Utah

URS Table Number	General Notes
7	Increase in Other Expenditures from FY18 to FY19 is due to change in reporting/categorization and change in prioritization.
7, 7A	Increase in EBP for ESMI Expenditures is a result of bringing in more money to the issue.
8	Increase in total MHBG expenditures for non-direct activities is due to slight changes in overall budget needs.
15	In previous years, Utah had issues getting accurate information from jails/correctional facilities. This year data reflects more accurate data.
16	Increases in the total number of clients receiving evidence-based services are due to small total numbers.
17	Increase in total number of clients receiving family psychoeducation, illness self-management, and medication management are a result of having a lot of Multi Family Groups and IMR (includes Illness Self-Management) as part of the AOT programs beginning this past year. It is unclear what accounts for the medication management percent difference, but feel FY19 is accurate.
