Residential	The Division discovered that the data source was an incomplete source so we are not able to report this data.
Community	None
Overall	None

Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2019

Indiana

Reporting Period: 7/1/2018 To: 6/30/2019

Adults and Children who meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	100.0%	71.4%	73.0%	56
Percent of Children served through the SMHA who meet the Federal definition for SED	100.0%	70.8%	75.0%	55

Co-occurring MH and Substance Abuse Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	25.0%	27.6%	25.5%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	2.0%	7.2%	3.0%	54
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	23.0%	27.9%	25.0%	55
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	2.0%	8.6%	4.0%	53

Note

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

We collect up to five diagnosis codes. If one of the codes included is a substance-related disorder code, then the person is counted as co-occurring.

State Notes

None

Notes:

US totals are based on states reporting.

This table uses data from URS Table 16.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

The state does not financially support this evidenced-based practice and we are uncertain what caused the decrease from last year's numbers.

1. Do you monitor fidelity for EBP? No
2. IF YES what fidelity measure is used? -
3. Who conducts fidelity measure? -
4. How often is fidelity measured? -
5. Is the SAMHSA EBP Toolkit used to guide EBP Implementation? No
6. Have staff been specifically trained to implement the EBP? No

States Measuring Fidelity= 1

SAMHSA Toolkit Used= 2
EBP Training= 2

Note:

US totals are based on states reporting.

This table uses data from URS Tables 16 and 17.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

There is a large difference between last year's numbers and this year's numbers because we started collecting information about this EBP.

Appropriateness Domain: Adults with SMI and Children with SED Receiving Evidence-Based Services for First Episode Psychosis (FEP), 2019

Indiana

Reporting Period: 7/1/2018 To: 6/30/2019

Number of coordinated specialty care programs: 2

Admissions to Coordinated Specialty Care (CSC)-FEP Service During the Year

Indiana

URS Table Number	General Notes
4, 4A	More individuals are being categorized as Not in Labor Force instead of Unemployed.
5A, 5B	More individuals had no insurance, private insurance, Tricare or other sources of payment.
6	Total Number of Consumers Served in Community Programs at the beginning of the year: more individuals continued treatment from the year before.
6	Total Admissions to Community Programs during the Year: previously this was calculated by counting the number of new clients and not the number of new admissions.
6	Overall Average LOS decreased as there were no longer children in the state hospital more than a year.
6	Average LOS for children in the facility < 1 year decreased as the facilities were working on decreasing LOS.
6	Average LOS for adults increased as the number of forensic patients increased; many of these patients had stays around six months.
7	Total other funds expenditures change is due to inclusion of two data sources not counted in prior years: \$92k in federal school lunch expenditures at the state psychiatric hospitals and \$3.4M in SSBG expenditures.
7	Total primary prevention expenditures change is due to a 2019 suicide prevention contract, a contract that did not exist in prior years.
7	Total EBP for ESMI expenditures change is a result of a larger MHBG award to Indiana, which allowed for increased expenditures on early psychosis.
7	Total other 24-hour care expenditures change is due to PRTF \$4.0M higher in 2019 than it was in 2018 and on IP psych expenditures, the state psychiatric hospital Medicaid revenue being backed out was a substantially higher % of the overall expenditures in 2018 compared to SFY2019.
7	Total administration expenditures change is a result of a larger CMHS block grant award to Indiana, which allowed for increased admin expenditures.
7A	The funding for Evidence-Based Practices for Early Serious Mental Illness, specifically First Episode Psychosis Expenditures, increased from SFY 2018 because our award and our MHBG set-aside requirement increased.
8	In SFY 2019, we funded for more training and contracts with community partners.
