2025 Uniform Reporting System Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of SAMHSA's Community Mental Health Services Block Grant Report requirements. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 29 tables developed by SAMHSA in consultation with SMHAs. The 2025 URS Output Tables present findings from 59 states and U.S. territories/jurisdictions.

Each output table provides summary information on clients served by SMHAs in 2025, including sociodemographic characteristics, outcomes of care, utilization of selected evidence-based practices, client perceptions of care, Medicaid funding status, living situation, employment status, crisis response services, and readmissions to state psychiatric hospitals within 30 and 180 days. Key findings are highlighted below:

- In 2025, 7,883,203 clients received SMHA services across 59 states and U.S. territories/jurisdictions, a slight decrease from 7,945,185 clients served in 2024. Several states reported factors that contributed to lower reporting levels in 2025.

- A total of 5,741,738 adults (21.5 per 1,000) and 2,139,132 children (29.2 per 1,000) received services. Age data were missing for 2,333 clients (<0.1 percent).

- Among SMHA clients served, 4,121,599 (52.3 percent) were female, while 3,708,410 (47.0 percent) were male. In most states (34), more females than males were served; in the remaining 25 states, more males than females were served.

- The largest proportion of SMHA clients served were adults ages 25–44 (33.7 percent), followed by adults ages 45–64 (22.1 percent), children ages 6–12 (12.3 percent), and adolescents ages 13–17 (12.1 percent).

- More than half of SMHA clients served were White (56.2%), followed by Black or African American clients (18.1%). Race was missing for 11.5% of clients. Most clients were non-Hispanic (68.5%), while 15.0% were Hispanic.

Wyoming 2025 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 Population	7,883,203	9.55	22.94	59
Community Utilization per 1,000 Population	7,661,571	9.08	22.29	59
State Hospital Utilization per 1,000 Population	120,089	0.35	0.35	54
Other Psychiatric Inpatient Utilization per 1,000 Population	413,348	-	1.38	43

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	799,581	68.3%	52.2%	58

Notes:

Are Client Counts Unduplicated? Duplicated between Hospitals and Community **Number of States with Unduplicated Counts** 47

This table uses data from URS Table 2A, Table 2B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2024-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.
The penetration rates for Some Other Race and Not Available (for Age, Sex, Race, and Ethnicity) are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 2A

Notes:

This table uses data from URS Table 14A, Table 14B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2024-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

The penetration rates for Some Other Race, as well as Age, Sex, Race, and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Notes:

* Total number of states that reported the persons receiving Crisis Response Services for one or more age categories.

U.S. figures are based on states reporting.

This table uses data from URS Table 17.

States are at different stages of crisis services implementation. In some states, mobile crisis teams are not available 24/7 or statewide and states may staff and operate crisis stabilization programs in different ways.

State Notes:

Wyoming has 988 call centers under FG001225, however is currently unable to provide a unique caller count. Wyoming plans to have this information available after the completion of the data dashboard project.
Crisis stabilization services are accessible for all children in Wyoming, demonstrating the state's commitment to their well-being. While some services are statewide, others may vary by region for localized support. The Emergency Medical Treatment and Labor Act (EMTALA) ensures that children can seek emergency treatment at Medicare-participating hospitals.
Mobile crisis services exist in Wyoming at the community level, but the state does not currently fund this service; therefore, the state does not have access to the data.

Notes:

This table uses data from URS Table 3 and 6.

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

Table 3 State Notes:

Age	None
Sex	None
Overall	Please see General Comment in regard to the decrease in data from FY24 to FY25.

Table 6 State Notes:

State Psychiatric Hospital	None
Other Psychiatric Inpatient	Wyoming does not have access to non-state funded psychiatric inpatient data.
Residential Treatment Centers	Wyoming does not have access to non-state funded residential treatment center data.
Community Mental Health Programs	None

Notes:

Resident clients are clients who were receiving services in inpatient settings at the end of the reporting period.

This table uses data from URS Table 6.

State Notes:

State Psychiatric Hospitals	None
Other Psychiatric Inpatient	Wyoming does not have access to non-state funded psychiatric inpatient data.
Residential Treatment Centers	Wyoming does not have access to non-state funded residential treatment center data.
Overall	Please see General Comment in regard to the decrease in data from FY24 to FY25.

APPROPRIATENESS DOMAIN: Percent of Adults and Children Served Who Meet the Federal Definition of SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring Mental and Substance Use Disorders, FY 2025

Wyoming **Reporting Period:** 7/1/2024 To: 6/30/2025

Adults and Children Who Meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	70.7%	71.2%	72.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	80.2%	71.9%	79.0%	58

Co-Occurring MH and Substance Use Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring M/SUD	13.9%	26.4%	24.5%	56
Percent of Children served through the SMHA who had a co-occurring M/SUD	5.5%	4.0%	3.0%	55
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance use diagnosis	9.5%	26.3%	24.5%	54
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance use diagnosis	5.1%	4.1%	3.0%	54

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 12.

How are the number of persons with co-occurring mental and substance use disorders counted and calculated?

Clients who are seen in both a SUD and MH agency at the same time are considered co-occurring and is based off of a unique client count.

State Notes:

None

APPROPRIATENESS DOMAIN: Living Situation of Consumers Served by State Mental Health Agency Systems, FY 2025

Race Not Available	-	-	25,329	11.7%	-	3.3%	43
Hispanic or Latino	20	10.9%	42,142	19.5%	3.2%	4.5%	50
Not Hispanic or Latino	151	82.1%	156,626	72.3%	3.4%	5.2%	50
Ethnicity Not Available	13	7.1%	17,848	8.2%	4.3%	3.6%	43

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 15.

U.S. totals are calculated uniquely for each data element based on only those states that reported numerator (clients served) data.

The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

State Notes:

Please see General Comment in regard to the decrease in data from FY24 to FY25.

APPROPRIATENESS DOMAIN: Evidence-Based Practices Reported by SMHAs, FY 2025

Wyoming

Reporting Period: 7/1/2024 To: 6/30/2025

Adult EBP Services	State		US		Penetration Rate: % of Consumers Receiving EBP/Estimated SMI		Measuring Fidelity		States Reporting
	EBP N	SMI N	EBP N	SMI N	State	US Average	State	US

Family Functional Therapy	-	-	71,937	708,213	-	10.2%	-	6	20

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Tables 16A and 16B.

EBP N is the number of individuals reported that received this service; SMI N is the number of individuals with SMI that received this service.

U.S. averages, US SMI N, and US SED N data values are calculated uniquely for each data element based on only those states that reported clients served data for the EBP.

State Notes:

Table 16A: Wyoming does not collect this data.
Table 16B: Wyoming does not collect this data.

State General Data Notes, FY 2025

Wyoming

URS Table Number	General Data Notes
2A, 2B,3, 4, 4A, 5A, 5B, 6, 14A, 14B, 14C, 15, 19A, 19B	The Behavioral Health Division (Division) implemented a Behavioral Health Redesign ((BHR) https://wyoleg.gov/Legislation/2021/HB0038) of the publicly funded system of care, with an implementation date of July 1, 2024. The redesign effort involved a deliberate move away from prescriptive state general funding allowances for mental health versus substance use programs. The new approach prioritizes client needs over administrative categories, enhancing WY's ability to respond effectively to the diverse challenges faced by those supported by WY. This shift from dedicated MH and SA allocations to a unified, needs-based funding stream means that reported expenditures may now reflect natural fluctuations between MH and SA service categories, based on the actual demand and evolving needs of the client population. The Behavioral Health Redesign (BHR) shift in funding model did result in fewer mental health clients served. Overall, there was a decrease in total clients served from 2024 to 2025, with a higher percentage of those clients receiving substance use disorder services compared to previous years. The Division believes this reflects not only the BHR funding changes but also broader factors such as workforce capacity and provider adaptation to the new funding structure.
7A	Total MHBG Expenditures - MHBG expenditures increased in 2025 due to changes in the payment structure. Previously, MHBG funds were expended in equal monthly amounts, resulting in each state fiscal year being funded with three months (July–September) from the prior block grant and nine months (October–June) from the subsequent block grant. In 2025, the payment structure was revised, directing MHBG funds to service delivery rather than standard monthly disbursements. As a result, the remaining three months of funding from the 2024 block grant were paid to services in July–September, while the full amount of the 2025 MHBG was expended from October–June. This overlap in payments occurred only in 2025 and will not affect future fiscal years. State Hospital Expenditures - State hospital expenditures from the state general fund increased due to the replacement of expiring American Rescue Plan (ARP) funding. Total ARP Funds Expenditures - ARP funding was eliminated in March 2025 resulting in elimination of services funded under this source or change to another source of funding. Total Crisis Services - Crisis services expenditures increased substantially in 2025 due to the misalignment between the State Fiscal Year (SFY) and the Federal Fiscal Year (FFY). Because these fiscal years do not line up, a project under crisis services received payments across both funding cycles. Specifically, expenditures were higher in July–September as payments were made using FY24 funding, and additional expenditures were recorded in FY25 from October–June. Total Bipartisan Safer Communities Funds - Expenditures increased due to the planned structure of the two-year project. The funding design anticipated higher expenditures in Year 2. During FY24, project activities were primarily research-based, requiring fewer financial outlays. In contrast, FY25 focused on implementation activities. For all other categories - The Behavioral Health Division (Division) implemented a Behavioral Health Redesign ((BHR) https://wyoleg.gov/Legislation/2021/HB0038) of the publicly funded system of care, with an implementation date of July 1, 2024. The redesign effort involved a deliberate move away from prescriptive state general funding allowances for mental health versus substance abuse programs. The new approach prioritizes client needs over administrative categories, enhancing WY's ability to respond effectively to the diverse challenges faced by those supported by WY. This shift from dedicated MH service allocations to a unified, needs-based funding stream means that reported expenditures for varying services such as 24 hour care or community non-24 hour care, may now reflect natural fluctuations between MH and SA service categories, based on the actual demand and evolving needs of the client population.

URS Table Number	General Data Notes
7B	MHBG - MHBG expenditures increased in 2025 due to changes in the payment structure. Previously, MHBG funds were expended in equal monthly amounts, resulting in each state fiscal year being funded with three months (July–September) from the prior block grant and nine months (October–June) from the subsequent block grant. In 2025, the payment structure was revised, directing MHBG funds to service delivery rather than standard monthly disbursements. As a result, the remaining three months of funding from the 2024 block grant were paid to services in July–September, while the full amount of the 2025 MHBG was expended from October–June. This overlap in payments occurred only in 2025 and will not affect future fiscal years. ARP - ARP funding was eliminated in March 2025 resulting in elimination of services funded under this source or change to another source of funding. BSCA - Expenditures increased due to the planned structure of the two-year project. The funding design anticipated higher expenditures in Year 2. During FY24, project activities were primarily research-based, requiring fewer financial outlays. In contrast, FY25 focused on implementation activities that require. ESMI expenditures have increased as a result of the new payment structure changes, which now tie costs directly to the services delivered. This system provides a more accurate reflection of the funding expended for each priority population rather than a percentage of the overall allocation.
7C	Total MHBG - This table reflects only the funding from Crisis Services. Expenditures under Crisis Services fluctuate year to year due to the misalignment between the State Fiscal Year (SFY) and the Federal Fiscal Year (FFY). Because these fiscal years do not align, projects under Crisis Services receive payments across both funding cycles. In FY24, expenditures were higher from July–September as payments were made using prior-year funding. In contrast, expenditures recorded in FFY25 from October–June were lower, particularly for crisis stabilization programs. Total State Funds - State funds for 988 Call Centers increased in SFY25 because the program, initially supported by ARP funding, received continuation funding through Wyoming legislation. COVID - Wyoming did not ask for a carryforward of funding, therefore, all COVID funding ended in SFY24 Call Centers - Funding for 988 Call Centers increased in SFY25 because the program, initially supported by ARP funding, received continuation funding through Wyoming legislation. Crisis Stabilization Programs - State Funding for Crisis Stabilization Programs increased in FY25 as WY received authorization to carryforward state funding from FY24 into FY25 for this specific purpose. Training and Technical Assistance - Expenditures increased in FY25 due to requirements under the Bipartisan Safer Communities Act (BSCA). BSCA funding was designated specifically for Crisis Services, and the timing of implementation meant that trainings were scheduled and conducted during FY25 rather than FY24.
8A	Total MHBG Expenditures for Non-Direct Service Activities - This decrease occurred due to a change in directions. In FY24 instructions, salary was to be included in this table. FY25 has removed this requirement. Thus, salary was not included. Total ARP funds Expenditures for Other Capacity Building/Systems Development Activities - This increase resulted in the hiring of a consultant during FY25 to assist with the changes in the payment structures and services. ARP funding ended in March. Total BSCA Funds Expenditures for Non-Direct Service Activities - Expenditures increased due to the planned structure of the two-year project. The funding design anticipated higher expenditures in Year 2. During FY24, project activities were primarily research-based, requiring fewer financial outlays. In contrast, FY25 focused on implementation activities that require.
11A	In the survey, Hispanic origin is included within the race question rather than captured solely through a separate ethnicity item. As a result, the totals shown in Tables 9 and 11 align with the sum of rows in Table 11A when Hispanic origin is included. The note at the bottom of Table 11A indicates that Hispanic origin should not be included, as it is an ethnicity rather than a race category. However, because Hispanic origin was programmed as a race response in the survey, WY can't change it retroactively. For next year's project, WY can remove Hispanic origin as a race response and rely solely on the separate ethnicity question to prevent this issue from recurring.

URS Table Number	General Data Notes
12	In FY25, the total number of children served decreased compared to FY24. Within this smaller group, a higher proportion met the definition of Serious Emotional Disturbance. This reflects the system's emphasis on prioritizing higher-acuity cases under the Behavioral Health Redesign, as the legislature directed resources toward children with the most significant needs. In FY25, total number of adults served decreased compared to FY24, yet the proportion with co-occurring mental health and substance use diagnoses increased. This shift is consistent with the redesign's focus on integrated care and flexibility in funding, which enabled providers to identify and treat more adults with overlapping conditions despite the overall reduction in clients. Among children, the number of co-occurring cases fell in FY25, in line with the overall decline in clients served. However, the percentage rose slightly, indicating that the smaller client pool was more concentrated with higher-need cases.
