## Monitoring Drug Street Names Added to DAWN, January 2023 to August 2024

This Network Watch presents drug street names that appeared in the Drug Abuse Warning Network (DAWN) data for the first time from January 2023 to August 2024.

DAWN is a public health surveillance system that monitors alcohol and drug-related emergency department (ED) visits. DAWN collects detailed information on drug names, street names, and combinations reported during an ED visit. This information is maintained in a comprehensive classification system for flexible detection and monitoring.
