100-199%	918	1,313	779	446
200% or More	792	2,380	2,250	95

* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Estimates in this table for 2020 exclude a subset of respondents who did not complete the questionnaire. The analysis weights and estimates were adjusted for the reduced sample size. See the *2020 National Survey on Drug Use and Health: Methodological Summary and Definitions* for details.

NOTE: Respondents with unknown information on their perception of the COVID-19 pandemic's effect on their financial worries or loss of permanent housing were excluded from the respective analyses.

¹ Respondents aged 18 to 22 who were living in a college dormitory were excluded.

Definitions: Measures and terms are defined in Appendix A.
