**Note:**

Are Client Counts Unduplicated? Unduplicated Number of States with Unduplicated Counts 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2018

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

**Table 2a**

Age None  
 Gender All those reported as unknown gender are individuals who reported as "Other" in one of our database MOTs.  
 Race Specific races (AI/AN, 2 or more, NH, and Other races) have increased due to better identification. Unknown and Hispanic races declined. Unknowns are only 2.56% of total but are more in the table as Other races are reported as unknown.  
 Overall None

**Table 2b**

Age None  
 Gender All those reported as unknown gender are individuals who reported as "Other" in one of our database MOTs.  
 Race Puerto Rican, Mexican, Cuban, and Other Ethnicities increased due to better reporting and identification. Unknown ethnicities declined by more than 83%.  
 Overall None

\* Reported under Hispanic Ethnicity.

**Note:**

This table uses data from URS tables 5a and 5b.

**Type of Medicaid Data Reported**

Data based on Medicaid Paid Services

People Served by Both includes people with any Medicaid

State Notes

- 5a Age Specific races (AI/AN, 2 or more, NH, and Other races) have increased due to better identification. Unknown and Hispanic races declined. Unknowns are only 2.56% of total but are more in the table as Other races are reported as unknown.
- 5a Gender All those reported as unknown gender are individuals who reported as "Other" in one of our database MOTS.
- 5a Overall Non-Medicaid clients include those who do not match with Medicaid data and there was a better match this year between the two databases (MMIS and MOTS). That reduces the number of those served with non-Medicaid funds only.
- 5b Overall None

**Note:** This table uses data from URS Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2018

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

Table 14a

Age: None  
 Gender: Those reported as Gender Not Available are individuals who reported as other gender.  
 Race: Other races included in the Race Not Available. AI/AN, 2 or more, NH, and other races increased due to better reporting and identification reducing Unknowns and Hispanic races.

Overall

Table 14b

Age: None  
 Gender: Those reported as Gender Not Available are individuals who reported as 'other' gender  
 Race: The Hispanic group increased this year substantially due to better reporting and better match of Medicaid clients to MOTS data where we have better ethnicity data.

Overall

None

**Note:**

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table 3 and 6.

**Table 3 State Notes:**

Age None  
 Overall None  
 Gender None

**Table 6 State Notes:**

Hospital None  
 Other Inpatient None  
 Residential Adult residential reduced admissions from last year reflects continuing stay of previous admissions. The higher than last year's discharges which is comparable with admissions numbers may reflect capacity management efforts.  
 Community Clients in community setting receive non-inpatient services as needed and there are no as such admission records.  
 Overall None

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
OR	Yes	-	-	-	-
US	43	30	3	7	26

**Note:**

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

**State Notes:**

Age None

Gender None

Overall Employment increased perhaps due to increased availability of employment opportunities which also entices those once inactive to seeking employment thereby increasing unemployment.

**Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2019**

**Oregon**

**Reporting Period: 1/1/2018 To: 12/31/2018**

12	Percentage of persons served for the reporting period who met the Federal definitions of adults with SMI and children/adolescents with SED with a dual diagnosis of mental illness and substance abuse: the SMHA defines adults with SMI and children with SED using its own set of diagnosis codes without reference to the Federal definition of the categories. So there is no way to estimate the percentages of those meeting the federal definition of SMI/SED with dual diagnosis.
16	Individuals with SMI/SED were identified last year with the diagnosis codes associated with the latest claim as reported in C-17 field of the Mental Health Client Level data. This year, we included all those with SMI/SED diagnosis codes at any time in the year while C-17 codes are still associated with the latest claims. The latter underestimates the number of individuals with SMI/SED.
