65 or Older	30	<i>19</i>	50	<i>69</i>	29	<i>17</i>	69	<i>71</i>

* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Estimates in the 2020 column are italicized to indicate caution should be used when comparing estimates between 2020 and prior years because of methodological changes for 2020. Due to these changes, significance testing between 2020 and prior years was not performed. See the *2020 National Survey on Drug Use and Health: Methodological Summary and Definitions* for details.

NOTE: Received Substance Use Treatment includes treatment received at any location, such as a hospital (inpatient), rehabilitation facility (inpatient or outpatient), mental health center, emergency room, private doctor's office, self-help group, or prison/jail.

¹ Estimates include people who received treatment specifically for illicit drugs or alcohol, as well as people who received treatment for unspecified substance(s).

Definitions: Measures and terms are defined in Appendix A.
