**Note:**

Resident clients are clients who were receiving services in inpatient settings at the end of the reporting period.

This table uses data from URS Table 6.

**Table 6 State Notes:**

Hospital	None
Other Inpatient	ND does not have access to data from private hospitals, facilities, or institutions which provide mental health services and/or inpatient psychiatric care.
Residential	Unable to report on Residential Treatment.
Community	None
Overall	See General Notes. Data continues to be collected from 3 different, independent data sources.

**Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2019**

**North Dakota**

**Reporting Period: 7/1/2018 To: 2/28/2019**

<b>Adults and Children who meet the Federal Definition of SMI/SED</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who meet the Federal definition for SMI	34.8%	71.4%	73.0%	56
Percent of Children served through the SMHA who meet the Federal definition for SED	40.9%	70.8%	75.0%	55

<b>Co-occurring MH and Substance Abuse Consumers</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	30.2%	27.6%	25.5%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	3.5%	7.2%	3.0%	54
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	34.1%	27.9%	25.0%	55
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	5.0%	8.6%	4.0%	53

**Note**

This table uses data from URS Table 12.

**How are the number of clients with co-occurring disorders counted and calculated?**

Percentage of adults served by the SMHA who also have a diagnosis of substance abuse problem and Percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem are derived from the data reported for Table 2. Percentage of adults meeting Federal definition of SMI who also have a diagnosis of substance abuse problem and Percentage of children/adolescents meeting the Federal definition of SED who also have a diagnosis of substance abuse problem are derived from the data reported for Table 14.

URS Table Number	General Notes
2A, 2B, 3, 4, 4A, 5A, 5B, 6, 12, 14A, 14B, 15A, 15, 16, 17, 19A, 19B, 20A, 20B	The reporting period for these tables is based on 8 months of data (July 1, 2018 - February 28, 2019) that exist in the state's legacy EHR system. Updated data reflecting 12 months of data will be provided at future time. Due to various issues related to the transition to a new EHR system, we are not able to provide data for the entire reporting period at this time.
7	Some State Hospital expenditures are not available currently. When the data becomes available, the table will be updated. Increases in MHBG expenditures are related to more funds going toward field Partnership program. Increases in State Hospital expenditures may be related to cost of filling vacancies with traveling nurses and out-of-state psychologists, capital expenses, equipment purchases, etc. Increase in Administration expenditures are likely related to department overhead costs and the inclusion of salary costs. The 2018 administration expenditure amount had excluded salary costs. Possible reasons for changes related to Medicaid, State Fund, and Other expenditures will be provided are currently not available. The information is obtained from another division. The bulk of the increases related to State Funds and Other Expenditures may have been due to filling of vacant staff positions, market adjustments for prescribers, and increases in census resulted in increased costs for the volume-based contracts. In addition, Medicaid expenditures are affected by the age and payment source/coverage of the population being served. The decrease here may have resulted from a combination of those factors.
7,7a, 8, 10, 16A	Data for these tables are based on the entire 12 month reporting period (7/1/2018-6/30/2019).
9, 11	The survey data collection period changed from previous years and was collected from March 2019-April 2019.
