 3, 4, 5A/B, 6, 12, 14A/B, 15, 15A, and 16.
