**Note:**

**Are Client Counts Unduplicated?** Duplicated between Hospitals and Community **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2018

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

**Table 2a**

Age None  
 Gender None  
 Race Hispanic - State Hospitals only.  
 Overall California's Client and Services Information system currently does not capture pregnancy status.

**Table 2b**

Age None  
 Gender None  
 Race State Hospitals collects Hispanic as a racial category and does not use a separate question for ethnicity.  
 Overall None

**What populations are reported?** All clients except those in institutional settings at the time of last evaluation. Number of States Reporting All Clients: 46 Number of States Reporting Some Clients: 10

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
CA	Yes	Yes	-	-	annually
US	43	30	3	7	26

**Note:**

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

**Note:**

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data for URS Table 4a.

**Notes:**

This table uses data from URS/DIG Table 19a.

US totals are based on states reporting.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients Served) data.

**State Notes:**

The survey used a convenience sample of consumers who were served during two one-week periods during the year. The sample size was not calculated per se, but all consumers receiving services during the two one-week periods were approached for surveying.

**Note:**

US totals are based on states reporting.  
 This table uses data from URS Table 19a.  
 US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

**State Notes:**

The survey used a convenience sample of consumers who were served during two one-week periods during the year. The sample size was not calculated per se, but all consumers receiving services during the two one-week periods were approached for surveying.

California

URS Table Number	General Notes
6	Regarding Total Number of Consumers Served in Community Programs at the beginning of the year: The 19% increase in the total number of consumers served in community settings at the beginning of the year from 2018 report (336,704) to 2019 report (400,789) is mainly due to two counties: Los Angeles (47,796 increase) and Santa Clara (10,333 increase).
6	Regarding Total Admissions to Residential Treatment Centers During the Year: The 18% increase in the total admissions to residential treatment centers during the year from 2018 (10,501) to 2019 (12,390) is almost entirely due to six counties (1,915 increase for six counties).
7	In 2019, California was awarded a total of \$95,047,871 in Mental Health Block Grant (MHBG) funds. In 2018, California was awarded \$74,183,108 in MHBG funds. This increase in available funds resulted in a 28 percent increase in California's total MHBG expenditures from 2018 to 2019.
7	In August 2019, the California Department of Health Care Services (CDHCS) underwent a significant department-wide reorganization. Staff who were previously responsible for collecting and reporting data for Total Medicaid Expenditures were no longer working in those positions and were not available to provide background information on what data was collected to complete table 7. For the 2019 reporting, California reported the total amount of Special Mental Health Medicaid inpatient and outpatient claims submitted for payment through California's Short Doyle Medi Cal claim process system. The significant increase in Medicaid expenditures from 2018 to 2019 could be in part due to the extensive Medi Cal expansion project undertaken by CDHCS in California.
7	The total State Funds Expenditures figure is based on the total state funds paid out through the Department of State Hospitals (increased \$24,477,000 over 2018), plus all Special Mental Health inpatient claims (Other 24 Hour Care) and outpatient claims (Ambulatory/ Community Non 24 Hour Care) which decreased approximately \$4.5 billion. In the Other 24 Hour Care and the Ambulatory/Community Non 24 Hour Care, CDHCS included a combination of the state portion of Affordable Care Act funds, California Senate Bill 75 funds, and State General funds as submitted for payment through California's Short Doyle Medi Cal claim process system. Due to the behavioral health reorganization, staff who were previously responsible for collecting and reporting data for the Total State Funds Expenditures were not available to provide background information for data collected to complete Table 7 in 2018.
7	The total Local Funds Expenditures figure is compiled using data from Special Mental Health claims submitted for payment through California's Short Doyle Medi Cal claim process system. Local funds include 2011 Realignment Funds. Due to the behavioral health reorganization, staff who were previously responsible for collecting and reporting data for the Total Local Funds Expenditures were not available to provide background information for data collected to complete Table 7 in 2018.
7	According to MHBG requirements, 10 percent of the MHBG award must be expended for EBP for ESMI. In 2019, California was awarded a total of \$95,047,871 in MHBG funds; a 28 percent increase over 2018. This resulted in a 28 percent increase in California's EBP for ESMI Expenditures.
7	In 2018, CDHCS did not report Other 24 Hour Care expenditures separate from Ambulatory/ Community Non 24 Hour Care expenditures. In 2019, CDHCS reported Other 24 Hour Care (inpatient) expenditures for mental health claims separately from the Ambulatory/ Community Non 24 Hour Care (outpatient) expenditures. The total is compiled from claims submitted for payment through California's Short Doyle Medi Cal claim process system, as well as total state and local expenditures from sources identified in the notes for Total State and Total Local Funds Expenditures.
7	Due to the behavioral health reorganization, staff who were previously responsible for collecting and reporting data for the Total Ambulatory/Community Non-24-Hour Care Expenditures were not available to provide background information for data collected to complete Table 7 in 2018. For the 2019 URS Table 7, California reported the total amount of Special Mental Health Medicaid inpatient and outpatient claims submitted for payment through California's Short Doyle Medi Cal claim process system.
7	In 2019, California was awarded a total of \$95,047,871 in MHBG funds; a 28 percent increase over 2018. The administration amount allowed for MHBG is equal to 5 percent of the award or \$4,752,394. This amount plus the administration amount reported for California's Other Federal Funds (Projects for Assistance in Transition from Homelessness Grant) \$352,515, totaling \$5,104,909.
7A	In 2019, California was awarded a total of \$95,047,871 in MHBG funds; \$20,864,763 more than the 2018 MHBG award of \$74,183,108. A majority of the increase between 2018 and 2019 is caused by California's increased MHBG award. The remaining difference may be attributed to counties choosing to increase their use of CSC Evidence Based Practices for First Episode Psychosis.

URS Table Number	General Notes
8	In 2019, California was awarded a total of \$95,047,871 in MHBG funds; a 28 percent increase over 2018. This resulted in a 28 percent increase in California's Total MHBG Expenditures for Non Direct Service Activities from 2018 to 2019.
14A	The increase in the total number of Native Hawaiian/Other Pacific Islander clients with SMI/SED served between 2018 and 2019 is a result of a possible data entry error from Santa Clary County. CDHCS is continuing to investigate this issue.
17	The decrease in the total number of clients receiving family psychoeducation services from 2018 to 2019 is due to three counties—Colusa, Imperial, and Ventura. CDHCS is working with these counties to determine the cause of the decrease.
16A	Numerical data from counties with a population of less than 100,000 are suppressed.
