When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
AZ	Yes	Yes	-	-	-
US	36	25	3	7	25

**Note:**

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

**State Notes:**

URS Table Number	General Notes
2A, 2B, 3, 4, 5, 5A, 5B, 6, 12, 14A, 14B, 15, 15A, 16	The reporting methodology was changed for this reporting period. This included a change in the data source. The previous data source was self reported and was not validated against actual utilization experience. The redesign now pulls most of the data from our claims/encounter data system, which results in more robust data and reflects true utilization experience of our clients. This also results in significant differences not only in number of clients, but on certain availability of data (i.e., ethnicity, living situation), which we will be working on how to capture this data in the future.
9, 11, 11A, 19A, 19B	Effective July 1, 2016 the Arizona Department of Health Services/Division of Behavioral Health Services (ADHS/DBHS) merged with the state Medicaid agency (Arizona Health Care Cost Containment System-AHCCCS) as a result of the state's administrative simplification. As part of this process, AHCCCS reviewed all ADHS/DBHS deliverables, including the Member Satisfaction Survey, to understand data methodologies and streamline data sources. AHCCCS continues to evaluate the best method to collect this data from our members.
15	We are currently not collecting this data. We will review our process to initiate a change to capture this data in the future.
16A	We currently do not have all the data requested in this table in our database systems, which is why it has not been reported in the past.
