URS Table Number	General Notes
4	We have improved our counting of consumers employed/unemployed as well as a small improvement in employed.
6	Direct Care and Treatment data (DCT, AD). The percent age is increased for residential treatment centers during the year due to program changes.
6	CY2018 MMIS data. The total admissions to other psychiatric inpatient care during the year percent change is reduced across the state, in part, by increased program development.
7	Overall, the increase in expenditures across funding sources has increased for program development and growth.
7	The decrease in Total State Hospital Expenditures is part of a planned effort started in 2012.
7A	The change from 2018 (\$1,021,838) to 2019 (\$2,590,510) is due to the expansion of FEP services from one site (2017) to currently (2019) three sites as well as increased client counts.
8	We have increased our types of Non-Direct Service Activities in 2019. In addition, we have increased the community outreach and Training and Education Lines to ensure program vitality
16A	Current Number of Adults with FEP Receiving CSC FEP Services and Current Number of Children/Adolescents with FEP Receiving CSC FEP Services reported are numbers at year end.
17	We are evaluating table 17. Several of the services are parts of other services.
21	Includes all MN psychiatric inpatient hospitals.
