2025 Uniform Reporting System Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of SAMHSA's Community Mental Health Services Block Grant Report requirements. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 29 tables developed by SAMHSA in consultation with SMHAs. The 2025 URS Output Tables present findings from 59 states and U.S. territories/jurisdictions.

Each output table provides summary information on clients served by SMHAs in 2025, including sociodemographic characteristics, outcomes of care, utilization of selected evidence-based practices, client perceptions of care, Medicaid funding status, living situation, employment status, crisis response services, and readmissions to state psychiatric hospitals within 30 and 180 days. Key findings are highlighted below:

- In 2025, 7,883,203 clients received SMHA services across 59 states and U.S. territories/jurisdictions, a slight decrease from 7,945,185 clients served in 2024. Several states reported factors that contributed to lower reporting levels in 2025.

- A total of 5,741,738 adults (21.5 per 1,000) and 2,139,132 children (29.2 per 1,000) received services. Age data were missing for 2,333 clients (<0.1 percent).

- Among SMHA clients served, 4,121,599 (52.3 percent) were female, while 3,708,410 (47.0 percent) were male. In most states (34), more females than males were served; in the remaining 25 states, more males than females were served.

- The largest proportion of SMHA clients served were adults ages 25–44 (33.7 percent), followed by adults ages 45–64 (22.1 percent), children ages 6–12 (12.3 percent), and adolescents ages 13–17 (12.1 percent).

- More than half of SMHA clients served were White (56.2%), followed by Black or African American clients (18.1%). Race was missing for 11.5% of clients. Most clients were non-Hispanic (68.5%), while 15.0% were Hispanic.

Florida 2025 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 Population	7,883,203	7.57	22.94	59
Community Utilization per 1,000 Population	7,661,571	7.57	22.29	59
State Hospital Utilization per 1,000 Population	120,089	0.22	0.35	54
Other Psychiatric Inpatient Utilization per 1,000 Population	413,348	0.14	1.38	43

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	799,581	40.6%	52.2%	58
Employed (percent with Employment Data)**	799,581	27.5%	28.8%	58

Notes:

Are Client Counts Unduplicated? Unduplicated **Number of States with Unduplicated Counts** 47

This table uses data from URS Table 2A, Table 2B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2024-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.
The penetration rates for Some Other Race and Not Available (for Age, Sex, Race, and Ethnicity) are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Ethnicity Not Available	-	-	937,498	17.1%	-	-	-	45

Notes:

This table uses data from URS Table 14A, Table 14B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2024-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

The penetration rates for Some Other Race, as well as Age, Sex, Race, and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Notes:

This table uses data from URS Table 3 and 6.

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

APPROPRIATENESS DOMAIN: Percent of Adults and Children Served Who Meet the Federal Definition of SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring Mental and Substance Use Disorders, FY 2025

Florida **Reporting Period:** 7/1/2024 To: 6/30/2025

Adults and Children Who Meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	100.0%	71.2%	72.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	100.0%	71.9%	79.0%	58

Co-Occurring MH and Substance Use Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring M/SUD	9.6%	26.4%	24.5%	56
Percent of Children served through the SMHA who had a co-occurring M/SUD	2.5%	4.0%	3.0%	55
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance use diagnosis	10.4%	26.3%	24.5%	54
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance use diagnosis	2.5%	4.1%	3.0%	54

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 12.

How are the number of persons with co-occurring mental and substance use disorders counted and calculated?

Those reported with a co-occurring disorder or with at least one MH and one SU episode within the year.

State Notes:

None

Forensics included in "non forensic" data? No

Notes:

U.S. figures are based on states reporting. This table uses data from URS Tables 20A and 20B.

The ethnicity categories may not sum to the total number of readmissions and discharges because some states do not collect and report ethnicity separately from race.

State General Data Notes, FY 2025

Florida

URS Table Number	General Data Notes
2A, 14A	In 2024, individuals identified as “Other Race” were reported as “Not Available.” In 2025, these individuals were correctly reported as “Other Race.”
3, 6	In fiscal year 2023-2024 the Department began a concerted effort to reduce waitlists for admission to state hospitals. This resulted in faster processing time for admissions, increasing access to programs to assist individuals transitioning back into community settings after discharge from a state hospital, and increasing access to programs that diverted individuals away from commitment to state hospitals, including short-term residential treatment programs. In 2024-2025, there were less waitlist admissions, and more individuals served through diversionary community programs. The Department added an additional 40 beds that increased capacity in Other Psychiatric Inpatient settings for adults and children, specifically short-term residential and CSUs.
7A, 7C	Total Crisis Services (5 percent set-aside): The Legislature increased state funding for crisis stabilization, mobile crisis teams, and the 988 Suicide and Crisis Lifeline. Total ARP Funds (Crisis): This was the final year of American Rescue Plan funding and reflects the final amount expended. Total Bipartisan Safer Communities Funds: In Florida, federal dollars require spending authority from the state Legislature in order to utilize the funding. The spending authority for the 2024 BSCA award was received late. This was not the case for the 2025 award. Additionally, since each award has a two year expenditure cycle, funds not expended in the first year of the 2024 award were added to the budget for the first year of the 2025 award.
7A	Total MHBG Expenditures: This table is on a state fiscal year cycle. The amount reflects expenditures from two overlapping MHBG awards. Additionally, both of these awards received increases in federal funding. In Florida, federal funding requires spending authority from the Legislature in order to utilize the funds and increases in MHBG funds that are announced late in the first year of a two year expenditure cycle may often receive spending authority for the increase in the second year of the award, overlapping with the first year of the new award cycle. Total State Funds Expenditures: In state fiscal year 2024-2025, the Legislature increased state funds for mental health in the area of crisis services and special legislative proviso projects. Total Administration Expenditures: The 2025 report data for administration has been verified. The end of the American Rescue Plan, a federal discretionary grant, and an increased number of vacant positions, as well as administrative funding cuts in the early spring of 2025 contributed to a reduction in the administrative expenditures for 2024-2025.
7B	Total Mental Health Block Grant Funds: CSC teams created through the American Rescue Plan were moved over to the standard MHBG as the regular MHBG award increased and the temporary American Rescue Plan funding phased out. Total ARP Funds: This was the final year of American Rescue Plan funding and reflects the final amount expended.
7C	The Legislature increased state funding for crisis stabilization by $50 million, mobile crisis teams by $11.5 million, and the 988 suicide and crisis lifeline by $2.5 million for state fiscal year 2024-25 covered in the 2025 report. Call Centers: The 988 Suicide and Crisis Lifeline is a new and continually growing program. Each year, funding is increased to meet greater call volume. In 2025 the Department received increases in federal and state dollars for the program. 24/7 Mobile Crisis Teams: The Legislature increased state funding for mobile crisis response for the 2025 reporting year. Crisis Stabilization Programs: The Legislature increased funding for crisis stabilization services for the 2025 reporting year.
12	The SMHA in Florida does not oversee Medicaid. Prior to 2022, the percentage of children served by the SMHA with co-occurring MH/SU diagnoses was approximately 3%. From 2022 - 2024, increased funding through COVID and American Rescue Plan supplemental funding temporarily increased capacity. As this funding ran out, capacity decreased back to pre-supplemental levels.

URS Table Number	General Data Notes
15	These values reflect the most recent or discharge living status recorded for each client during the reporting year. Because clients may transition between multiple housing or treatment settings during the course of services, the final living status captured in the system may change over time. As a result, year-to-year variation may occur due to changes in client living arrangements rather than changes in reporting methodology.
16A	Therapeutic Foster Care services: Unknown reason for increase. This may have been a result of reduced Medicaid eligibility post-COVID.
