-- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Some 2006 to 2010 sample sizes may differ from previously published sample sizes due to updates (see Chapter 3 of the *2020 National Survey on Drug Use and Health: Methodological Summary and Definitions*).

NOTE: Because of a change in the sample allocation by age group in 2014, the sample size distribution for 2014 and later years is different from the distribution for prior years. See Section A.1 in the 2014 NSDUH methodological summary and definitions report (CBHSQ, 2016).

NOTE: In 2020, the COVID-19 pandemic significantly impacted data collection, response rates, and sample sizes. See the *2020 National Survey on Drug Use and Health Methodological Summary and Definitions* for details.

Definitions: Measures and terms are defined in Appendix A.
