Hospital The decrease in the LOS from FY 2018 (944) to FY 2019 (765) is due to the privatization and closure of residential beds at the Center for Behavioral Medicine at the end of FY 2018. The closure of these beds caused the LOS for FY 2018 to be higher.
 Other Inpatient While there is an increase from FY 2018 to FY 2019, the number of admissions to other psychiatric inpatient for FY 2019 is substantially lower than the numbers reported for FY 2016 and FY 2017. This may be natural variation.
 Residential Missouri DMH privatized more residential beds at the Center for Behavioral Medicine in Kansas City at the end of fiscal year 2018. This decreased the number of residential beds available within our state hospital system.

Missouri

URS Table Number	General Notes
7	There was an increase in Block Grant spending due to Missouri DMH receiving a larger Block Grant Award.
7	Missouri's Other Funds Expenditures increased due to the ongoing Certified Community Behavioral Health Clinic project.
7	The decrease in primary prevention expenditures from FY18 to FY19 was due to a timing issue. Missouri DMH received a large invoice for primary prevention on the last day of the cutoff for the year. Due to the timing of this invoice, it was paid during FY 2020.
7	More dollars were available in the set-aside due to a larger Block Grant award.
8	In FY 2018, the table reflected the total administration cost. For FY 2019, the only category included that reflected our spending was "Training and Education." Table 8 for FY 2019 shows dollars spent on training only.
16A	Missouri has continued to emphasize specialty care models, and has provided training on both Navigate and OnTrack.
