2023 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of SAMHSA's Community Mental Health Services Block Grant Report requirements. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 25 tables that are developed by SAMHSA in consultation with SMHAs. The 2023 URS Output Tables present findings from 58 states and U.S. territories. The U.S. Virgin Islands was omitted because they did not submit any data. Each output table provides summary information on the SMHA clients served in 2023: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, Medicaid funding status, living situation, employment status, crisis response services, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2023, 8,253,780 clients received SMHA services from 58 states and U.S. territories/jurisdictions. This is an increase from 8,180,236 clients served by the SMHAs in 2022. There were 6,015,438 adults (or 23.0 per 1,000), 2,229,152 children (or 30.7 per 1,000) served. Age data was missing for 9,190 (0.1 percent) clients served.

- Among SMHA clients, there were 4,418,899 (53.5 percent) females served while there were 3,766,336 (45.6 percent) males served. In the majority of states (41), more females were served than males, and in the remaining states (17), more males were served than females.

- The age distribution of SMHA clients served was the largest among ages 25-44 with 33.2 percent, followed by ages 45-64 with 22.5 percent, children ages 13-17 with 12.7 percent, and children ages 6-12 with 11.8 percent.

- Over half of SMHA clients served were White, comprising the largest racial category at 56.8 percent; Black or African American clients comprised the next largest group with 17.3 percent. Race data was missing for 12.5 percent of clients served. When looking at ethnicity, the majority of SMHA clients served were non-Hispanic (68.5 percent), while 15.2 percent were Hispanic.

Palau 2023 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 Population	8,253,780	17.50	24.50	58

Notes:

Are Client Counts Unduplicated? Unduplicated **Number of States with Unduplicated Counts** 44

This table uses data from URS Table 2A, Table 2B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2022-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.
The penetration rates for Transgender, Gender Non-Conforming, Other gender, Some Other Race, as well as Age, Gender, Race, and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2A

Age	None
Gender	The program system has not started collecting data on the new gender categories of Transgender and Gender Non-conforming.
Race	None
Overall	The decrease in the total number of persons served is due to the clients' death; exclusion of services to clients with neurological and developmental disorders; and to clients with dementia. Last year's count included these numbers.

Table 2B

Age	None
Gender	None
Ethnicity	None
Overall	None

Other	-	-	4	0.0%	-	-	1
Gender Not Available	-	-	306	0.3%	-	-	18

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 3 and from U.S. Census Bureau. All denominators for penetration rates use the SC-EST2022-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

The penetration rates for Transgender, Gender Non-Conforming, and Other gender, as well as Age Not Available and Gender Not Available are not reported on this table because the U.S. Census data does not include these categories.

State Notes:

Age	None
Gender	None
Overall	The decrease in the total number of persons served is due to the clients' death; exclusion of services to clients with neurological and developmental disorders; and to clients with dementia. Last years count included these numbers.

Notes:

This table uses data from URS Table 3 and 6.

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

Table 3 State Notes:

Age	None
Gender	None
Overall	The decrease in the total number of persons served is due to the clients' death; exclusion of services to clients with neurological and developmental disorders; and to clients with dementia. Last years count included these numbers.

Table 6 State Notes:

State Psychiatric Hospital	None
Other Psychiatric Inpatient	None
Residential Treatment Centers	None
Community Mental Health Programs	None
Overall	The decrease in the total number of persons served is due to the clients' death; exclusion of services to clients with neurological and developmental disorders; and to clients with dementia. Last years count included these numbers. N is small.

Notes:

Resident clients are clients who were receiving services in inpatient settings at the end of the reporting period.

This table uses data from URS Table 6.

State Notes:

State Psychiatric Hospitals	None
Other Psychiatric Inpatient	None
Residential Treatment Centers	None
Overall	The decrease in the total number of persons served is due to the clients' death; exclusion of services to clients with neurological and developmental disorders; and to clients with dementia. Last years count included these numbers. N is small.

APPROPRIATENESS DOMAIN: Percent of Adults and Children Served Who Meet the Federal Definition of SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring Mental and Substance Use Disorders, FY 2023

Palau **Reporting Period:** 10/1/2022 To: 9/30/2023

Adults and Children Who Meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	100.0%	70.9%	77.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	100.0%	69.3%	74.0%	57

Co-Occurring MH and Substance Use Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring M/SUD	21.0%	27.1%	24.5%	56
Percent of Children served through the SMHA who had a co-occurring M/SUD	10.0%	6.9%	2.5%	54
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance use diagnosis	15.6%	26.8%	25.0%	54
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance use diagnosis	10.0%	6.9%	2.5%	54

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

Counted clients that are categorized with SMI/SED and with Substance Abuse Diagnosis. Data changes in one year accounts for the improvement of data collection and coding of mental health diagnosis in the system for reporting.

State Notes:

None

When Is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
PW	Yes	-	-	-	Annually, during the survey on client satisfaction
US	38	18	2	7	24

Notes:

This table uses data from URS Table 4.

Consumers employed as a % of those in labor force uses the sum of adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of adults employed, unemployed and not in labor force as the denominator.

State Notes:

Age	None
Gender	None
Overall	The decrease in "NOT AVAILABLE" is due to the fact that Employment status was asked during the annual client satisfaction survey.

Forensics included in "non forensic" data? -

Notes:

U.S. figures are based on states reporting. This table uses data from URS Tables 20A and 20B.

The ethnicity categories may not sum to the total number of readmissions and discharges because some states do not collect and report ethnicity separately from race.

State Notes:

Palau does not have a state psychiatric hospital. Undergoing efforts to develop reporting for this table in the future.

STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2023

Palau

Reporting Period: 10/1/2022 To: 9/30/2023

Palau

Reporting Period: 10/1/2022 To: 9/30/2023

Agency Name	Address	Area Served	Total Block Grant Funds	Block Grant for Adults with SMI	Block Grant for Children with SED	Set-Aside for FEP Programs	Set-Aside for ESMI Programs	Set-Aside for Crisis Services

Palau did not report any data to populate the table.

General Notes, FY 2023

Palau

URS Table Number	General Notes
2A	Other individuals removed from the list were screening clients. These individuals were not provided services for SED/SMI
4	Question of employment and labor activities were added to the Customer Satisfaction Survey, our interviewers asked the clients about their current employment status, thus resulting in changes in employment status categories. Because during COVID 19, there was a surge in the community for socio economic development through other labor activities such as farming.
7A	Changes in administrative expenditures were to allow for more direct service. Changes in the Grand Total Expenditure and Crisis Services accounts for change in the mental health block grant and supplemental grants for COVID and ARP. The Increase in Ambulatory/Community Non-24-Hour Care expenditures accounts for supplemental funds. The decrease in Crisis Services is due to reduced supplemental funding.
12	Data changes in one year accounts for the improvement of data collection and coding of mental health diagnosis in the system for reporting.
14A	N is small for our small population.
15	The overall decrease is due to adding the question on living status on the Customer Satisfaction Survey, our interviewers asked the clients about their current living situation, thus resulting in changes in living status categories. Significant change was living in correctional facility now living in a residence.
16A, 16B, 16C	Efforts underway to develop reporting for this table in the future.
16D	PW has plans to collect and/or report data for this table for FY2024 or beyond.
20A, 20B	PW does not have a state psychiatric hospital. Efforts underway to develop this measure.
