2023 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of SAMHSA's Community Mental Health Services Block Grant Report requirements. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 25 tables that are developed by SAMHSA in consultation with SMHAs. The 2023 URS Output Tables present findings from 58 states and U.S. territories. The U.S. Virgin Islands was omitted because they did not submit any data. Each output table provides summary information on the SMHA clients served in 2023: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, Medicaid funding status, living situation, employment status, crisis response services, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2023, 8,253,780 clients received SMHA services from 58 states and U.S. territories/jurisdictions.This is an increase from 8,180,236 clients served by the SMHAs in 2022. There were 6,015,438 adults (or 23.0 per 1,000), 2,229,152 children (or 30.7 per 1,000) served. Age data was missing for 9,190 (0.1 percent) clients served.

- Among SMHA clients, there were 4,418,899 (53.5 percent) females served while there were 3,766,336 (45.6 percent) males served. In the majority of states (41), more females were served than males, and in the remaining states (17), more males were served than females.

- The age distribution of SMHA clients served was the largest among ages 25-44 with 33.2 percent, followed by ages 45-64 with 22.5 percent, children ages 13-17 with 12.7 percent, and children ages 6-12 with 11.8 percent.

- Over half of SMHA clients served were White, comprising the largest racial category at 56.8 percent; Black or African American clients comprised the next largest group with 17.3 percent. Race data was missing for 12.5 percent of clients served. When looking at ethnicity, the majority of SMHA clients served were non-Hispanic (68.5 percent), while 15.2 percent were Hispanic.

Idaho 2023 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 Population	8,253,780	7.62	24.50	58
Community Utilization per 1,000 Population	8,003,047	6.11	23.75	58
State Hospital Utilization per 1,000 Population	114,039	0.99	0.34	54
Other Psychiatric Inpatient Utilization per 1,000 Population	385,614	2.77	1.33	41

Notes:

Are Client Counts Unduplicated? Unduplicated **Number of States with Unduplicated Counts** 44

This table uses data from URS Table 2A, Table 2B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2022-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.
The penetration rates for Transgender, Gender Non-Conforming, Other gender, Some Other Race, as well as Age, Gender, Race, and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 3 and from U.S. Census Bureau. All denominators for penetration rates use the SC-EST2022-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

The penetration rates for Transgender, Gender Non-Conforming, and Other gender, as well as Age Not Available and Gender Not Available are not reported on this table because the U.S. Census data does not include these categories.

State Notes:

Age	None
Gender	None
Overall	Populated by the BHSIS Project Office using ID's 2023 MH-CLD BCI dataset.

Notes:

This table uses data from URS Table 3 and 6.

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

Table 3 State Notes:

Age	None
Gender	None
Overall	Populated by the BHSIS Project Office using ID's 2023 MH-CLD BCI dataset.

Table 6 State Notes:

State Psychiatric Hospital	None
Other Psychiatric Inpatient	None
Residential Treatment Centers	None
Community Mental Health Programs	None
Overall	ID's age brackets do not match URS age brackets. Age N/A for each service setting is sum of all clients served. See General Comments.

Notes:

Resident clients are clients who were receiving services in inpatient settings at the end of the reporting period.

This table uses data from URS Table 6.

State Notes:

State Psychiatric Hospitals	None
Other Psychiatric Inpatient	None
Residential Treatment Centers	None
Overall	ID's age brackets do not match URS age brackets. Age N/A for each service setting is sum of all clients served. See General Comments.

APPROPRIATENESS DOMAIN: Percent of Adults and Children Served Who Meet the Federal Definition of SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring Mental and Substance Use Disorders, FY 2023

Idaho **Reporting Period:** 7/1/2022 To: 6/30/2023

Adults and Children Who Meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	100.0%	70.9%	77.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	100.0%	69.3%	74.0%	57

Co-Occurring MH and Substance Use Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring M/SUD	11.0%	27.1%	24.5%	56
Percent of Children served through the SMHA who had a co-occurring M/SUD	2.0%	6.9%	2.5%	54
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance use diagnosis	11.0%	26.8%	25.0%	54
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance use diagnosis	2.0%	6.9%	2.5%	54

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

Percent of clients served by the SMHA with co-occurring MH/SA diagnosis= (number of clients that have a SUD Dx code listed in the "Substance Abuse Diagnosis" field the MH-CLD file (field number C-20))/(number of clients that have a Mental Health Dx code listed in the "Mental Health Diagnosis-One" field in the MH-CLD file (field number C-17)). This process was performed for both clients ages 0-17 (children) and 18+ (adults).

State Notes:

None

Forensics included in "non forensic" data? No

Notes:

U.S. figures are based on states reporting. This table uses data from URS Tables 20A and 20B.

The ethnicity categories may not sum to the total number of readmissions and discharges because some states do not collect and report ethnicity separately from race.

State Notes:

Populated by the BHSIS Project Office using ID's 2023 MH-CLD SHR dataset.

ProActive Youth and Family Crisis Center	562 Shoup Ave	Statewide	$82,443	$0	$82,443	$0	$0	$0

General Notes, FY 2023

Idaho

URS Table Number	General Notes
2C, 2D	Idaho will not be reporting on this data for FY2024. After FY2024 the Managed Care Contractor will be completing the Data Collection and if it is required by SAMSHA they will collect the data.
3	Changes in number of consumers served in community programs and other psychiatric inpatient could be due to the changing the process for DE work. Previously the state was not responsible for the hospitalization cost until the client was committed. That was changed last year and the state is now responsible the date the hold begins. This has changed how we capture Other Psychiatric Inpatient.
4, 14C	The Division continues to transition clients to community providers, so the state anticipates seeing a reduction in client numbers over time. Clients formerly serviced by the Division of Behavioral Health were transitioned to community providers who offered the same services. Many of those clients were eligible for Medicaid because of Medicaid Expansion. The new Idaho Behavioral Health Plan MCO will ensure that services that were previously offered through DBH are either maintained or expanded as our statewide BH system continues to move toward a better and integrated SOC.
5A	Idaho does not collect Medicaid data.
6	The Division continues to transition clients to community providers and anticipates seeing a reduction in client numbers over time. Idaho Report was developed by vendor and is hard coded for 3 age categories. The vendor did not have capacity to modify the report prior to URS submission requirements. Idaho will not be able to report data under the URS age brackets for FY2024. After FY2024 the Managed Care Contractor will be completing the data collection and if it is required by SAMSHA they will collect the data and will be reporting the values by age categories listed.
7A	State funds increased due to a CMH budget increase from state funds of 15 million and increases in state funding for state hospitals, other psychiatric hospitals, and ambulatory care. Another increase occurred in administration because of additional training, now including state portion of allocated direct costs not previously included.
7B	The most significant increase in ESMI spending resulted from the SMHA using $35,380 from Covid Supplemental funds to provide CSC training for all four Idaho STAR CSC programs. COVID Supplemental funds were not used for ESMI training the previous year.
8	There are increases in QA for consultation both for the SMHA/Centers of Excellence, consultation for the Youth Crisis Centers, increases tied to standing up Youth Crisis Centers aside from consultation, and significant increases in Training and Education for crisis, ESMI, PLL, and ACT.
9	There were fewer clients due to transition of direct services to community providers and fewer responses to the Participant Survey.
12	State MH Agency client rolls continue to decrease as clients are transitioned to community providers. Often the clients move to Medicaid and at this time access to Medicaid data is limited. Once the new MCO for the Idaho Behavioral Health Plan is in place, this should change.
14A	The Division continues to transition clients to community providers and anticipates seeing a reduction in client numbers over time. At present, Idaho is unaware of impacts on racial/ethnic/age groups but the DBH, MCO, and Medicaid are working together to track the implementation of the new MCO to avoid disruptions to care. The DBH, MCO, and Medicaid are also working collaboratively to ensure the collection of MHBG required data.
15	Total number of persons served reduced because the DBH continues to transition voluntary clients to community providers.
15, 16A, 16B	The Division continues to transition clients to community providers, so we anticipate seeing a reduction in client numbers over time.
`16A	Idaho does not provide Therapeutic Foster Care, Multisystemic Therapy, or Family Functional Therapy/
16B	The report for Integrated Treatment was built by the Vendor and is hard coded per previous requirements. Idaho did not have the capacity to have the report rebuilt prior to data submission requirements. Counts in Integrated Treatment for Co-occurring Disorders have been combined for ages 21-64 and entered in age N/A category.

URS Table Number	General Notes
17	Call Centers: Idaho does not have the capacity to provide the data by age categories for clients served. 24/7 Mobile Crisis Team Data is not available by these age categories. Idaho is currently building capacity to capture the data for Youth (ages 0-17) in Crisis Stabilization Programs. Table 17 has been updated to reflect ‘Age Not Available” as Idaho did not have the capacity to provide the information for FY2023. Idaho will be reporting the values by age categories for FY2024. After FY2024 the new MCO will be completing data collection and will report the values by age categories.
19A, 19B	Idaho does not collect this data and has historically never completed these tables.
20A	The increase in readmits is most likely tied to changes to Idaho's DE process, which was implemented over the time period for this report.
