**Note:**

**Are Client Counts Unduplicated?** Duplicated between Hospitals and Community **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2018

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

**Table 2a**

Age None  
 Gender None  
 Race In Vermont, a single race code is used for Asian/Native Hawaiian/Pacific Islander. Typically these clients are of Asian origin.  
 Overall Counts are based on a client file that includes all CMH clients and State Hospital clients for FY2019. A small number of individuals may be counted more than once due to movement among community programs or movement between hospitals and community.

**Table 2b**

Age None  
 Gender None  
 Race In Vermont, a single race code is used for Asian/Native Hawaiian/Pacific Islander. Typically these clients are of Asian origin.  
 Overall Counts are based on a client file that includes all CMH clients and State Hospital clients for FY2019. A small number of individuals may be counted more than once due to movement among community programs or movement between hospitals and community.

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
VT	-	-	-	-	SMI quarterly, all else annually
US	43	30	3	7	26

**Note:**

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

**State Notes:**

Age None  
 Gender None  
 Overall SMI measured with direct match to Department of Labor data. All else based on self-report in MIS.

**Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2019**

**Vermont**

**Reporting Period: 7/1/2018 To: 6/30/2019**

**Notes:**  
 This table uses data from URS/DIG Table 19a.  
 US totals are based on states reporting.  
 US totals are calculated uniquely for each data element based on only those states who reported numerator (clients Served) data.

**State Notes:**  
 Based on PPE of the overlap between mental health services databases and a statewide arrest database provided by the VT Dept for Children and Families' child custody database (for children).  
 Adult data are not available.

**Notes:**

This table uses data from URS Table 19a.

US totals are based on states reporting.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients Served) data.

**State Notes:**

Based on PPE of the overlap between mental health services databases and a statewide arrest database provided by the VT Dept for Children and Families' child custody database (for children). Adult data are not available.

**Outcome Domain: Consumer/Family Assessment of the Impact of Mental Health Services on Criminal Justice Contacts, FY 2019**

**Vermont**

**Reporting Period: 7/1/2018-6/30/2019**

Vermont

URS Table Number	General Notes
3	Counts are based on a client file that includes all CMH clients, State Hospital clients, and involuntary inpatient clients for FY2019. A small number of individuals may be counted more than once due to movement among community programs or movement between hospitals and community.
6	Due to significant changes in the past few years regarding how data is reported, DMH is not presently able to provide data on the entire cohort of children who received inpatient treatment. The data represents only those children who (1) are not attributed to care under Vermont’s Accountable Care Organization, OneCare; and (2) received prior authorization for treatment through the Department of Vermont Health Access under Medicaid.
7, 8	Differences in years is due to Legislative funding changes and federal Investments phase out which is increasing State funding.
12	Co-occurring disorders include clients who have a DSM substance abuse diagnosis (ICD-10) and a DSM mental health diagnosis who also meet the Federal definition of SMI.
12	The data for SED are unavailable for FY2019 due to changes in the DSM-5.
15A	Databases for individuals served at residential treatment centers and at other psychiatric inpatient facilities do not contain elements necessary to identify clients as SMI or SED. Definition of SED changed in DSM-5.
16A	CSC and FEP data are not available.
