Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table 3 and 6.

Table 3 State Notes:

Age None
 Overall Data are from the FY19 Section 904 Quality Improvement File, Division of Quality Management and Planning. Does not include Forensic patients. State Inpatient data is taken from the Avatar system.
 Gender None

Table 6 State Notes:

Hospital Includes both Forensic and non-forensic. Michigan collects admission, discharge and state hospital census information through the AVATAR system which is the Electronic Medical System for Michigan's State inpatient Hospitals.
 Other Inpatient Other psychiatric inpatient data is from Michigan's encounter data system.
 Residential None
 Community None
 Overall None

APPROPRIATENESS DOMAIN: Length of Stays in State Psychiatric Hospitals, Other Psychiatric Inpatient and Residential Treatment Centers for Children Settings, FY 2020

Notes:

This table uses data from URS Table 11a.

State Notes:

Michigan did not implement the MHSIP and YSS surveys during 2020. The Quality Improvement Council will determine what populations to include in the next survey and whether a different survey should be implemented.

Outcomes Domain: Change in Social Connectedness and Functioning, FY 2020

Michigan

Reporting Period: 10/1/2019 To: 9/30/2020

| Indicators | Children | | | | Adults | | | |
|---|----------|------------|-----------|------------------|--------|------------|-----------|------------------|
| | State | US Average | US Median | States Reporting | State | US Average | US Median | States Reporting |
| Percent Reporting Improved Social Connectedness from Services | - | 88.4% | 87.3% | 42 | - | 79.2% | 72.9% | 46 |
| Percent Reporting Improved Functioning from Services | - | 75.3% | 70.2% | 42 | - | 80.4% | 73.2% | 46 |

Note:

This table uses data from URS Table 9.

US State Averages and Medians are calculated only with states which used the recommended Social Connectedness and Functioning questions.

| Adult Social Connectedness and Functioning Measures | State | US |
|--|-------|----|
| Did you use the recommended new Social Connectedness Questions? | - | 43 |
| Did you use the recommended new Functioning Domain Questions? | - | 44 |
| Did you collect these as part of your MHSIP Adult Consumer Survey? | - | 43 |

| Children/Family Social Connectedness and Functioning Measures | State | US |
|---|-------|----|
| Did you use the recommended new Social Connectedness Questions? | - | 40 |
| Did you use the recommended new Functioning Domain Questions? | - | 41 |
| Did you collect these as part of your YSS-F Survey? | - | 40 |

Michigan

| URS Table Number | General Notes |
|------------------|--|
| 7 | During 2020 State Employees had a temporary layoff of 10 days, which decreased payroll. Also, cost allocation is variable and was less in 2020 than in 2019. |
| 8 | In previous years Michigan under allocated block grant funds. In 2020 Michigan allocated additional block grant funds. |
| 12 | Ten percentage point increase from previous year in adults reported as SMI and children/adolescents reported as SED. At beginning of the current reporting year, edits were put in place to disallow agencies submitting the BHTEDS update or discharge demographic data to report 'not evaluated' for the general MI/SED data element which identifies whether the individual has been evaluated and/or the individual has a DSM MI diagnosis, exclusive of intellectual disability, developmental disability, or substance use disorder OR if the individual has a Serious Emotional Disturbance. The additional focus on this general question may have improved reporting for the subsequent detailed question as to whether the individual meets the current Michigan Mental Health Code definition of serious mental illness or serious emotional disturbance. |
| 12 | Increase in percentage of adults and children served reported with co-occurring MH/SA diagnoses. At the beginning of the current reporting year, edits were put in place to disallow agencies reporting BH TEDS records to report 'no' to the co-occurring question if the individual was reported to have a substance use disorder. These new edits were put in place avoid the errors when we submitted BHTEDS to SAMHSA. |
| 15A | For community mental health counts, BHTEDS was used to determine SMI/SED as well as age. Those with missing BHTEDS are excluded from the community mental health counts. Those with state or other psychiatric inpatient are considered to be SMI/SED. Those with missing BHTEDS (and age information) are included in these counts. |
| 16 | The decrease in the number of clients receiving supported housing services is a result of the department classifying the description of Supported Housing to exclude payment of rent. |
| 20A | Starting 2019, Michigan uses admission, discharge and state hospital census information collected through the AVATAR system which is the Electronic Medical System for Michigan's State inpatient hospitals. |
| 20B | Michigan collects admission, discharge and state hospital census information through the AVATAR system which includes the Electronic Medical System for Michigan's forensic State inpatient Hospital. |
