Maine

URS Table Number	General Notes
All	SAMHS = Maine Substance Abuse and Mental Health Services; OCFS = Office of Children and Family Services.
3	Data represents OBH services, OCFS clients are not admitted to State Psychiatric Hospitals. Trend in clients served in state hospitals, including large drop in 2017 and increase in 2018: the cause of the discrepancy for 2017 was incomplete data. The cause of the discrepancy for 2018 is unknown. The person who created the report for that year is not currently working for the office. We would not be able to get these numbers this year but will work on getting them for the 2020 report.
5A	The cause of the increase in the number of clients by Medicaid funding status and by Medicaid-funding only between 2018 and 2019 is unknown.
6	Significant increase in the number served in state hospitals and the lack of 2018 reporting for those served in community settings, OPI settings and RTCs: OBH - the cause of the discrepancy for 2018 is unknown. OCFS did not submit this data in 2018, and they are unable to go back and replicate at this time.
7	The cause of significant changes in expenditures is unknown.
7A	The increase in expenditures for CSC for FEP from 2018 to 2019 is a result of the inclusion of the Peer Support Component of Coordinated Specialty Care in the contract with the one CSC provider. Previously this had been funded in a separate contract.
8	The reason for the increase in the amount of MHBG non-direct service expenditures from 2018 to 2019 is unknown. OBH is confident in the accuracy of the data—this could be attributed to State Medicaid Expansion.
12	The reason for the decrease in the number of adults with a co-occurring MH/SUD from 2018 to 2019 is unknown.
14A	The reason for the increase in the number of multi-racial clients with SMI/SED from 2018 to 2019 is unknown. OBH is confident in the data's accuracy for this table.
16	OCFS - There was a reduction in FFT due to reduction in teams statewide. We have recently completed a Medicaid Rate Study and rates are due to increase as a result - we expect growth in the service statewide over the next couple of years.
19A	SAMHS - No data available: State plans to use YSS-F survey in 2020, this information was not part of the 2019 Family Survey. There were 262 total youth who were arrested from 7/1/18 to 6/30/19. 172 youth were Detained, 35 youth received Shock Sentences and 55 total youth were Committed. All 55 youth in Commitment received mental health treatment for the duration of their stay at Long Creek.
19B	SAMHS - No data available: State plans to use YSS-F survey in 2020, this information was not part of the 2019 Family Survey.
