ASSESS YOUR ALCOHOL USE • AUDIT-C ALCOHOL USE SCREENING TOOL

1. How often do you have a drink containing alcohol?
   a. Never = 0 points
   b. Monthly or less = 1 point
   c. 2-4 times a month = 2 points
   d. 2-3 times a week = 3 points
   e. 4 or more times a week = 4 points

2. How many standard drinks containing alcohol do you have on a typical day?
   a. 1 or 2 = 0 points
   b. 3 or 4 = 1 point
   c. 5 or 6 = 2 points
   d. 7 to 9 = 3 points
   e. 10 or more = 4 points

3. How often do you have 6 or more drinks on one occasion?
   a. Never = 0 points
   b. Less than monthly = 1 point
   c. Monthly = 2 points
   d. Weekly = 3 points
   e. Daily or almost daily = 4 points

INDICATORS OF RISKY OR EXCESSIVE DRINKING

- Drink more, or longer than you intend
- Try to cut down or stop drinking, but are not able to
- Have to drink more than you once did to get the effect you want
- Continue to drink even though it makes you feel depressed or anxious or adds to another health problem
- Loved ones and/or trusted friends have made comments about your drinking pattern

- Spend a lot of time drinking or thinking about alcohol
- Find that drinking often interferes with daily activities, family, friends and/or work
- Have been arrested or had other legal problems due to drinking
- Experience symptoms of withdrawal when you don’t drink (withdrawal symptoms include: shakiness, sweating, tremors, headaches, anxiety, irritability, and/or insomnia)

However, when the points are all from Question #1 alone (#2 and #3 are zero), it can be assumed that the patient is drinking below recommended limits and it is suggested that the provider review the patient’s alcohol intake over the past few months to confirm accuracy.

SAMHSA’s mission is to reduce the impact of substance abuse and mental illness on America’s communities.

TIPS TO CUT DOWN ON YOUR DRINKING

Monitoring your alcohol use can help you prevent risky drinking:

- Set a daily and weekly drinking limit. Write down your limit and keep it with you.
- Pace your drinking. Have no more than one standard drink per hour.
- Record how much you drink each day.
- Avoid situations and triggers that cause you to drink.
- Ask a friend who does not drink to help you stay within your limit.
- Speak with your doctor and/or seek treatment for your alcohol use.

ALCOHOL RESOURCES

Underage Drinking Myths vs. Facts
This fact sheet for teens and pre-teens compares common myths about alcohol use with facts about the dangers and impact of underage drinking.

Finding Quality Treatment for Substance Use Disorders
This fact sheet serves as a guide for individuals seeking behavioral health treatment. It provides three necessary steps to complete prior to utilizing a treatment center and the five signs to finding a quality treatment center.

Faces of Change: Do I Have a Problem With Alcohol or Drugs?
This resource explores the lives of five characters living with different substance use disorder conditions. It illustrates the stages of change and the value of treatment, recovery, and motivational incentives. It also includes a change plan worksheet.

The Next Step Toward a Better Life
This brochure describes the stages of recovery from alcohol and drug misuse, and what to expect after leaving detoxification services. It offers guidance on adjusting to sobriety, and long-term recovery.

National Prevention Week, May 13 to 19, 2018
National Prevention Week is an annual health observance dedicated to increasing public awareness of, and action around, substance abuse and mental health issues. Each day has a theme and Tuesday, May 15, the theme is Prevention of Underage Drinking and Alcohol Misuse and links to a webinar. Learn more at:
https://www.samhsa.gov/prevention-week

“Talk. They Hear You.” Campaign
SAMHSA’s underage drinking prevention campaign helps parents and caregivers start talking to their children early about the dangers of alcohol. This campaign includes numerous tools and resources for parents and communities. Learn more at:
https://www.samhsa.gov/underage-drinking

“Talk. They Hear You.” Mobile Application
The app features an interactive simulation that helps you learn the do’s and don’ts of talking to kids about underage drinking. Using avatars, you will:
- Practice bringing up the topic of alcohol
- Learn the questions to ask
- Get ideas for keeping the conversation going
Download on your Apple®, Android™, or Windows® mobile device. Learn more at:

Alcohol FX Tablet Mobile Application: Alcohol’s Effect on the Brain
Alcohol’s Effect on the Brain (AlcoholFX), is a free, science-based, Reach Out Now mobile application for tablets that teaches students ages 10–12 how alcohol can harm their brains if they drink. The app is intended to easily integrate into instruction in fifth-and sixth-grade classrooms and at home. Download on your Apple® or Android™ mobile device. Learn more at:
