2025 Uniform Reporting System Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of SAMHSA's Community Mental Health Services Block Grant Report requirements. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 29 tables developed by SAMHSA in consultation with SMHAs. The 2025 URS Output Tables present findings from 59 states and U.S. territories/jurisdictions.

Each output table provides summary information on clients served by SMHAs in 2025, including sociodemographic characteristics, outcomes of care, utilization of selected evidence-based practices, client perceptions of care, Medicaid funding status, living situation, employment status, crisis response services, and readmissions to state psychiatric hospitals within 30 and 180 days. Key findings are highlighted below:

- In 2025, 7,883,203 clients received SMHA services across 59 states and U.S. territories/jurisdictions, a slight decrease from 7,945,185 clients served in 2024. Several states reported factors that contributed to lower reporting levels in 2025.

- A total of 5,741,738 adults (21.5 per 1,000) and 2,139,132 children (29.2 per 1,000) received services. Age data were missing for 2,333 clients (<0.1 percent).

- Among SMHA clients served, 4,121,599 (52.3 percent) were female, while 3,708,410 (47.0 percent) were male. In most states (34), more females than males were served; in the remaining 25 states, more males than females were served.

- The largest proportion of SMHA clients served were adults ages 25–44 (33.7 percent), followed by adults ages 45–64 (22.1 percent), children ages 6–12 (12.3 percent), and adolescents ages 13–17 (12.1 percent).

- More than half of SMHA clients served were White (56.2%), followed by Black or African American clients (18.1%). Race was missing for 11.5% of clients. Most clients were non-Hispanic (68.5%), while 15.0% were Hispanic.

District of Columbia 2025 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 Population	7,883,203	61.89	22.94	59
Community Utilization per 1,000 Population	7,661,571	60.94	22.29	59
State Hospital Utilization per 1,000 Population	120,089	0.90	0.35	54

Notes:

Are Client Counts Unduplicated? Unduplicated **Number of States with Unduplicated Counts** 47

This table uses data from URS Table 2A, Table 2B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2024-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.
The penetration rates for Some Other Race and Not Available (for Age, Sex, Race, and Ethnicity) are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Tables 5A and 5B.

The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

Notes:

This table uses data from URS Table 14A, Table 14B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2024-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

The penetration rates for Some Other Race, as well as Age, Sex, Race, and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Notes:

This table uses data from URS Table 3 and 6.

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

Table 3 State Notes:

Notes:

Resident clients are clients who were receiving services in inpatient settings at the end of the reporting period.

This table uses data from URS Table 6.

State Notes:

State Psychiatric Hospitals	None
Other Psychiatric Inpatient	None
Residential Treatment Centers	None
Overall	None

APPROPRIATENESS DOMAIN: Percent of Adults and Children Served Who Meet the Federal Definition of SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring Mental and Substance Use Disorders, FY 2025

District of Columbia **Reporting Period:** 10/1/2024 To: 9/30/2025

Adults and Children Who Meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	78.4%	71.2%	72.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	23.9%	71.9%	79.0%	58

Co-Occurring MH and Substance Use Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring M/SUD	27.8%	26.4%	24.5%	56
Percent of Children served through the SMHA who had a co-occurring M/SUD	4.8%	4.0%	3.0%	55
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance use diagnosis	24.0%	26.3%	24.5%	54
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance use diagnosis	1.0%	4.1%	3.0%	54

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 12.

How are the number of persons with co-occurring mental and substance use disorders counted and calculated?

The denominator is all consumers with a mental health service during the fiscal year. The numerator is those who also had a service with an SUD diagnosis during the year.

State Notes:
None

APPROPRIATENESS DOMAIN: Living Situation of Consumers Served by State Mental Health Agency Systems, FY 2025

Ethnicity Not Available	3,079	46.6%	17,848	8.2%	24.8%	3.6%	43

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 15.

U.S. totals are calculated uniquely for each data element based on only those states that reported numerator (clients served) data.

The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

State Notes:

None

APPROPRIATENESS DOMAIN: Evidence-Based Practices Reported by SMHAs, FY 2025

District of Columbia

Reporting Period: 10/1/2024 To: 9/30/2025

Family Functional Therapy	3	1,137	71,937	708,213	0.3%	10.2%	Yes	6	20

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Tables 16A and 16B.

EBP N is the number of individuals reported that received this service; SMI N is the number of individuals with SMI that received this service.

U.S. averages, US SMI N, and US SED N data values are calculated uniquely for each data element based on only those states that reported clients served data for the EBP.

State Notes:

Table 16A: None

Table 16B: DC does not provide these services.

STRUCTURE DOMAIN: Agencies Receiving Mental Health Block Grant Funds from the State Mental Health Authority, FY 2025

District of Columbia

Reporting Period: 10/1/2024 To: 9/30/2025

Agency Name	Address	Area Served	Total Block Grant Funds	Block Grant for Adults with SMI	Block Grant for Children with SED	Set-aside for ESMI including Psychotic Disorders	Set-aside for Crisis Services

District of Columbia did not report any data to populate the table.

State General Data Notes, FY 2025

District of Columbia

URS Table Number	General Data Notes
2A	For Asian and More than One Race percentage differences, it is a case of the smaller the number, the greater the percentage change and vice versa. DC also improved on the unknown numbers; some of those have fallen in these categories.
4	DC has made data quality improvements which reduced the 'unknown' numbers, hence increased the known values for these categories.
6, 14A, 16A, 20A, 20B, 21	It is a case of small numerical change = larger percentage.
7A	Total MHBG Expenditures: Explained by an overall underspending of Year (1) of FY 24 Award balance was spent in FY 2025. Total Medicaid Expenditures: Expenditures overstated in previous year but rightsized and accurately captured in FY 25. Total Other Funds Expenditures: Decrease represents the winding down of the various Block grant supplements (COVID and ARPA) as grant projects ended in 2025. Total Local Funds Expenditures: Expenditures were omitted in previous year. Total Other Expenditures: Change reflects expenditures that were previously overstated but now being rightsized. Total EBP for ESMI Expenditures: Increase represents a reinvestment of additional available resources towards this service. Total Ambulatory/Community Non-24 Hour Care Expenditures: Expenditures overstated in previous year but rightsized and accurately captured in FY 25. Total Administration Expenditures: Decrease represents the winding down of the various Block grant supplements (COVID and ARPA) as grant projects ended in 2025. Expenditures for other funds were also understated in previous year but rightsized in FY 2025. Grand Total Expenditures: Increase can be explained by additional ARPA & COVID Federal funds supplements. Also includes other funds expenditures DC failed to include in the previous year. Total COVID-19 Relief Funds Expenditures: COVID-19 relief maximized in FY 2025 as grant project wound down. TOTAL ARP Funds Expenditures: Decrease represents the winding down of the various Block grant supplements (COVID and ARPA) as grant projects ended in 2025. Expenditures were also understated in previous year but rightsized in FY 2025. Total Other Psychiatric Inpatient Care: Increase represents an understatement in previous year but rightsized in FY2025 Total Bipartisan Safer Communities Funds: Grant funds new in FY 2025. Administrative and ARP costs: These increases reflect available unspent balances from prior years carried forward. The COVID/ ARPA Block grants Supplements had their own categories/columns. However, during the previous year, DBH also had the Federal ARPA (State, Municipal, County) Federal Funds which were recorded as “other federal funds”. These funds ended at the end of FY 2024, which explains the drop of -71% over the next year.
7B	Total Mental Health Block Grant Funds: Explained by an overall underspending in Year (1) of the FY 24 General Block grant. Difference was spent in Year 2 or FY2025. Total Other Federal Funds: Absence of General purpose funds expenditures previously available in FY 2024. Total State Funds: Rightsizing of expenditures in FY 2025. Total COVID-19 Relief Funds (MHBG): Less COVID-19 Relief funds available in FY 25. Training for CSC Practices: Less COVID-19 Relief and ARP Block grant funds available in FY 2025. Other ESMI Programs (other than FEP or partial CSC programs): Increase can be explained by additional available new resources and the rightsizing of expenditures in FY 2025.

URS Table Number	General Data Notes
7C	Total Mental Health Block Grant Funds: Explained by an overall underspending in Year (1) of the FY 24 Block grant. Difference was spent in Year 2 or FY 2025 Total Medicaid funds: Expenditures overstated in previous year. Total Other Federal Funds: Includes other federal grant funds which should not have been captured Total State Funds: Expenditures understated in previous years but now rightsized. Total ARP Funds (MHBG): Available unobligated ARP funds not spent in FY 2024. Total BSCA Funds (MHBG): New grant in FY 2025. Call Centers: Can be explained by the decrease in available COVID-19 Relief and ARP funds as grant wound down in FY 2025. No Medicaid funds were spent on Crisis Services.
8A	Total MHBG Expenditures for Non-Direct Service Activities: Explained by an overall underspending in Year (1) of FY 24 award. Difference will be spent in Year 2 or FY 2025. Total COVID-19 Expenditures for Other Capacity Building Systems Development Activities: Remaining COVID funds were maximized for this category in FY 2024. Total ARP funds Expenditures for Other Capacity Building/Systems Development Activities: More available ARP funds were invested into Other Capacity Building/Systems Development Activities as grant wound down in FY 2025.
12	For Adults percentage differences, the SUD system expanded in 2025 (addition of new providers) which resulted in more overlap with the MH numbers for adults. For the Children percentage changes, it is a case of small numerical change = larger percentage.
15	Improvement in 'Not Available' resulted in other categories getting more consumers and hence the percentage difference.
16A	The MST/FFT differences - Case of small numbers = larger percentage. For Supported Employment differences - The administrative requirements for supported employment is complex; that made FY25 numbers lower.
21	Individuals in care (IICs) with multiple discharge episodes were included, compared to last year, where only the latest discharge episode was included. Hence total discharge numbers are higher.
