

I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient records be maintained. I am a person in recovery from addiction and I also have a criminal record. While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a lifelong burden. I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it. The threat to me and people like me is too great to risk doing away with these essential privacy protections. People like me already have enough of the odds staked against us. I do not want to risk losing my kids, or face the loss of a job or my housing all due to someone finding out that I had been treated for addiction. I do not want me or my family to go without health or life insurance or worse to risk criminal prosecution, arrest or incarceration. I do not want my medical records to be used against me just because I did the right thing and sought to get the help for my addiction. Administrator Hyde, I hope you will do all you can to protect the privacy of my addiction.

RE: Privacy Regulations

Dear Administrator Hyde,

I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient records be maintained. I am a person in recovery from addiction and I also have a criminal record. While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a lifelong burden.

I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it.

The threat to me and people like me is too great to risk doing away with these essential privacy protections. People like me already have enough of the odds stacked against us. I do not want to risk losing my kids, or face the loss of a job or my housing all due to someone finding out that I had been treated for addiction. I do not want me or my family to go without health or life insurance or worse to risk criminal prosecution, arrest or incarceration. I do not want my medical records to be used against me just because I did the right thing and sought to get the help for my addiction. I hope you do the best you can to protect my addiction records.

JUST SAY (HELL) NO!!!!!

To whom this letter may concerns I'm writing this letter to express my true feelings about releasing my medical records to the public in any other part of society. This is one of the most difficult things to do is to obtain someones personal and medical records the only way this happened is though a court order speaking of courts I've seen my fair share of them throughout my life I'm currently a felon and will be a felon the rest of my life even though I haven't let this stop me from finding work or even in housing but being truthful an completely honest this is a roadblock for most felon's being a felon causes many doors and opportunities to be closed up because of the mistakes that we've made in our past I feel strongly that if this bill is allowed to go through it will be used as another way an means to be bias and show prejudice towards convicts ex-felons (addicts) whatever you want to call us. Also I feel like if this bill is passed it will be a deterrent to people who wants recovery and most importantly who needs addiction services NA AA one on one counseling. Drug rehabilitation facilities I also feel very strongly that this bill only hurts our society as a whole more so than helps it. So I hope and pray that almighty God that this is shot down quicker than duck on opening day at duck season.

P.S. Fight Fight Fight Fight against this this is wrong. For everyone

Re: Privacy Regulations

Dear Administrator Hyde,

I am writing to inform you about my privacy protection for my alcohol and drug abuse plus my patient records be maintained. I'm recovering from addiction with a criminal records. I don't want my addiction treatment records to be a lifelong burden.

Some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it.

The treatment is good but the threat to me and my people is to great to risk doing away with these essential privacy protections. I already have the odds stacked against me. I do not want to risk the chance of losing my job or my housing due to someone finding out that I was treated for addiction. I don't want me or my family to go without health insurance or worse to risk criminal prosecution, arrest or incarceration. I do not want my medical records to be used against me just cause I got help for my addiction.

Administrator Hyde, I hope you will do what you can.

(RE: Privacy Regulations)

Dear Administrator Hyde,

I'm writing to let you know that it is important for me and my family to have our privacy protected from people who don't need to know about our ach. & drug use.

We do not need to risk our essential privacy protections. People like us already have enough to deal with. For if this should happen everything will be loss from our constitution.

Administrator Hyde, I truly hope you can help protect the privacy of my addiction

Sincerely

Dear Administrator Hyde,

I am writing to let you know how important to me that the privacy protections for alcohol and drug abuse patient records be maintained. I am a recovering addict as well as a convicted felon. While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a lifelong burden.

I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it.

The threat to me and people like me is too great to risk doing away with these essential privacy protections. People like me already have enough of the odds stacked against us. I do not want to risk losing my kids, or face the loss of a job or my housing all due to someone finding out that I had been treated for addiction. I do not want me or my family to go without health or life insurance or worse to risk criminal prosecution, arrest or incarceration. I do not want my medical records to be used against me just because I did the right thing and sought to get the help for my addiction.

Administrative Hyde, please all you can to protect the privacy of my addiction records.

Sincerely,

FK

Dear Administrator Hyde,

Mrs. /Ms. Hyde how are you. I do hope and pray that this particular letter has "**found**" you and your family, relatives, love ones and dearest friends in the "**best**" of health physically and spiritually. Yet, may our heavenly father/the Almighty God continue to "**BLESS**" you all. My reasons for this letter is plead with you not allow my medical-conditions/alcohol & drug addiction/misdemeanor & felony incarcerations to be exploited for whomever to see and could quite possibly use it against me to hinder my being employed. Yes, I am a drug & alcohol recovering addict and I have 4 mths. /24-days clean and sober. And my goal is to add to those months and days to become years/decades/half-centuries-& centuries (if it's God's will). . . Amen. Mrs. /Ms. Hyde for whatever "**power**" you possess to protect the privacy of my welfare and others like myself. Please do so, because "LIFE" is already harsh without more "**Hindrance**" being added on.

I do thank you for finding time in your busy schedule to read my letter of which I'm "**most**" appreciative. Thank you, God Bless you.

Sincerely,

FM

Re Privacy Regulations

Dear Administrator

My name is [REDACTED] I am at the Richmonds Regional Jail I'm on the recovering tier here recovering from alcohol addiction that I have when I found or say heard this I was so happy with this I had to write don't please let this medical letter try to be used against because I know all people don't like the right things and I think this is right It helps family

Dear Administrator Hyde,

I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient records be maintained. I am a person in recovery from addiction and also have a criminal record. I take responsibility for the actions I took that resulted in my addiction treatment and criminal record. I do not want any of my addiction treatment record to become a life long burden. I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it. The threat to me and people like me is too great to risk doing away with these essential privacy protections. People like me already have enough of the odds stacked against us. Administrator Hyde I hope you will do all you can to protect the privacy of my addiction records.

Sincerely

Dear Administrator Hyde,

I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient record be maintained. I am a person in recovery from addiction and also have a criminal record. While I take responsibility for the action I took that resulted in my addiction treatment and criminal record. I do not want my addiction treatment record to become a lifelong need or burden. I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment record. People like me already have enough of the odds stacked against us. I do not want to risk losing my kids or face the loss of a job or my housing all due to someone finding out that I have been treated for addiction. I do not want me any long to go without health or life insurance or worse to risk criminal prosecution arrest or incarceration. I don't want my medical record to be used against me just because I did the right thing and sought to get help for my addiction.

I hope you will do all you can to protect the privacy of my addiction records.

Thank you.

Dear Administrator Hyde,

I am a person in recovery from addiction and I also have a criminal record. I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient records be maintained. I take full responsibility for my addiction and criminal record but I do not want my addiction treatment record to become a lifelong burden.

The threat to me and people like me is too great to risk doing away with these essential privacy protections. I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I feel in this day and age with all the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't!

People like me already have the odds stacked against us. I do not want my medical records to be used against me just because I did the right thing and sought to get the help for my addiction.

Administrator Hyde, please protect the privacy of my addiction records.

June 19, 2014

Dear Ms. Hyde,

Yes, my name is [REDACTED] and I'm currently in an Behavioral Modification Recovery Program at the Richmond City Jail. I'm joining in this petition because I would not like to have my medical records not to be known to the outside world or to whom no business need to be known of besides myself and my physician or counselor of the treatment center I chose to go to when I get out of here which is "soon". I would surely appreciate my request to have my records "confidently" kept private.

Thank you,

Sincerely,

Dear Administrator Hyde,

I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient records be maintained. I am a person in recovery from addiction and I also have a criminal record. While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a life long burden. I think this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it. I do not want my medical records to be used against me just because I did the right thing and sought to get help for my addiction.

While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a lifelong burden.

I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it.

The threat to me and people like me is too great to risk doing away with these essential privacy protections. People like me all ready have enough of the odds stacked against us. I do not want to risk losing my kids, or face the loss of a job or my housing all due to someone finding out that I had been treated for addiction. I do not want me or my family to go without health or life insurance or worst to risk criminal prosecution, arrest or incarceration. I do not want my medical records to be used against me just because I did the right thing and sought to get help for my addiction.

Administrator Hyde, I hope you will do all you can to protect the privacy of my addiction records.

Dear Administrator Hyde,

I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient records be maintained. I am a person in recovery from addiction and I also have a criminal record. While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a lifelong burden.

I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. Re: Privacy Regulations

Dear Administrator Hyde,

I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient records be maintained. I am a person in recovery from addiction and I also have a criminal record. While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a lifelong burden.

I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it.

The threat to me and people like me is too great to risk doing away with these essential privacy protections. People like me already have enough of the odds stacked against us. I do not want to risk

Re: Privacy Regulations

Dear Administrator Hyde,

I am writing to let you know how important it is to me and my family members that the privacy protections for alcohol and drug abuse patient records be maintained. I am a person in recovery from addiction and I also have a criminal record. While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I absolutely do not want my addiction treatment record to become a life long burden.

I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I really think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it.

The threat to me and people like me is too great to risk doing away with these essential privacy protections. People like myself already have enough of the odds stacked against us. I do not want to risk losing my kids, or face the loss of a job or my housing all due to someone finding out that I had been treated for addiction. I do not want me or my family to go without health or life insurance or worse to risk criminal prosecution, arrest or incarceration. I do not want my medical records to be used against me just because I did the right thing and sought to get the treatment for my addiction.

Administrator Hyde, I hope you will do all you can to protect the privacy of my addiction records.

Re: Privacy Regulations

Dear Administrator Hyde,

I am writing to let you know it is important to me and my family that the privacy protections for alcohol and drug abuse patient records be maintained. I'm a person in recovery from addiction and I also have a criminal record. While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I don't want my addiction treatment record to become a lifelong burden.

I understand that some people have argued that good medical care for me will be compromised if all medical professionals can't see my addiction treatment records. I think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it.

The threat to me and people like me is too great to risk doing away with these essential privacy protections. People like me already have enough of the odds stacked against us. I do not want to risk losing my kids,
