

APPENDIX E

MENTAL HEALTH AND SUBSTANCE USE DIAGNOSIS CODES

Mental Health Diagnostic Groups With Corresponding ICD-9 Diagnostic Codes

The listings below group ICD-9 codes into a modified form of Clinical Classification Software (CCS) mental health “multi-level” diagnostic category codes (5.1, 5.2, and so on) and corresponding labels (trauma- and stressor-related disorders, anxiety disorders, and so on). Notes:

- **Bold** diagnostic groups are displayed in one or more tables in this report; records with ICD-9 codes in other diagnostic groups are grouped together as “other” mental health diagnoses.
- *Italicized codes* in parentheses are nonstandard ICD-9 codes in the data that were recognized to belong to the same CCS mental health diagnostic group.
- Entries in brackets ([650], [651], and so on) are single-level diagnosis categories that are otherwise ignored in this report but are noted here for convenience.
- The ICD-9 diagnostic codes shown below have omitted the dot separator after the first three digits.
- The groupings of certain DSM-IV/ICD-9 codes have been reorganized according to DSM-5 nomenclature.

¹⁶ Codes for posttraumatic stress disorder and acute stress disorder diagnoses have been grouped under *trauma- and stressor-related disorders*, consistent with DSM-5. Codes for adjustment disorders have also been subsumed into this diagnostic group.

¹⁷ The code for separation anxiety disorder has been grouped with anxiety disorders, consistent with DSM-5.

Mental Health Diagnostic Groups With Corresponding ICD-10 Diagnostic Codes

The listings below group ICD-10 codes into a modified form of Clinical Classification Software (CCS) mental health “multi-level” diagnostic category codes (5.1, 5.2, and so on) and corresponding labels (trauma- and stressor-related disorders, anxiety disorders, and so on). Notes:

- **Bold** diagnostic groups are displayed in one or more tables in this report; records with ICD-10 codes in other diagnostic groups are grouped together as “other” mental health diagnoses.
- Entries in brackets ([650], [651], and so on) are single-level diagnosis categories that are otherwise ignored in this report but are noted here for convenience.
- The ICD-10 diagnostic codes shown below have omitted the dot separator after the first three digits.
- Some diagnostic groups implemented by CCS for ICD-9 codes were not implemented for ICD-10 codes (conduct disorders, oppositional defiant disorders, attention deficit and attention deficit hyperactivity disorders, pervasive developmental disorders, bipolar disorders, and depressive disorders). ICD-10 codes from broader CCS diagnostic categories were assigned to these more specific diagnostic groups, based on the ICD-10 code’s detailed meaning.
- The groupings of certain ICD-10 codes have been reorganized according to DSM-5 nomenclature.
