Texas

URS Table Number	General Notes
7	Total MHBG Expenditures increased 18% because the total Texas allocation for MHBG increased from \$43,471,820 for 2017 to \$56,383,842 in 2018 (29.7% increase); therefore Texas was able to provide more MHBG-related services overall.
7	Total Medicaid Expenditures increased 24% due to increased utilization of 1115 Waiver programs (HCBS and YES)
7	Total EBP for ESMI Expenditures increased 20% because the total Texas allocation for MHBG increased from \$43,471,820 for 2017 to \$56,383,842 in 2018 (29.7% increase); therefore Texas committed additional funds to CSC programs.
7	Total Administration Expenditures increased due to modifications in cost allocation methodology to more accurately reflect oversight and program management activity costs; modifications have been ongoing since administration of MHBG transferred from the Texas Department of State Health Services to the Texas Health and Human Services Commission.
7A	Total CSC-Evidence-Based Practices for First Episode Psychosis Expenditures increased 20% because the total Texas allocation for MHBG increased from \$43,471,820 for 2017 to \$56,383,842 in 2018 (29.7% increase); therefore Texas committed additional funds to CSC programs.
8	Total MHBG Expenditures for Non-Direct Service Activities increased partially due to modifications in cost allocation methodology to more accurately reflect oversight and program management activity costs; modifications have been ongoing since administration of MHBG transferred from the Texas Department of State Health Services to the Texas Health and Human Services Commission, but primarily in response to SAMHSA fiscal auditor feedback regarding reporting of research and training program expenditures, which had previously been reported only as part of total MHBG expenditures. Additionally, Texas committed significant additional funds starting in 2019 to Mental Health First Aid training programs, which are reported in the training category.
12	Most of the increase in the percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem can be attributed to rounding. URS table 12 rounds item 3.a.2. to the nearest whole number. If allowing for one decimal place, the percentage for FY19 would be 3.5% and the percentage for FY18 would be 3.4%; an increase of only 0.1%.
15	The increase in the number of clients reporting homeless/sheltered is a result of statewide population growth and growth in the client population served by Texas HHSC; population growth in combination with a lack of affordable housing options continues to necessitate the intervention of supportive housing programs that can help to reduce the number of homeless clients served by Texas HHSC.
