The Crisis Counseling Assistance and Training Program (CCP) should have protocols or procedures in place for how a crisis counselor should respond if serious reactions are indicated while using this tool. Many CCPs have team leaders or other staff with a mental health background to administer this tool to ensure proper assessment and referral. All crisis counseling staff using this tool should have detailed training and guidance on use of the tool and when to make a referral for more intensive services. Prior to use of this tool, the CCP should have identified at least one organization or agency that is willing to accept referrals from the CCP for more intensive mental health or substance use intervention services.

Please use this tool as an interview guide

1) with adults who have received individual crisis counseling on two or more occasions before this visit (it is recommended on the third and fifth encounter) OR
2) with any adult at any time if you suspect the adult may be experiencing serious reactions to the disaster.

INSTRUCTIONS:
ADULT ASSESSMENT AND REFERRAL TOOL

When to Use This Form:
It is recommended that this form be used with all adults who are intensive users of services. Intensive users are people who are participating in their third individual crisis counseling visit with any crisis counselor from the program or who continue to suffer severe distress that may be impacting their ability to perform routine daily activities. This form should be used as an interview guide (1) with adults receiving individual crisis counseling on the third and fifth occasions OR (2) with any adult at any time if you suspect the adult may be experiencing serious reactions to the disaster. Do not use this form with children; use the Child/Youth Assessment and Referral Tool.

PROVIDER #--The unique number under which your program/agency is providing services.

RISK CATEGORIES--These are factors that an individual may have experienced or may have present in his or her life that could increase his or her needs for services. MORE THAN ONE CATEGORY MAY APPLY. SELECT ALL CATEGORIES THAT APPLY. The Adult Assessment and Referral Tool is an interview guide, and you may ask the individual whether or not he or she has experienced the listed factors. (Note that this instruction is not the same as for the Individual/Family Crisis Counseling Services Encounter Log.)

DEMOGRAPHIC INFORMATION--For each variable, SELECT ONLY ONE. The Adult Assessment and Referral Tool is an interview guide, and you may ask the individual these questions as needed. (Note that this instruction is not the same as for the Individual/Family Crisis Counseling Services Encounter Log.) For each question, read the options, and ask the individual to select the option or options that best describe(s) him or her.

AGE--What age does the person indicate he or she is? SELECT ONLY ONE.

This is the person's score. For example, an individual who answered "quite a bit" on Questions 6 and 7 and "very much" on Question 11 and "somewhat" on Questions 1-5 and 8-10 would receive a score of 3.

REFERRALS--In the REFERRAL box, select all of the types of services to which you referred the person. If the service is not listed, please provide the type of service next to "other."
