Hawaii

URS Table Number	General Notes
5A	There was an increase from 2018 to 2019 in people for whom Medicaid status information was not available, 2,383 to 4,091.
6	For adults for all service settings except the state hospital, there are discharge and service data missing. This is due to a change in the MIS system used to track services at contracted providers have the strongest impact on this information. It is our hope that these data will soon have better year to year consistency.
7	Block grant funding has decreased from 2018 to 2019. CAMHD has made efforts and have been successful at increasing Medicaid reimbursements.
7A	Block Grant funding decreased, and therefore FEP funding decreased.
14A	There was a decrease from 2018 to 2019 in the number of people for whom race information was not available, 3,575 to 3,097.
16	Supported Housing and ACT are contracted provider services and the data are collected inconsistently from year to year.
