Re: Privacy Regulation

Dear Administrator Hyde,

I am writing to let you know how important it is to me and my family that the privacy protection for alcohol and drug abuse patient act be maintained. I am a person in recovery from addiction and I also have a criminal record. While I take the responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a lifelong burden.

Re: Privacy Regulations

Dear Admin Hyde,

I just want you to know how important it is for me and my family that our privacy rights concerning drug and alcohol treatment be privatized. My family has a great name and if you can help me help them I would be indebted to you indefinitely.

Thank you for all your consideration.

Sincerely yours,

RE: Privacy Rights

Dear Admin Hyde,

I humbly write you now to consider protecting my addiction records so that I one day may be of service to my fellow man. I have been clean for three years and still have trouble receiving a job because of past convictions.

Please see it fit to help me in protecting my addiction rights and I will prove myself to be.

I cannot thank you enough!

I am writing you to let you know how important it is to me & my family the privacy protection of alcohol & drug abuse patient be maintain.

I do not want certain people to exclude me from having my children, getting a job or housing base on their opinion of my records.

Please do all you can to help.

Dear Administrator Hyde,

I am an inmate at Richmond's Regional Jail because I used medications and alcohol everyday for a period of seven years. While I am business graduate from Virginia Commonwealth University, my addiction has cost many job opportunities and absences in the work place. I do not wish to continue on my current path of self-destruction anymore as I am already thirty three years of age and still don't have a wife, family, or any assets of value whatsoever.

On account of my family and for my families name sake I genuinely ask that my privacy rights concerning my addiction be protected. I don't want to be a hindrance anymore to my family or society. I know one day upon my release that I will be something better if not outstanding member in society for the benefit of humanity.

Administrator Hyde, I beg that you can see it fit to give me a chance by protecting my addiction records.

Thank you. Sincerely

Dear Administrator Hyde

This letter is to let you know that I, my family and others are in support of you helping to maintain the privacy protection of my & other treatment medical records.

Please do all that is in your power for us.

Sincerely

Dear Administrator Hyde

I am writing you to let you know how important it is to me and my family that the privacy regulation you are working on is very very important to us.

As a person that falls under this issue I surely don't want to in up losing my children job or hosing as a result of someone with power saying I must do so as a result of them disagreeing with my treatment record about my using alcohol & drugs.

Thank you for wanting to support my best intent in this matter.

Sincerely

Dear Administrator Hyde

I am thanking you in advance for helping to maintain the privacy protection (of people like myself) of treatment records, which include the use of alcohol & drug abuse.

These records can be used against us if they are in the hands of those who oppose helping us.

Dear Administrator Hyde:

I am writing regarding the privacy protections for alcohol and drug abuse patient records. I think that any records pertaining to a persons treatment for drug and or alcohol abuse should remain privileged and confidential. At no time should this information be released without the express written consent of the patient. I believe that if this information were readily available, certain groups, institutions, companies, or individuals may be in a position to use this information to the detriment of the patient. While this should be enough of a reason for the patient's records to remain confidential, I feel there may be a reason of much more importance.

The purpose of treatment is to save lives, not just from death; but from misery. I sincerely believe that many addicts/alcoholics may be deterred from seeking treatment if the records for such treatment could be accessed without their consent. This would certainly outweigh any possible benefits that would come from the sharing of these records.

Dear Administrator Hyde,

I am writing to you how it is important to protect my alcohol and drug records to protect my future I hope you will do your best to protect my privacy.

Sincerely

JJ

Sincerely,

JK

Dear Administrator Hyde,

I want you to know that my family and me appreciate your efforts in wanting to bring about some fair changes concern privacy regulation. Concerning how the records of those people like my with alcohol & drug abuse have be kept and use against us.

You have our support and we wish you well in caring out your petition.

Sincerely

RE: Privacy Regulations

Dear Administrator Hyde,

I write you now to let you know how pertinent it is to my family and myself that my privacy protection for drugs and alcohol be maintained. I don't wish for my addiction treatment of myself or others to become a burden for anybody.

Administrator Hyde, I pray that you will see it fit to do all you can in the protection of my addiction records.

Thank you graciously,

JM

Re: Privacy Regulations

Dear Administrator Hyde,

I am writing to you to let you know how important it is to me to keep my medical records private so in the future my family and I won't have no problems.

Administrator Hyde, I hope you will do all you can to protect the privacy of my addiction records.

Dear Admin Hyde,

I humbly write you now to highly consider protecting my rights and those of our fellow man regarding their drug and alcohol abuse. The men I know serve with in Richmonds Regional Jail (especially those in G5's program tier concerning AA treatment) all want to abstain from the downfalls in which drugs have placed their lives in, otherwise they would not be so sincere about receiving treatment to enhance their recovery.

Admin Hyde, please help us in any way possible to protect our privacy rights concerning our addictions.

Many thanks,

Sincerely

JO

Dear Administrator Hyde,

I am in complete support of your petition to help improve the privacy protection regulations we now have mainly when it comes to the records belonging to people like me the have alcohol and drug abuse in there records.

I hope you will be able to convince “whomever” that changing regulations in this matter is the right thing to do.

Sincerely

JP

RE: Privacy Regs

Dear Administrator Hyde,

I hope this letter finds you well, and I thank you for reading all these letters.

I simply want to say thank you for the act of considering mine and those of my fellow inmates at RCJ in the confidentiality of our addiction records.

We all want to be better men and look forward to our freedoms once again one day as we now realize those freedoms are not free.

Thank you again,

Dear Administrator Hyde

I am in support of you helping to place regulations on treatment records pertaining to "Treatment Records" for people like me that have histories of alcohol & drug abuse.

I do not want certain people to review my records that doesn't need to. Nor do I want people to past judgment on me with intentions of taking my children, my jobs or cause me to lose housing arrangements.

Thank you

JR

Re: Privacy Rights

Dear Administrator Hyde,

I know that you are busy man so I don't want to take any more of your time in the writing of this short letter.

Myself and the guys at Richmond Regional Jail just want to thank you for your gesture in the concealment of our addiction records. Any and all you do is so much appreciated and we are so privileged to have your acquaintance and services you provide.

Thank you so much Admin. Hyde.

Sincerely,

Dear Sir (“Administrator Hyde”)

You have my family & myself support concerning the privacy regulations you are proposing at this time.

I hope this petition will help bring about the results which it is intended.

Re: Privacy Rights

Dear Admin Hyde,

Please consider the burden of my record that is placed on me when job seeking and the odds that I face applying for an apt or even a credit card today, less a bank acct.

I am not crying poor mouth and I have not been victimized in any way. What I have done and the actions I performed I may never be forgiven by God for, but I beg you to give me one more chance in this life by helping keep my addiction records confidential.

Truly yours,

Dear Administrator Hyde,

I take pleasure in supporting this petition that will help protect my treatment records about my alcohol and drug usage being reveal to people who might use that information against me. For instance, my children might be taken away, my job or housing situation could change.

People like me already have enough odds stacked against us.

Yes, I support you very much

Sincerely

RE: Privacy Regulations

Dear Administrative Hyde,

I write to you now in hopes that you would consider my privacy rights, particularly my addiction records. I am a person in recovery from addiction and I also have a criminal record unfortunately.

Today I am not only taking responsibility for my addiction while being a recovered addict for three years now, but I aim to be a productive member of society one day upon my release. Jobs are all ready hard to come by being a past felon and any hindrance I could avoid otherwise will only benefit the outcome of my success.

Thank you for all your consideration,

Sincerely

JW

Dear Administrative Hyde

I am writing to let you know that it is important to me and my family that the privacy protections for alcohol and drug abuse patients records be maintain in a “fair way”.

I do not wish to be single out just because my records says “I used” so therefore I should suffer some type of consequences. Be that lost of my children, my job or my housing situation.

I hope this letter will help the cause.

Sincerely

Dear Administrator Hyde,

It is our pleasure at the Regional Jail of Richmond VA to thank you for your servitude in the consideration of the concealment of our addiction records.

We humbly come to and ask that you help us men by doing so. I cannot speak for these men but I know many of them never had a chance being born in drug infested homes and alcoholic families.

However, I have seen man a men recover in the treatment the jail provides and in following the steps of Alcoholics Anonymous. With you help these men I believe can prevail and earnestly seek to be better men.

Thank you for reading and all you do!

Sincerely,

JY

Dear Administrator Hyde,

You have my full support concerning about bringing into law new privacy regulation to protect those like myself from unwanted or deserve consequence because my medical treatment records indicate I once abuse alcohol & drugs.

Please do what you can to help those of us that fit into this situation.

Sincerely

Dear Administrator Hyde

I am writing to let you know how important it is to me and my family the privacy protections for alcohol and drug abuse patients records be maintain. I am a person in recovery from addiction and I also have a criminal record. I do not want my addiction treatment record to become a lifelong burden.

I understand some of the arguments concerning the pro & cons of this debate. I can't agree with compromising my person information about my addiction, so that other with no interest in helping be aloud to review my treatment records the consequences could be heavy toward me lost of children, lost of job or housing.

Administrator Hyde, I hope you will do all you can to protect the privacy of my addiction records.

KA

Dear Administrator Hyde,

I really don't want certain people to review my treatment medical records mainly those concerning my use of alcohol & drug.

I already have experience the misuse of that information so I know that this the right thing you are doing.

I appreciate your help.

Sincerely,

KB

Dear Administrator Hyde

The petition to help bring about a change in the way “my” treatment medical records (concerning my alcohol & drug usage) has been use as a disadvantage toward is a welcome suggestion I agree with.

I have been the victim of such activity in the past and would like to see this not happen anymore to me or any like me.

Sir, please do what you can to stop this madness.

Sincerely,

KC

Dear Ms. Hyde,

I am writing to let you know that I disapprove of the thought of making treatment records made public. I think the records should be keep private. I do not feel this will affect the quality of care provided.

I think as addicts we already face a uphill battle with housing and jobs please do all you can to see that treatment records are keep private.

Thank you.

Dear Ms. Hyde,

I am writing to let you know that I do not approve of having treatment records of alcoholics and addicts made public. I think those of us suffering from addiction already face enough hardship we do not need any additional stigma when it come to addiction.

Housing and jobs are hard enough to come by as it is

Please do all you can to see this does not happen.

Thank you.

Re: Privacy Regulations

Dear Administrator Hyde,

I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient act be maintained. I am a person in recovery from addiction and I also have a criminal record. While I take the responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a lifelong burden.

I understand some have argued that good medical care for me will be compromised if all medical professional cannot see my addiction treatment records.

Sincerely,

RE: Privacy Regulations

Dear Administrator

I'm writing to let you know how important it is to me and my family that the privacy protections for alcohol and drug abuse patient records be maintained. I am a person in recovery from addiction and I also have a criminal record. While I take responsibility for the actions I took that resulted in my addiction treatment and criminal record, I do not want my addiction treatment record to become a lifelong burden.

I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. Dear Administrative Hyde,

I am writing to let you know how important it is to me and my family that the privacy protections for alcohol and drugs abuse patient records be maintained.

I understand some have argued that good medical care for me will be compromised if all medical professionals cannot see my addiction treatment records. I think in this day and age with all of the technological advances that software companies can figure out how to keep that information available for those who must see it and unavailable to those who don't need to see it.

The treat to me and my family and people like me is too great to risk doing away with these essential privacy protections. I do not want my medical records to be used against me just because I did the right thing and sought to get the help for addiction.
