General Medicine								
Pediatrician or Other Family Doctor	44	70	21	31	29	42	31	50
Juvenile Justice								
Juvenile Detention Center, Prison, or Jail	10	10	5	6	7	3	6	6
Child Welfare								
Foster Care or Therapeutic Foster Care	17	21	7	15	12	13	10	8

* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Estimates in the 2020 column are italicized to indicate caution should be used when comparing estimates between 2020 and prior years because of methodological changes for 2020. Due to these changes, significance testing between 2020 and prior years was not performed. See the *2020 National Survey on Drug Use and Health: Methodological Summary and Definitions* for details.

NOTE: Mental health services for people aged 12 to 17 includes treatment/counseling for emotional or behavioral problems not caused by drug or alcohol use. Respondents with unknown mental health service information were excluded. Questions on virtual services were added in Quarter 4 of 2020. Estimates in this table do not include data from these questions. Data on virtual services are included at the end of this section. See the *2020 National Survey on Drug Use and Health: Methodological Summary and Definitions* for details.

NOTE: Respondents could indicate multiple service settings; thus, the response categories are not mutually exclusive.

¹ Respondents who did not report their school enrollment status, who reported not being enrolled in school in the past 12 months, or who reported being home-schooled were not asked about receipt of mental health services from this setting; however, respondents who reported not being enrolled in school in the past 12 months were classified as not having received mental health services from this setting.

Definitions: Measures and terms are defined in Appendix A.
