Note:

Are Client Counts Unduplicated? Unduplicated **Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2018

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2a

Age Age calculated at midpoint of reporting period
 Gender None
 Race Race not available includes 'some other race alone' (N = 6,246)
 Overall Populated by NRI using Virginia's 2019 MH CLD-BCI dataset

Table 2b

Age Age calculated at midpoint of reporting period
 Gender None
 Race None
 Overall Populated by NRI using Virginia's 2019 MH CLD-BCI dataset

Note:

US totals are based on states reporting.

This table uses data from URS Table 3.

US penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Age Age calculated at midpoint of reporting period
 Gender None
 Overall Residential data is not available to DBHDS. Populated by NRI using Virginia's 2019 MH CLD-BCI dataset.

* Reported under Hispanic ethnicity.

Note:

US totals are based on states reporting.

This table uses data from URS Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Age calculated at midpoint of reporting period. Data indicates 307 individuals between the age of 18-64 and 42 individuals age 65+ reside in foster home placement. This data was entered in error at the client level. Race not available includes 'some other race alone' (N = 6,246).

1. Do you monitor fidelity for EBP? Yes
2. IF YES what fidelity measure is used? SAMHSA Fidelity Tool/CSH Fidelity
3. Who conducts fidelity measure? State Office and providers via self-assessment
4. How often is fidelity measured? Yearly
5. Is the SAMHSA EBP Toolkit used to guide EBP Implementation? Yes
6. Have staff been specifically trained to implement the EBP? Yes

States Measuring Fidelity= 8

SAMHSA Toolkit Used= 9
EBP Training= 9

Note:

US totals are based on states reporting.
This table uses data from URS Table 16.
US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

Virginia

URS Table Number	General Notes
5A	Expansion of Medicaid in the Commonwealth of Virginia began in January 2019. The latest data indicates that there were 375,000 new enrollees due to the expansion. This has a direct correlation with the increased number of consumers utilizing Medicaid to pay for services.
7	Total Other Expenditures: State facilities had new projects in FY2019 to meet capital needs that differed from the previous year where they had one-time expenditures, thus causing a significant shift in spending. Total Administration Expenditures: Large IT projects such as Electronic Health Records (One Mind Project) had larger expenditures in FY2019 compared to FY2018. Additionally, we had an overall state pay raise of 5% that took effect June 25, 2019, as well as DBHDS had approximately 20 additional FTE in FY2019 compared to FY2018. These are all contributors to the increase in spending from FY2018 to FY2019.
16	Total Number of Consumers Receiving Supported Housing Services: New staff evaluated ways Virginia collected data on EBPs for the MHBG and it was determined that past efforts resulted in over-reporting Supported Housing. The more accurate collection method appears as a reduction in this EBP; however, it actually represents a stable trend in this EBP.
16A	This year, all eight (8) of Virginia's CSC programs were selected to participate in Phase II of the Center for Social Innovation's CSC OnDemand study. Of the eight teams selected, all but one participated in the study. Two teams attended in-person training sessions while the other five participated via the CSC OnDemand online learning platform. Additionally, each CSC program received extensive training and technical assistance at the inception of their programming.
17	Total Number of Consumers Receiving Self-Management Services: The reduction for this EBP is a result of 3 out of 40 CSBs drastically decreasing their reported numbers from FY18 to FY19. Those three CSBs comprised 59% of the total reported in FY18 and only 11% of the total for FY19. All three CSBs reported that the reduction is a function of having more thorough instructions for reporting these totals in FY19 and determining that what they included in previous years did not meet the full definition for Self-Management Services. Total Number of Consumers Receiving Medication Management Services: SAMHSA STR and SOR funds enabled Virginia to expand this EBP to more consumers. Additionally, the Virginia Medicaid expansion beginning January 2019 allowed consumers to have greater access to medication that could be reimbursed through Medicaid.
