Note:

Are Client Counts Unduplicated? Unduplicated **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2018

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Age None
 Gender None
 Race None
 Overall DBH does not fund inpatient psychiatric hospitals, therefore, this data is based on those served in community programs only.

Table 2b

Age None
 Gender None
 Race None
 Overall DBH does not fund inpatient psychiatric hospitals, therefore, this data is based on those served in community programs only.

Note:

US totals are based on states reporting.

This table uses data from URS Table 3.

US penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

- Age Data is based on admit age.
- Gender None
- Overall DBH does not fund other psychiatric inpatient stays or stays in residential treatment centers for children. Therefore, the data is not available for these two settings. See General Notes.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table 3 and 6.

Table 3 State Notes:

Age Data is based on admit age.
 Overall DBH does not fund other psychiatric inpatient stays or stays in residential treatment centers for children. Therefore, the data is not available for these two settings. See General Notes.
 Gender None

Table 6 State Notes:

Hospital The Division of Behavioral Health does not fund services through state hospitals. South Dakota's State Psychiatric Hospital provides the data needed for this table. See General Notes.
 Other Inpatient The Division of Behavioral Health does not fund other psychiatric inpatient services. Data is not available. Discharges from the State Psychiatric Hospital during the year (duplicated) includes forensic patients.
 Residential The Division of Behavioral Health does not fund residential treatment centers. Data is not available.
 Community None
 Overall See General Notes

Note:

Resident clients are clients who were receiving services in inpatient settings at the end of the reporting period.

This table uses data from URS Table 6.

Table 6 State Notes:

- Hospital The Division of Behavioral Health does not fund services through state hospitals. South Dakota's State Psychiatric Hospital provides the data needed for this table. See General Notes.
- Other Inpatient The Division of Behavioral Health does not fund other psychiatric inpatient services. Data is not available. Discharges from the State Psychiatric Hospital during the year (duplicated) includes forensic patients.
- Residential The Division of Behavioral Health does not fund residential treatment centers. Data is not available.
- Community None
- Overall See General Notes

Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2019

South Dakota

Reporting Period: 7/1/2018 To: 6/30/2019

| Adults and Children who meet the Federal Definition of SMI/SED | State | US Average | US Median | States Reporting |
|---|--------------|-------------------|------------------|-------------------------|
| Percent of Adults served through the SMHA who meet the Federal definition for SMI | 100.0% | 71.4% | 73.0% | 56 |
| Percent of Children served through the SMHA who meet the Federal definition for SED | 100.0% | 70.8% | 75.0% | 55 |

| Co-occurring MH and Substance Abuse Consumers | State | US Average | US Median | States Reporting |
|--|--------------|-------------------|------------------|-------------------------|
| Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder | - | 27.6% | 25.5% | 56 |
| Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder | - | 7.2% | 3.0% | 54 |
| Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis | - | 27.9% | 25.0% | 55 |
| Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis | - | 8.6% | 4.0% | 53 |

Note

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

| 6. Have staff been specifically trained to implement the EBP? | Yes | EBP Training= 7 |

Note:

US totals are based on states reporting.

This table uses data from URS Table 16.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

The state does provide FFT, but services are provided to those who are SED and those who are not SED. The Division will work to report this in the future.

South Dakota

| URS Table Number | General Notes |
|------------------|---|
| 3 and 6 | The reduction in the state psychiatric hospital admissions are due to taking 2, 15-bed units off-line because of staff shortages and also more patients being served near their communities in facilities the psychiatric hospital contracts with. |
| 6 | The noted increase in average LOS of adults discharged from the state hospital is due to one client being discharged after an extended length of stay. |
| 7 | SD received an increase in the Mental Health Block Grant allocation in addition to the Technical Assistance allotment. The increase in expenditures is a direct result of the increase in allocations. SD's Other Federal Fund expenditures increased as a direct result of the state hospital increased Medicare spending. The EBP for ESMI expenditures, as noted for Table 7a, increased as a result of increased clients and services delivered. |
| 7A | The increase in expenditures is a result of an increase in clients and services delivered. |
| 12 | The Division of Behavioral Health cannot accurately report the number of individuals who have a diagnosis of substance abuse problem or who have a dual diagnosis of substance abuse and mental illness at this time. However, the Division continues to work with providers on capturing this data. |
| 14A and B | State definition of SMI (ARSD § 67:62:12:01): The client shall be 18 years of age or older and (1) shall meet at least one of the following: (a) The client has undergone psychiatric treatment more intensive than outpatient care and more than once in a lifetime, such as, emergency services, alternative residential living, or inpatient psychiatric hospitalization; (b) The client has experienced a single episode of psychiatric hospitalization with a diagnosis of a major mental disorder; (c) The client has been treated with psychotropic medication for at least one year; or (d) The client has frequent crisis contact with a community mental health center, or another mental health provider, for more than six months as a result of a mental illness; and (2) The client shall meet at least three of the following criteria: (a) The client is unemployed or has markedly limited job skills or poor work history; (b) The client exhibits inappropriate social behavior that results in concern by the community or requests for mental health or legal intervention; (c) The client is unable to obtain public services without assistance; (d) The client requires public financial assistance for out-of-hospital maintenance or has difficulty budgeting public financial assistance or requires ongoing training in budgeting skills or needs a payee; (e) The client lacks social support systems in a natural environment, such as close friends and family, or the client lives alone or is isolated; or (f) The client is unable to perform basic daily living skills without assistance. |
| 14A and B | State Definition of SED (ARSD § 67:62:11:01): To be eligible for services the clinical record shall contain documentation that indicates: (1) At least one child in the family under the age 18 meets the criteria of SED as defined in SDCL 27A-15-1.1; or (2) At least one youth 18 through 21 years of age who needs a continuation of services started before the age of 18, in order to realize specific goals or assist in the transition to adult services and meets the criteria of SED defined in SDCL 27A-15-1.1(2)(3)(4) and (5). |
| 17 | Community Mental Health Centers are improving the delivery of integrated treatment, individuals with co-occurring issues are able to receive services within their own community, rather than having to move to an unfamiliar service provider to receive the services they need/want. The Division is hopeful that this shift in philosophy continues and that service delivery provides a more welcoming, respectful and hopeful atmosphere for individuals and families receiving services. |
| 20A and 21 | Thirty day readmissions of civil commitment and volunteer patients: the state hospital has been continually working towards reducing the number of 30-day readmissions. Each readmission is reviewed by medical staff and administration. The hospital works with facilities these patients are coming from (i.e., jail) looking for solutions. |
