* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Estimates in the 2020 column are italicized to indicate caution should be used when comparing estimates between 2020 and prior years because of methodological changes for 2020. Due to these changes, significance testing between 2020 and prior years was not performed. See the *2020 National Survey on Drug Use and Health: Methodological Summary and Definitions* for details.

NOTE: Estimates in this table for 2020 exclude a subset of respondents who did not complete the questionnaire. The analysis weights and estimates were adjusted for the reduced sample size. See the *2020 National Survey on Drug Use and Health: Methodological Summary and Definitions* for details.

NOTE: Respondents with unknown past year Major Depressive Episode (MDE) data were excluded.

¹ Respondents with unknown impairment data were excluded.

² Respondents with unknown past year treatment for depression data were excluded.

³ Other Employment includes students, people keeping house or caring for children full time, retired or disabled people, or other people not in the labor force.

Definitions: Measures and terms are defined in Appendix A.
