EXECUTIVE SUMMARY

The Substance Abuse and Mental Health Services Administration (SAMHSA) is accepting applications for the fiscal year (FY) 2023 Hurricanes Fiona and Ian Behavioral Health Recovery Program. The purpose of this program is to address the behavioral health impacts of Hurricanes Fiona and Ian. Award recipients may provide behavioral health treatment (including screening and diagnosis), crisis counseling and other related helplines, or other service-delivery programs to provide support to individuals impacted by Hurricane Fiona and/or Hurricane Ian. With this program, SAMHSA aims to address behavioral health workforce shortages and meet anticipated mental health and substance use treatment needs related to the impact of Hurricanes Fiona and/or Ian on steady-state behavioral health systems and provide services for people impacted by Hurricanes Fiona and/or Ian who would otherwise not have access through steady-state or public behavioral health resources.

Funding Opportunity Title:	Hurricanes Fiona and Ian Behavioral Health Recovery Program (Short Title: Fiona and Ian Recovery)
Funding Opportunity Number:	TI-23-023
Due Date for Applications:	June 26, 2023
Estimated Total Available Funding:	\$22,000,000
Estimated Number of Awards:	Up to 5 awards
Estimated Award Amount:	Up to \$22,000,000 (\$22,000,000 of total funding is available for all awards. The award amounts will be determined based on the number of applications received, the funding amounts requested, and review of the applications.) See information on funding amounts in Section II.
Cost Sharing/Match Required:	No
Anticipated Project Start Date:	September 30, 2023
Anticipated Award Date:	August 31, 2023
Length of Project Period:	Up to one year

<p>Eligible Applicants:</p>	<p>Eligible applicants are states, territories or Federally recognized American Indian/Alaska Native (AI/AN) tribes impacted by Hurricane Fiona and/or Hurricane Ian in FY 2022 in those areas for which a major disaster or emergency was declared under section 401 or 501 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170 and 5191), or for which Hurricane Fiona and/or Hurricane Ian were determined to present a public health emergency under section 319(a) of the Public Health Service Act. The five impacted areas are Puerto Rico, Florida, the Seminole Tribe of Florida, South Carolina and North Carolina.</p> <p>[See Section III-1 for eligibility information.]</p>
<p>Authorizing Statute:</p>	<p>The Consolidated Appropriations Act, 2023, Division N, Title VIII.</p>

Be sure to check the SAMHSA website periodically for any updates on this program.

All applicants MUST be registered with NIH's [eRA Commons](#), [Grants.gov](#), and the System for Award Management ([SAM.gov](#)) in order to submit this application. The process could take up to six weeks. (See [Appendix A](#) of this NOFO for all registration requirements).

If you an applicant is not currently registered with the eRA Commons, Grants.gov, and/or SAM.gov, the registration process MUST be started immediately. If an applicant is already registered in these systems, confirm the SAM registration is still active and and the Grants.gov and eRA Commons accounts can be accessed.

WARNING: BY THE DEADLINE FOR THIS NOFO SUCCESSFUL OF THE FOLLOWING TASKS MUST BE COMPLETED TO SUBMIT AN APPLICATION:

- **The applicant organization MUST be registered in NIH's eRA Commons;**
AND
- **The Project Director MUST have an active eRA Commons account (with the PI role) affiliated with the organization in eRA Commons.**

No exceptions will be made.

DO NOT WAIT UNTIL THE LAST MINUTE TO SUBMIT THE APPLICATION. Waiting until the last minute, may result in the application not being received without errors by the deadline.

I. PROGRAM DESCRIPTION

1. PURPOSE

The purpose of this program is to address the behavioral health impacts of Hurricanes Fiona and Ian. SAMHSA recognizes that natural disasters can have long-term behavioral health effects on adults and children. These effects can include an increase in substance misuse and increasing stress, anxiety, depression and other mental health symptoms. Hurricanes Fiona and Ian have had a significant impact on mental health and substance use treatment systems, leading to strain on the already under-resourced behavioral health workforce. The long-term effects of the hurricanes will likely disproportionately impact people with pre-disaster vulnerabilities, which can worsen through the impacts of trauma, leading to surges in need for acute behavioral health care later.

With this program, SAMHSA aims to equitably prevent overdose, enhance access to suicide prevention and crisis care, promote resilience and emotional health for children, youth and families, and strengthen the behavioral health workforce in areas impacted by Hurricane Fiona and/or Hurricane Ian. Recipients will be expected to address behavioral health workforce shortages and meet anticipated mental health and substance use treatment needs, for people who would otherwise not have access through steady-state or public behavioral health resources.

As a part of the application, applicants must develop a needs assessment using statewide epidemiological data related to the geographic regions identified as impacted by Hurricane Fiona and/or Hurricane Ian. If a needs assessment effort is already in place, work with the local, state, or tribal epidemiological outcomes workgroup to enhance and supplement the current process and update its findings. The needs assessment must be included in **Attachment 8** of the application, and must identify/include:

- scope of mental and substance use disorder treatment and recovery services impacted by Hurricane Fiona and/or Hurricane Ian; and
- unmet service needs, and critical gaps in mental and substance use disorder prevention, treatment and recovery support service systems across diverse racial, ethnic, geographic, and other demographic groups.

POPULATION OF FOCUS:

The population of focus is adults and children with behavioral health needs related to the impacts of Hurricane Fiona and/or Hurricane Ian who would otherwise not have access to behavioral health services through steady-state or public behavioral health resources, including:

- Persons with any mental illness including those with a serious mental illness (SMI) or serious emotional disturbance (SED);
- Persons with a substance use disorder (SUD);
- Persons with co-occurring mental and substance use disorders;
- People who have sub-clinical mental health or substance use conditions, due to the effects of Hurricane Fiona and/or Hurricane Ian; and
- People who experienced pre-hurricane vulnerabilities in social determinants of health or previous trauma exposure leading them to a disproportionate impact from Hurricane Fiona and/or Hurricane Ian.

This program is authorized under the Consolidated Appropriations Act, 2023, Division N, Title VIII.

2. KEY PERSONNEL

Key personnel are staff members who must be part of the project regardless if they receive a salary or compensation from the project. These staff members must make a substantial contribution to the execution of the project and should reflect SAMHSA's expectation of diversity, equity, and inclusion in the selection of staff.

The key personnel for this program will be the Project Director at 1.0 FTE level of effort. If awarded, recipients will be notified by SAMHSA about whether the individual(s) designated for this position has been approved. Organizations receiving federal funds may not exceed 100 percent level of effort for any program staff member (Key Staff or otherwise) across all federally funded sources.

If recipients need to replace a Key Personnel during the project period, the individual proposed for the vacant position requires prior approval by SAMHSA after a review of the credentials of the staff member and the job description.

3. REQUIRED ACTIVITIES

Required activities are the activities that every award must implement. These activities must be reflected in the Project Narrative. This is in response to [Section V](#) of this NOFO.

Project implementation is expected to begin by the third month of the award.

In the Project Narrative (B.1), applicants must indicate the total number of unduplicated individuals that will be served each year of the award and over the total project period. Award recipients are expected to achieve the numbers that are proposed.

Award recipients must use SAMHSA's funds to support direct services primarily. This includes the following activities:

- Based on the needs assessment in **Attachment 8**, implement a comprehensive behavioral health disaster recovery strategy for the provision of evidence-based mental health and substance use treatment and recovery services, including crisis counseling, for individuals, families and communities impacted by Hurricane Fiona and/or Hurricane Ian.
- Provide mental health promotion and substance use prevention for individuals, families and communities impacted by Hurricane Fiona and/or Hurricane Ian.
- Develop and implement crisis mental health and substance use services, including 24-hour mobile crisis teams, emergency crisis intervention services including psychiatric/medical assessment and where indicated, medication administration, and crisis stabilization (unless there is an existing state-sanctioned, certified, or licensed system or network for the provision of crisis behavioral health services that dictates otherwise).

- Screen and assess clients for the presence of mental and substance use disorders, as well as co-occurring disorders, and use the information obtained from the screening and assessment to develop appropriate treatment and recovery approaches.
- Provide evidence-based and population appropriate treatment services. Treatment services may include the use of FDA-approved medications to treat SMI or SUD including opioid use disorder (OUD), medication management, outpatient, day treatment (including outreach-based services), intensive outpatient treatment, recovery housing, or SUD residential programs. Treatment must be culturally appropriate and trauma-informed.
- Provide evidence-based substance use prevention activities such as training of peers, first responders, and other key community sectors on recognition of opioid overdose and appropriate use of the opioid overdose antidote naloxone.
- Provide harm reduction services such as fentanyl test strip distribution and naloxone distribution. Harm reduction services funded under this award must adhere to federal, state, and local laws, regulations, and other requirements related to such programs or services. For more information on allowable harm reduction services, please go to <https://www.samhsa.gov/find-help/harm-reduction>.
- Provide recovery support services such as peer supports, recovery coaches, childcare, vocational training, employment support, recovery housing, linkages to housing services, and transportation services, which will improve access to, and retention in services. (**Note:** Award funds may be used to purchase such services from another provider.)
- Develop and implement a workforce development plan to enhance and expand the state behavioral health workforce through activities such as: the development and implementation of recruitment and retention strategies; increasing access and availability to training and education; engaging and supporting peers in the workforce.
- Implement training and education services for peers, first responders, and other key community sectors, on the following:
 - Recognition of the signs and symptoms of mental and substance use disorders in adults and children impacted by a disaster and linking them to appropriate services;
 - Recognition of opioid overdose and appropriate use of the opioid overdose antidote naloxone;

Note: Training should include cultural competency related to populations identified as impacted by Hurricane Fiona and/or Hurricane Ian.
- Partner with local businesses, families, and community groups to broaden and link all community resources available to adults and their families impacted by Hurricane Fiona and/or Hurricane Ian.
- Include diversity, equity, inclusion, and accessibility to the required activities. This can be the selection of screening and assessment tools, treatment practices, outreach, and engagement strategies, etc. as it relates to service

provision. For example, applicants can select one or more of the following examples or develop other activities relevant to the program:

- Recruit, promote, and support a culturally and linguistically diverse staff that enhance services to the community [or population] of focus ([see](#) Culturally and Linguistically Appropriate Services in Health and Health Care ([CLAS Standard 3](#)));
- Translate tools and resources available to recipients of services (see [CLAS Standards 5-8](#));
- Provide, increase, or enhance access to services for people of all racial/ethnic/marginalized groups in the community,
- Create conflict and grievance resolutions processes that are culturally and linguistically appropriate ([CLAS standard 14](#)).
- Collaborate with other SAMHSA-supported TA Centers including, but not limited to, the SAMHSA-funded regional and specialty Technology Transfer Centers (i.e., Substance Abuse Prevention, Mental Health, and Addiction Technology Transfer Centers), and the SOR/TOR Technical Assistance Center.

4. ALLOWABLE ACTIVITIES

Allowable activities are an allowable use of funds but are not required. Allowable activities may include:

- Provide activities that address behavioral health disparities and the social determinants of health.
- Implement efforts aligned to the award that may expand diversity, equity, inclusion, and accessibility.
- Develop and implement outreach and referral pathways that engage/target all demographic groups representative of the community.
- Build community coalitions to respond to and prepare for behavioral health impacts of natural disasters.
- Strengthen state-level strategies to address behavioral health impacts of natural disasters including developing a comprehensive state-system approach to respond to the behavioral health impacts of the disaster for which funding is being provided and a plan to prepare for any future disasters.
- Develop and implement tobacco/nicotine product (e.g., vaping) cessation programs, activities, and/or strategies.

Infrastructure Development (maximum 15 percent of the total award for the budget period)

Although awards for the provision of services must be used primarily for direct services, SAMHSA recognizes that infrastructure changes may be needed to implement the services or improve their effectiveness. Infrastructure development encompasses activities that support the direct service expansion of the project and do not include capitalizable costs. Recipients may use no more than **15 percent** of the total award for the types of non-capitalizable infrastructure development listed below, if necessary, to

support the direct service expansion of the project. Applicants must describe in Section B of the Project Narrative the use of funds for non-capitalizable infrastructure activities which may include:

- Developing partnerships with other providers for service delivery and stakeholders serving the population of focus, including those working with underserved and diverse populations.
- Policy development to support needed service system improvements (e.g., rate-setting activities, establishment of standards of care, adherence to the [Behavioral Health Guide for the National Standards for Culturally and Linguistically Appropriate Services \(CLAS\) in Health and Health Care](#), development/revision of credentialing, licensure, or accreditation requirements)¹
- Adopting and/or enhancing the computer system, management information system (MIS), electronic health records (EHRs), etc., to document and manage client needs, care process, integration with related support services, and outcomes.

Capitalizable infrastructure, such as computer systems/software, new buildings, or structural changes to existing facilities (e.g., to the foundation, roof, floor, or exterior or loadbearing walls of a facility, or extension of existing facility) are recoverable as depreciation through an approved negotiated indirect cost rate or 10% de minimis rate in accordance with the organization's existing capitalization/amortization policies.

5. USING EVIDENCE-BASED PRACTICES

SAMHSA's awards for the provision of services are intended to fund services or practices that have a demonstrated evidence base and that are appropriate for the population(s) of focus. An evidence-based practice (EBP) refers to approaches to prevention, treatment, or recovery that are validated by documented research evidence. Applicants are encouraged to visit the SAMHSA Evidence-Based Practice Resource Center (www.samhsa.gov/ebp-resource-center) and SAMHSA's National Network to Eliminate Disparities in behavioral health (NNED) (<https://nned.net/>) to identify evidence-informed and culturally appropriate mental illness and substance use prevention and treatment practices that can be implemented in the project.

¹ For purposes of this NOFO efforts do not include activities designed to influence the enactment of legislation, appropriations, regulations, administrative actions, or Executive Orders ("legislation and other orders") proposed or pending before the Congress or any State government, State legislature or local legislature or legislative body, and recipients may not use federal funds for such activities. This restriction extends to both grassroots lobbying efforts and direct lobbying. However, for state, local, and other governmental recipients, certain activities falling within the normal and recognized executive-legislative relationships or participation by an agency or officer of a state, local, or tribal government in policymaking and administrative processes within the executive branch of that government are not considered impermissible lobbying activities and may be supported by federal funds.

Both researchers and practitioners recognize that EBPs are essential to improving the effectiveness of treatment and prevention services. While SAMHSA realizes that EBPs have not been developed for all populations and/or service settings, application reviewers will closely examine proposed interventions for evidence base and appropriateness for the population of focus. If an EBP(s) exists for the population(s) of focus and types of problems or disorders being addressed, the expectation is that EBP(s) will be utilized. If one does not exist but there are evidence-informed and/or culturally promising practices that are appropriate or can be adapted, these interventions may be implemented in the delivery of services.

In the Project Narrative, in response to Section C of [Section V](#) of this NOFO, identify the evidence-based practice(s) and/or interventions that are evidence-informed and/or culturally promising that are appropriate or can be adapted to meet the needs of the specific population(s) of focus. Applicants must discuss the population(s) for which the practice(s) has (have) been shown to be effective and document that it is (they are) appropriate for the population(s) of focus. The application must also address how these interventions will improve outcomes and address how they will be monitored and ensure the fidelity of EBPs and other appropriate interventions. In situations where an EBP is appropriate but requires additional culturally-informed engagement practices, this should be discussed in the application.

6. DATA COLLECTION/PERFORMANCE MEASUREMENT AND PROJECT PERFORMANCE ASSESSMENT

Data Collection/Performance Measurement

All SAMHSA recipients are required to collect and report certain data so that SAMHSA can meet its obligations under the Government Performance and Results (GPRA) Modernization Act of 2010. The application must document the plan for data collection and reporting in the Project Narrative in response to Section E: Data Collection and Performance Measurement in Section V of this NOFO.

Recipients will be required to report client-level data at intake to services, every six months thereafter, and at discharge from services. Recipients are required to report performance on the following measures: abstinence, employment/education status, criminal justice involvement, social connectedness, and housing stability. Recipients will be required to report client-level data on elements including but not limited to demographic characteristics, substance use, diagnosis(es), services received, and types of MOUD received (see Appendix D- Confidentiality and SAMHSA Participant Protection/Human Subjects Guidelines, 4. Data Collection).

This information will be reported using SAMHSA's Performance Accountability and Reporting System (SPARS); and access will be provided upon award. An example of the required data collection tool (i.e., National Outcome Measures (NOMs) or NOMS client level services tool) can be found at <https://spars.samhsa.gov/content/new-1212023->

[csat-gpra-client-outcome-measures-tool](#). Data will be collected at intake to services, six months post intake, and at discharge. Recipients will be expected to do a GPRA interview on all clients in their specified unduplicated target number and are also expected to achieve a six-month follow-up rate of 80 percent.

Recipients should enter their data within 1 day—but no later than 7 days—after the GPRA interview is conducted. This guidance applies to recipients who manually enter their data and batch upload their data.

The collection of these data enables SAMHSA to report on key outcome measures relating to the grant program. In addition to these outcomes, data collected by recipients will be used to demonstrate how SAMHSA’s grant programs are reducing disparities in behavioral health access, service use, and outcomes nationwide. As a result, SAMHSA may add additional reporting measures throughout the reporting period to meet these needs.

Recipients will be required to submit a semi-annual performance progress report (at 6 months). This report is due no later than 30 days after the end of the second quarter of the grant.

The semi-annual performance progress report must discuss:

- Progress achieved in the project toward goals to demonstrate programmatic progress to include updates on approved activities, successes, and changes or adjustments that have been made to the project.
- Barriers encountered, including challenges serving populations of focus and efforts to overcome them.

A final performance progress report and final FFR must be submitted within 120 days after the end of the project period. The final performance report must be cumulative and report on all activities during the entire project period.

Performance data will be reported to the public as part of SAMHSA’s Congressional Budget Justification.

Project Performance Assessment

In addition, recipients are required to report on their progress addressing the goals and objectives identified in the Project Narrative. Recipients must periodically review the performance data they report to SAMHSA (as required above), assess the progress, and use this information to improve the management of the project. The project performance assessment should be designed to help determine whether goals, objectives and outcomes are being achieved and whether adjustments need to be made to the project.

Performance assessments should be used to determine whether the project is having/will have the intended impact on behavioral health disparities. See [Section VI.3](#) for information on required progress reports.

No more than **20 percent** of the total grant award for the budget period may be used for data collection, performance measurement, and performance assessment, including incentives for participating in the required data collection follow-up.

Note: See [Appendix E](#) and [Appendix F](#) of this NOFO for more information on responding to this section.

7. OTHER EXPECTATIONS

SAMHSA Values That Promote Positive Behavioral Health

SAMHSA expects recipients to use funds to implement high-quality programs, practices, and policies that are recovery-oriented, trauma-informed, and equity-based as a means of improving behavioral health.²

[Recovery](#) is a process of change through which individuals improve their health and wellness, live a self-directed life, and strive to reach their full potential. Recovery oriented recipients promote partnerships with people in recovery from mental and substance use disorders and their family members to guide the behavioral health system and promote individual, program, and system-level approaches that foster: *Health*—managing one’s illnesses or symptoms and making informed healthy choices that support physical and emotional wellbeing; *Home*—a stable and safe place to live; *Purpose*—meaningful daily activities such as a job or school; and *Community*—supportive relationships with families, friends and peers. Recovery oriented systems of care embrace recovery as: emerging from hope; person-driven; occurring via many pathways; holistic; supported by peers and allies; culturally-based and informed; supported through relationship and social networks; involving individual, family, and community strengths and responsibility; supported by addressing trauma; and based on respect.

[Trauma-informed Approaches](#) recognize and intentionally respond to the lasting adverse effects of experiencing traumatic events. SAMHSA defines a trauma-informed approach through six key principles:

- *Safety*: participants and staff feel physically and psychologically safe;

² [“Behavioral health”](#) means the promotion of mental health, resilience and wellbeing; the treatment of mental and substance use disorders; and the support of those who experience and/or are in recovery from these conditions, along with their families and communities.

- *Peer support*: peer support and mutual self-help are key as vehicles for establishing safety and hope, building trust, enhancing collaboration, and utilizing their lived experience to promote recovery and healing;
- *Trustworthiness and Transparency*: Organizational decisions are conducted to build and maintain trust with participants and staff;
- *Collaboration and Mutuality*: importance is placed on partnering and leveling power differences between staff and service participants;
- *Cultural, Historical, & Gender Issues*: culture and gender-responsive services are offered while moving beyond stereotypes/biases;
- *Empowerment, Voice, and Choice*: organizations foster a belief in the primacy of the people who are served to heal and promote recovery from trauma.³

It is critical recipients promote the linkage to recovery and resilience for those individuals and families impacted by trauma.

Behavioral health equity is the right to access high quality and affordable health care services and supports for all populations regardless of the individual's race, age, ethnicity, gender, disability, socioeconomic status, sexual orientation, or geographical location. By improving access to behavioral health care, promoting quality behavioral health programs and practice, and reducing persistent disparities in mental health and substance use services for underserved populations and communities, recipients can ensure that everyone has a fair and just opportunity to be as healthy as possible. In conjunction with promoting access to high quality services, behavioral health disparities can be further mitigated by addressing social determinants of health, such as social exclusion, unemployment, adverse childhood experiences, and food and housing insecurity.

Language Access Provision. [Per Title VI of the Civil Rights Act of 1964](#), recipients of Federal financial assistance must take reasonable steps to make their programs, services, and activities accessible to eligible persons with limited English Proficiency. Recipients must administer their programs in compliance with federal civil rights laws that prohibit discrimination based on race, color, national origin, disability, age, and, in some circumstances, religion, conscience, and sex (including gender identity, sexual orientation, and pregnancy). (See [Appendix I](#))

Tribal Behavioral Health Agenda

SAMHSA, working with tribes, the Indian Health Service, and National Indian Health Board developed the first collaborative National Tribal Behavioral Health Agenda (TBHA). Tribal applicants are encouraged to briefly cite the applicable TBHA foundational element(s), priority(ies), and strategies that are addressed by their application. The TBHA can be accessed at <http://nihb.org/docs/12052016/FINAL%20TBHA%2012-4-16.pdf>.

³ https://ncsacw.samhsa.gov/userfiles/files/SAMHSA_Trauma.pdf

Tobacco and Nicotine-Free Policy

SAMHSA strongly encourages all recipients to adopt a tobacco/nicotine inhalation (vaping) product-free facility/grounds policy and to promote abstinence from all tobacco products (except in regard to accepted tribal traditions and practices).

Reimbursements for the Provision of Services

Recipients must utilize third-party reimbursements and other revenue realized from the provision of services to the extent possible and use SAMHSA funds only for services to individuals who are not covered by public or commercial health insurance programs, individuals for whom coverage has been formally determined to be unaffordable, or for services that are not sufficiently covered by an individual's health insurance plan. Recipients are responsible for determining affordability and insurance coverage and must have policies and procedures in place to address these areas. Recipients are also expected to facilitate the health insurance application and enrollment process for eligible uninsured clients. Recipients should also consider other systems from which a potential service recipient may be eligible for services (for example, the Veterans Health Administration or senior services), if appropriate for and desired by that individual to meet his/her needs. In addition, recipients are required to implement policies and procedures that ensure other sources of funding are utilized first when available for that individual.

Behavioral Health for Military Service Members and Veterans

SAMHSA encourages all recipients to address the behavioral health needs of active-duty military service members, returning veterans, and military families in designing and developing their programs and to consider prioritizing this population for services, where appropriate.

Behavioral Health for Lesbian, Gay, Bisexual, Transgender, Queer/Questioning, and Intersex (LGBTQI+) Individuals

In line with the Executive Order on Advancing Equality for Lesbian, Gay, Bisexual, Transgender, Queer, and Intersex Individuals (E.O. 14075) and the behavioral health disparities that the LGBTQI+ population face, SAMHSA encourages all recipients to address the behavioral health needs of the LGBTQI+ population in designing and developing their programs and to consider prioritizing this population for services, where appropriate.

II. FEDERAL AWARD INFORMATION

1. GENERAL INFORMATION

Funding Mechanism:	Grant Award
Estimated Total Available Funding:	\$22,000,000
Estimated Number of Awards:	Up to five awards
Estimated Award Amount:	Up to \$22,000,000 (\$22,000,000 of total funding is available for all awards. The award amounts will be determined based on the number of applications received, the funding amounts requested, and review of the applications.)
Length of Project Period:	Up to one year
Anticipated Start Date	9/30/2023

Proposed budgets cannot exceed \$22,000,000 in total costs (direct and indirect). **A total of \$22,000,000 is available for all awards. The award amounts will be determined based on the number of applications received, the funding amounts requested, and review of the applications.**

In the Needs Assessment (Attachment 8), applicants must provide documentation to justify the amount of funding that is requested. Once the review of the applications has been completed, applicants will be notified if their requested funding amount needs to be adjusted and whether a revised budget needs to be submitted.

III. ELIGIBILITY INFORMATION

1. ELIGIBLE APPLICANTS

Eligible applicants are states, territories or Federally recognized American Indian/Alaska Native (AI/AN) tribes impacted by Hurricane Fiona and/or Hurricane Ian in FY 2022 in those areas for which a major disaster or emergency was declared under section 401 or 501 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170 and 5191), or for which Hurricane Fiona and/or Hurricane Ian were determined to present a public health emergency under section 319(a) of the Public Health Service Act. The five impacted areas are Puerto Rico, Florida, the Seminole Tribe of Florida, South Carolina and North Carolina.

2. COST SHARING AND MATCHING REQUIREMENTS

Cost sharing/match is not required in this program.

3. OTHER REQUIREMENTS

- The Project Narrative must not exceed 10 pages. If the Project Narrative is over 10 pages, the application will not be considered for review.
- **Evidence of Experience and Credentials**

SAMHSA believes that only existing, experienced, and appropriately credentialed organizations with demonstrated infrastructure and expertise will be able to provide the required services quickly and effectively. Applicants are encouraged to include appropriately credentialed organizations that provide services to underserved, diverse populations. All required activities must be provided by applicants directly, by subrecipients, or through referrals to applicant partner agencies. Applicants must submit evidence under **Attachment 1** of their application meeting three additional requirements related to the provision of services.

The three requirements are:

- A provider organization for direct client (e.g., substance use/mental disorder treatment) services appropriate to the award must be involved in the proposed project. The provider may be the applicant or another organization committed to the project. More than one provider organization may be involved.
- Each mental health/substance use disorder treatment provider organization must have at least two years of experience (as of the due date of the application) providing relevant services.
- Each mental health/substance use disorder treatment provider organization must comply with all applicable local (city, county) and state licensing, accreditation, and certification requirements, as of the due date of the application.

The above requirements apply to all service provider organizations. In Attachment 1, the applicant must include a statement certifying that the service provider organizations meet these requirements.

IV. APPLICATION AND SUBMISSION INFORMATION

1. ADDRESS TO REQUEST APPLICATION PACKAGE

The application forms package specific to this funding opportunity can be accessed through [Grants.gov Workspace](#) or [eRA ASSIST](#). Due to difficulties with internet access, SAMHSA understands that applicants may need to request paper copies of materials, including forms and required documents. See [Appendix A](#) for more information on obtaining an application package.

2. CONTENT AND FORM OF APPLICATION SUBMISSION

REQUIRED APPLICATION COMPONENTS:

The standard and supporting documents that must be submitted with the application are outlined below and in [Appendix A - 2.2](#) Required Application Components of this NOFO.

All files uploaded as part of the application must be in Adobe PDF file format. See [Appendix B](#) of this NOFO for formatting and validation requirements.

SAMHSA will not accept paper applications except under very special circumstances. If special consideration is needed, SAMHSA must approve the waiver of this requirement in advance. See [Appendix A - 3.2](#) Waiver of Electronic Submission of this NOFO.

- **SF-424** – Fill out all Sections of the SF-424.
 - In **Line #4** (i.e., Applicant Identifier), input the Commons Username of the PD/PI.
 - In **Line #17** input the following information: (Proposed Project Date: a. Start Date: 9/30/2023; b. End Date: 9/29/2024).

New applicants should review the sample of a [completed SF-424](#).

- **SF-424A BUDGET INFORMATION FORM** – Fill out all Sections of the SF-424A using the instructions below. **The totals in Sections A, B, and D must match.**
 - **Section A** – Budget Summary: If cost sharing/match is **not required**, use the first row only (Line 1) to report the total federal funds (e) and non-federal funds (f) requested for the **first year** of the project only. If cost sharing/match **is required**, use the **second row** (Line 2) to report the total non-federal funds (f) for the **first year** of the project only.
 - **Section B** – Budget Categories: If cost sharing/match is **not required**, use the first column only (Column 1) to report the budget category breakouts (Lines 6a through 6h) and indirect charges (Line 6j) for the total funding requested for the **first year** of the project only. If cost sharing/match is

required, use the second column (Column 2) to report the budget category breakouts for the **first year** of the project only.

- **Section C** – If cost sharing/match is **not required** leave this section blank. If cost sharing/match **is required** use the second row (line 9) to report non-federal match for the **first year** only.
- **Section D** – Forecasted Cash Needs: Input the total funds requested, broken down by quarter, only for **Year 1** of the project period. Use the first row for federal funds and the second row (Line 14) for **non-federal** funds.
- **Section E** – Row 16, enter zero (0) in column (b) First.

See [Appendix B](#) of this NOFO to review common errors in completing the SF-424 and the SF-424A. These errors will prevent the application from being successfully submitted.

The following pdf is a sample of a completed SF-424A form:

- [Sample SF-424A \(No Match Required\)](#)

See [Appendix L](#) for information on the SAMHSA Budget Template. **It is highly recommended that you use the template.**

- **PROJECT NARRATIVE – (Maximum 10 pages total)**
The Project Narrative describes the project. It consists of Sections A through E. (Remember that if the Project Narrative starts on page 5 and ends on page 15, it is 11 pages long, not 10 pages.) More detailed instructions for completing each section of the Project Narrative are provided in [Section V.1](#) – Application Review Information.
- **BUDGET JUSTIFICATION AND NARRATIVE**
The budget justification and narrative must be submitted as a file entitled “BNF” (Budget Narrative Form) when the application is submitted into Grants.gov. (See [Appendix A](#) – 2.2 Required Application Components.)
- **ATTACHMENTS 1 THROUGH 8**

Use only the attachments listed below. If the application includes any attachments not required in this document, they will be disregarded.

Do not use attachments to extend or replace any of the sections of the Project Narrative. Reviewers will not consider them.

Label the attachments as: Attachment 1, Attachment 2, etc. (Use the Other Attachments Form if applying with Grants.gov Workspace or Other Narrative Attachments if applying with eRA ASSIST.)

- **Attachment 1: Service Providers/Evidence of Experience and Credentials**
Statement of Certification - Applicants must provide a written statement certifying that all participating service provider organizations listed in this application meet the two-year experience requirement and applicable licensing, accreditation, and certification requirements.
- **Attachment 2: Data Collection Instruments/Interview Protocols**
If standardized data collection instruments/interview protocols are being used these do not need to be included in the application. Instead, provide a web link to the appropriate instrument/protocol. If the data collection instrument(s) or interview protocol(s) is/are not standardized, include a copy in Attachment 2.
- **Attachment 3: Sample Consent Forms**
Forms to be submitted include, as appropriate, sample consent forms that provide for: (1) informed consent for participation in service intervention; (2) informed consent for participation in the data collection component of the project; and (3) informed consent for the exchange (releasing or requesting) of confidential information.
- **Attachment 4: Project Timeline**
This attachment is scored by reviewers. Maximum of 2 pages. See instructions in Section V, B.3 of this NOFO.
- **Attachment 5: Biographical Sketches and Position Descriptions**
See [Appendix G](#) of this NOFO for information on completing biographical sketches and job descriptions. Position descriptions should be no longer than one page each and biographical sketches should be two pages or less.
- **Attachment 6: Confidentiality and SAMHSA Participant Protection/ Human Subjects Guidelines**
This attachment is in response to [Appendix D](#) of this NOFO and is a **required attachment**.
- **Attachment 7: Form SMA 170 – Assurance of Compliance with SAMHSA Charitable Choice Statutes and Regulations.** Applicants are required to complete Form SMA 170 if the project is offering substance use prevention or treatment services. This form is posted on SAMHSA's website at <http://www.samhsa.gov/grants/applying/forms-resources>.

- **Attachment 8: Needs Assessment**

This attachment is in response to [Section I-1.3](#), Required Activities of this NOFO, and will be scored by reviewers. The Needs Assessment must identify/include:

- Scope of mental and substance use disorder treatment and recovery services impacted by Hurricane Fiona and/or Hurricane Ian.
- Unmet service needs, and critical gaps in mental and substance use disorder prevention, treatment and recovery support service systems across diverse racial, ethnic, geographic, and other demographic groups.
- Justification for the amount of funding requested.

3. UNIQUE ENTITY IDENTIFIER AND SYSTEM FOR AWARD MANAGEMENT

See [Appendix A](#) for information about the three registration processes that must be completed including obtaining a Unique Entity Identifier and registering with the System for Award Management (SAM). The applicant must continue to maintain an active SAM registration with current information during the time the organization has an active federal award or an application under consideration by an agency (unless the applicant is an individual or federal agency that is exempted from those requirements under 2 CFR § 25.110(b) or (c), has an exception approved by the agency under 2 CFR § 25.110(d)).

4. APPLICATION SUBMISSION REQUIREMENTS

Applications are due by **11:59 PM** (Eastern Time) on **June 26, 2023**. If an organization is submitting more than one application, the project title should be different for each application.

If permission has been granted to submit a paper copy, the application must be received by the above date and time. See [Appendix A](#) of this NOFO for information on how to apply.

All applicants MUST be registered with NIH's [eRA Commons](#), [Grants.gov](#), and the System for Award Management ([SAM.gov](#)) in order to submit this application. The process could take up to six weeks. (See [Appendix A](#) of this NOFO for all registration requirements).

If you an applicant is not currently registered with the eRA Commons, Grants.gov, and/or SAM.gov, the registration process MUST be started immediately. If an applicant is already registered in these systems, confirm the SAM registration is still active and the Grants.gov and eRA Commons accounts can be accessed.

WARNING: BY THE DEADLINE FOR THIS NOFO SUCCESSFUL OF THE FOLLOWING TASKS MUST BE COMPLETED TO SUBMIT AN APPLICATION:

- The applicant organization **MUST** be registered in NIH's eRA Commons;
- AND
- The Project Director **MUST** have an active eRA Commons account (with the PI role) affiliated with the organization in eRA Commons.

No exceptions will be made.

DO NOT WAIT UNTIL THE LAST MINUTE TO SUBMIT THE APPLICATION. Waiting until the last minute, may result in the application not being received without errors by the deadline.

5. FUNDING LIMITATIONS/RESTRICTIONS

The funding restrictions for this project are below. Be sure to identify these expenses in the proposed budget.

- No more than 15 percent of the total award for the budget period may be used for developing the infrastructure necessary for expansion of services.
- No more than 20 percent of the total award for the budget period may be used for data collection, performance measurement, and performance assessment, including incentives for participating in the required data collection follow-up.
- Only U.S. Food and Drug Administration (FDA) – approved products that address opioid use disorder and/or opioid overdose can be purchased with award funds.
- Funds may not be expended through the grant or a subaward by any agency which would deny any eligible client, patient or individual access to their program because of their use of FDA-approved medications for the treatment of substance use disorders (e.g., methadone, buprenorphine products including buprenorphine/naloxone combination formulations and buprenorphine monoproduct formulations, naltrexone products including extended-release and oral formulations or long acting products such as extended release injectable or buprenorphine.) Specifically, patients must be allowed to participate in methadone treatment rendered in accordance with current federal and state methadone dispensing regulations from an Opioid Treatment Program and ordered by a physician who has evaluated the client and determined that methadone is an appropriate medication treatment for the individual's opioid use disorder. Similarly, medications available by prescription or office-based implantation must be permitted if it is appropriately authorized through prescription by a licensed prescriber or provider. In all cases, MOUD must be

permitted to be continued for as long as the prescriber or treatment provider determines that the medication is clinically beneficial. Recipients must assure that clients will not be compelled to no longer use MOUD as part of the conditions of any programming if stopping is inconsistent with a licensed prescriber's recommendation or valid prescription.

SAMHSA recipients must also comply with SAMHSA's standard funding restrictions, which are included in [Appendix H](#) – Standard Funding Restrictions.

6. OTHER SUBMISSION REQUIREMENTS

See [Appendix A](#) for specific information about submitting the application.

V. APPLICATION REVIEW INFORMATION

1. EVALUATION CRITERIA

The Project Narrative describes what you intend to do with the project and includes the Evaluation Criteria in Sections A-E below. The application will be reviewed and scored according to the response to the requirements in Sections A-E.

In developing the Project Narrative section of the application, use these instructions, which have been tailored to this program.

- The Project Narrative (Sections A-E) together may be no longer than **10 pages**.
- The five sections/headings listed below must be used in developing your Project Narrative. **Before the response to each criteria, the Section letter and number must be used , i.e., type “A-1”, “A-2”, etc. .** The full criterion in each section does not need to be typed -Do not combine two or more questions or refer to another section of the Project Narrative in the response, such as indicating that the response for B.2 is in C.1. **Only information included in the appropriate numbered question will be considered by reviewers.** The application will be scored based on how well the criteria in each section have been addressed.
- The number of points after each heading is the maximum number of points a review committee may assign to that section of the Project Narrative. Although scoring weights are not assigned to individual questions, each question is assessed in deriving the overall Section score.
- Any cost-sharing proposed in the application will not be a factor in the evaluation of the response to the Evaluation Criteria.

SECTION A: Population of Focus and Statement of Need (10 points – approximately 1 page [not including Attachment 8- Needs Assessment])

1. Identify and describe the population(s) of focus and the geographic catchment area where services will be delivered that aligns with the intended population of focus of this program. Provide a demographic profile of the population of focus in terms of race, ethnicity, federally recognized tribe (if applicable), language, sex, gender identity, sexual orientation, age, and socioeconomic status.
2. In **Attachment 8**, provide the Needs Assessment. It must include the required elements for the Needs Assessment outlined in Section I-1.3- Required Activities and the justification for the amount of funding requested. **Note:** Attachment 8 is limited to a maximum of 5 pages.

SECTION B: Proposed Implementation Approach (30 points – approximately 5 pages not including Attachment 4 – Project Timeline)

1. Describe the goals and measurable objectives (see [Appendix E](#) of the proposed project and align them with the Statement of Need described in A.2. Provide the following table:

Number of Unduplicated Individuals to be Served with Award Funds	
	Year 1
GPRA/SPARS Target*	

***Note: Of those individuals receiving services, applicants must indicate the total number of individuals who will complete the CSAT Government Performance and Results Act (GPRA) Client Outcome Measures for Discretionary Programs Tool for the project period; the total receiving services will be the applicant’s GPRA target in SPARS.**

2. Describe how all of the Required Activities in Section I will be implemented. If funds will be used for infrastructure development, describe how those funds will be used.
3. In **Attachment 4**, provide a chart or graph depicting a realistic timeline for the one year project period showing dates, key activities, and responsible staff. These key activities must include the requirements outlined in Section I [**NOTE:** Be sure to show that the project can be implemented, and service delivery can begin as soon as possible and no later than three months after the award. **The timeline cannot be more than two pages and should be submitted in Attachment 4.**] The recommendation of pages for this section does not include the timeline.

SECTION C: Proposed Evidence-Based Service/Practice (25 points approximately 2 pages)

1. Identify the Evidence-Based Practice(s) (EBPs), evidence-informed, and/or culturally promising practices that will be used. Discuss how each intervention chosen is appropriate for the population(s) of focus and the intended outcomes to be achieved. Describe any modifications (e.g., cultural) that will be made to the EBP(s) and the reason the modifications are necessary. If no modifications are proposed, indicate so in the response.
2. Describe how the EBPs will be monitored to ensure fidelity of the EBPs, evidence-informed and/or promising practices that will be implemented.

SECTION D: Staff and Organizational Experience (15 points – approximately 1 page)

1. Describe the experience of the organization with similar projects and/or providing services to the population(s) of focus for this NOFO. Identify other organization(s) that will partner with your organization in the proposed project. Describe their experience providing services to the population(s) of focus, and their specific roles and responsibilities for this project.
2. Provide a complete list of staff positions for the project, including the Key Personnel (Project Director) and other significant personnel. For each staff member describe their:
 - Role,
 - Level of Effort, and
 - Qualifications, including their experience providing services to the population(s) of focus and familiarity with their culture(s) and language(s).

SECTION E: Data Collection and Performance Measurement (20 points – approximately 1 page)

1. Provide specific information about how the required data for this program will be collected and how such data will be utilized to manage, monitor, and enhance the program (See [Appendix F](#)). Describe the quality improvement efforts and explain how the data will be used to address the identified behavioral health disparity(ies) and close the gap(s).

2. BUDGET JUSTIFICATION, EXISTING RESOURCES, OTHER SUPPORT (Other federal and non-federal sources)

Provide a narrative justification of the items included in the proposed budget. Also provide a narrative description of existing resources and other support that are expected

for the proposed project as a result of cost matching. Other support is defined as funds or resources, non-federal, or institutional, in direct support of activities through fellowships, gifts, prizes, in-kind contributions, or non-federal means. (This should correspond to Item #18 on the SF-424, Estimated Funding.) Other sources of funds may be used for unallowable costs, e.g., meals, sporting events, entertainment.

Although a non-federal share may not be required, if an applicant proposes non-federal resources in their budget, they will be held to submission of the non-federal resources. These must be reported on the financial reports. If recipients fail to meet their proposed amount or percentage, that could be grounds for a cost disallowance.

See [Appendix J](#) for information on the SAMHSA Budget Template. **It is highly recommended that this template is used.** The proposed budget must reflect the funding limitations/restrictions specified in [Section IV-5](#). **Specifically identify the items associated with these costs in the budget.**

3. REVIEW AND SELECTION PROCESS

The Project Narratives of SAMHSA applications are peer-reviewed according to the evaluation criteria listed above.

Decisions to fund an award are based on the strengths and weaknesses of the application as identified by peer reviewers. The results of the peer review are advisory in nature. **In addition, the following criteria will be utilized in assessing the applications for funding:**

- (1) Documentation of Need.** Applicant has demonstrated mental health and/or substance abuse needs directly resulting from precipitating events: Hurricane Fiona and/or Hurricane Ian. The precipitating event is clearly identified along with information regarding its impact. Applicant has identified any high-risk groups or populations with special concerns that may impact the delivery of services (e.g., children, adolescents, older adults, ethnic and cultural groups, lower income populations). This documentation of need shall include the extent of physical, psychological and social problems observed, and a description of how the estimate of the number of people to be served was made. Applicant has clearly documented that no other local, State, Tribal or Federal funding sources are available to address the need.
- (2) Plan of Services.** Applicant has a clear plan of services to address documented needs within a defined geographic area and in a specified time period. The plan of services is appropriate to the need and specifically addresses the needs of any high-risk groups or populations with special concerns identified in the assessment of need. The plan of services clearly identifies the following:
 - (a) The types of services to be provided (e.g., outreach, crisis counseling, public education on stress management and crisis mental health, public

education on substance abuse prevention, information and referral services, short term substance abuse or mental health prevention and/or treatment services);

- (b) Strategies for targeting those identified as needing services, including high risk groups or populations with special concerns identified in the needs assessment;
- (c) Appropriate training to be provided to staff to assure that services are appropriate to the crisis situation and the plans for community recovery;
- (d) Quality control methods in place to assure appropriate services to the target population;
- (e) Staff support mechanisms that are available;
- (f) Plans for coordination of services with key local, State, Tribal and Federal partners involved in addressing the precipitating event (e.g., emergency management agencies, law enforcement, education agencies, public health agencies, and other agencies active in crisis response); and
- (g) An estimate of the length of time for which said services requiring Federal funding will be needed, and the manner in which long-term cases will be referred for continued assistance after Federal funds have ended.

(3) Organizational Capability. Applicant is a public entity with demonstrated organizational capacity to deliver services as described in the plan of services. The applicant should also have a demonstrated history of service delivery to the target population within the defined service area for the program. The budget submitted shall provide sufficient justification and demonstrate that it is consistent with the documentation of need and plan of services. This shall include a description of the facilities to be utilized, including plans for securing office space if necessary to the project.

In determining the appropriateness and necessity of funding, the Secretary may consult with other Federal agencies responsible for responding to crisis incidents, including the Readiness, Response and Recovery Directorate within the Federal Emergency Management Agency (FEMA), the Safe and Drug Free Schools Program within the U.S. Department of Education, the Office for Victims of Crime (OVC) within the U.S. Department of Justice, the National Transportation Safety Board (NTSB) within the U.S. Department of Transportation, the Emergency Response Program within the Environmental Protection Agency (EPA), the Bureau of Indian Affairs (BIA) within the U.S. Department of the Interior, the Animal and Plant Health Inspection Service within the U.S. Department of Agriculture, the Indian Health Service (IHS) within the U.S. Department of Health and Human Services, and other Federal agencies with jurisdiction over specific types of crisis response.

The program office and approving official make the final determination for funding based on the following;

- When the individual award is over \$250,000, approval by the Center for Substance Abuse Treatment National Advisory Council;
- Availability of funds;
- SAMHSA may select awards for funding that best reach underserved communities and/or populations.
- Submission of any required documentation that must be submitted prior to making an award;
- SAMHSA is required to review and consider any Responsibility/Qualification (R/Q) information about your organization located in SAM.gov. In accordance with 45 CFR 75.212, SAMHSA reserves the right not to make an award to an entity if that entity does not meet the minimum qualification standards as described in section 75.205(a)(2). If SAMHSA chooses not to award a fundable application in accordance with 45 CFR 75.205(a)(2), SAMHSA must report that determination to the designated integrity and performance system accessible through the System for Award Management (SAM) [currently, the Contractor Performance Assessment Reporting System (CPARS)]. You may review and comment on any information about your organization that a federal awarding agency previously entered. SAMHSA will consider your comments, in addition to other information in R/Q in making a judgment about your organization's integrity, business ethics, and record of performance under federal awards when completing the review of risk posed as described in 45 CFR 75.205 HHS Awarding Agency Review of Risk Posed by Applicants.

VI. FEDERAL AWARD ADMINISTRATION INFORMATION

1. FEDERAL AWARD NOTICES

An email from SAMHSA will be sent, via NIH's eRA Commons, that will describe the process for how to view the general results of the review of the application, including the score the application received.

If the application is approved for funding, a Notice of Award (NoA) will be emailed to the following: 1) the BO's email address identified in the Authorized Representative section email field on page 3 of the SF-424; and 2) the email associated with the Commons account for the Project Director (section 8 Item f on page 1 of the SF-424). Hard copies of the NoA will no longer be mailed via postal service. The NoA is the sole obligating document that allows the recipient to receive federal funding for work on the project. Information about what is included in the NoA can be found at: <https://www.samhsa.gov/grants/grants-management/notice-award-noa>.

If the application is not funded, an email notification from SAMHSA will be sent, via NIH's eRA Commons.

2. ADMINISTRATIVE AND NATIONAL POLICY REQUIREMENTS

If the application is funded, recipients must comply with all terms and conditions of the NoA. SAMHSA's standard terms and conditions are available on the SAMHSA website - . <https://www.samhsa.gov/grants/grants-management/notice-award-noa/standard-terms-conditions>. See [Appendix I](#) for specific information about administrative and national policy requirements.

3. REPORTING REQUIREMENTS

A final performance report must be submitted within 120 days after the end of the project period. The final performance report must be cumulative and report on all activities during the entire project period. The report must discuss:

- Progress achieved in the project which should include qualitative and quantitative data (GPRA) to demonstrate programmatic progress to include updates on required activities, successes, and changes or adjustments that have been made to the project.
- Barriers encountered, including challenges serving populations of focus and efforts to overcome these barriers.

Management of Award:

Successful applicants must also comply with the following standard award management reporting requirements at <https://www.samhsa.gov/grants/grants-management/reporting-requirements>, unless otherwise noted in the NOFO or NoA.

VII. AGENCY CONTACTS

For program and eligibility questions contact:

O'Tilia Hunter, Ph.D.
Center for Substance Abuse Treatment
Division of State and Community Systems
Otilia.Hunter@samhsa.hhs.gov

Maggie Jarry
SAMHSA Emergency Coordinator
Maggie.Jarry@samhsa.hhs.gov
202-770-8101

For fiscal/budget questions contact:

Office of Financial Resources, Division of Grants Management
Substance Abuse and Mental Health Services Administration
(240) 276-1400
FOACSAT@samhsa.hhs.gov

For review process and application status questions contact:

Emily Chan
Office of Financial Resources, Division of Grant Review
Substance Abuse and Mental Health Services Administration
(240) 276-2446
Emily.Chan@samhsa.hhs.gov

Appendix A – Application and Submission Requirements

1. GET REGISTERED

You are required to complete three **(3) registration processes**:

- 1.1) System for Award Management (SAM);
- 1.2) Grants.gov; and
- 1.3) eRA Commons.

If you have already completed registrations for SAM and Grants.gov, you need to ensure that your accounts are still active, and then register in **eRA Commons (see 1.3)**.

You must register in eRA Commons and receive a Commons Username in order to have access to electronic submission, receive notifications on the status of your application, and retrieve award information.

WARNING: If your organization is not registered and does not have an active eRA Commons PI/PD account by the deadline, the application will not be accepted. No exceptions will be made.

1.1 System for Award Management Registration

You must register your organization with the System for Award Management (SAM). A Unique Entity Identifier (UEI) will be assigned as part of the registration process. (The UEI replaced the Dun and Bradstreet Number (DUNS Number). If your organization is currently registered in SAM.gov, the UEI has already been assigned and is viewable in SAM.gov. This includes inactive registrations. The Unique Entity Identifier is currently located below the DUNS Number on your entity registration record. You must be signed in to your SAM.gov account to view entity records.

You must continue to maintain active SAM registration with current information during the period your organization has an active federal award or an application under consideration by an agency (unless you are an individual or federal agency that is exempted from those requirements under 2 CFR § 25.110(b) or (c), has an exception approved by the agency under 2 CFR § 25.110(d)). To create a SAM user account, Register/Update your account, and/or Search Records, go to <https://www.sam.gov>. It takes 7-10 business days for a new SAM entity registration to become active.

It is important to initiate this process well before the application deadline. You will receive an email alerting you when your registration is active.

It is also highly recommended that you renew your account before the expiration date. **SAM information must be active and up-to-date and should be updated at least**

every 12 months to remain active (for both recipients and sub-recipients). Once you update your record in SAM, **it will take 48 to 72 hours to complete the validation processes.** **Grants.gov rejects electronic submissions from applicants with expired registrations.**

If your SAM account expires, the renewal process requires the same validation with IRS and DoD (Cage Code) as required for a new account.

1.2 Grants.gov Registration

[Grants.gov](http://www.grants.gov) is an online portal for submitting federal award applications. It requires a one-time registration to submit applications. eRA Commons registration is separate but can be done concurrently. You can register to obtain a Grants.gov username and password at <http://www.grants.gov/web/grants/register.html>.

If you have already completed Grants.gov registration and ensured your **Grants.gov and SAM accounts are up-to-date and/or renewed**, go to the eRA Commons registration steps noted below. If this is your first time submitting an application through Grants.gov, registration information can be found at the Grants.gov "[Applicants](#)" tab.

The person submitting your application must be properly registered with Grants.gov as the Authorized Organization Representative (AOR) for the specific UEI number cited on the SF-424 (first page). See the Organization Registration User Guide for details at the following Grants.gov link: <http://www.grants.gov/web/grants/applicants/organization-registration.html>.

1.3 eRA Commons Registration

eRA Commons is an online data platform managed by NIH that allows applicants, award recipients, and federal staff to securely share, manage, and process award-related information. It is strongly recommended that you start the eRA Commons registration process **at least six (6) weeks** before the application due date.

Organizations applying for SAMHSA funding must register in eRA Commons. This is a one-time registration separate from Grants.gov registration. Note: Grants.gov and eRA Commons Registration may occur concurrently. In addition to the organization registration, the Business Official (BO) named in the Authorized Representative section field on page 3 of the SF-424 and the Project Director details entered in the Applicant Information item f on page 1 of the SF-424 (Name and contact information of the person to be contacted on matters involving this application) must have accounts in eRA Commons and receive a Commons ID to have access to electronic submission and retrieval of application/award information. **If your organization is not registered and does not have an active eRA Commons PI account by the deadline, the application will not be accepted.**

For organizations registering with eRA Commons for the first time, the BO named in the Authorized Representative section of the SF-424 must complete the [Register Institution](#)

online process. Instructions on how to complete the online Institution Registration Form are provided on the [Register in eRA Commons](#) page.

[Note: You must have a valid and verifiable UEI number to complete the eRA Commons registration.]

After the BO named as the Authorized Representative completes the online Institution Registration Form and clicks Submit, the eRA Commons will send an e-mail notification from era-notify@mail.nih.gov with the link to confirm the email address. Once the e-mail address is verified, the registration request will be reviewed and confirmed via email. If your request is denied, the representative will receive an email detailing the reason for the denial. If the request is approved, the BO will receive an email with an eRA Commons User ID for the Signing Official account (SO) role. The representative will receive a separate email about this SO account containing a temporary password to be used for the first-time login. The representative will need to log into eRA Commons with the temporary password, at which time the system will provide prompts to change the temporary password to one of their choosing. Once the BO/SO signs the registration request, the organization will be active in eRA Commons. The BO/SO can then create additional accounts for the organization as needed. Organizations can have multiple user accounts with the SO role, and any user with the SO role will be able to create and maintain additional accounts for the organization's staff, including accounts for those designated as Project Director/Principal Investigator (PD/PI) and other Signing Officials.

Important: The eRA Commons requires organizations to identify at least one BO/SO, who is the BO entered in the Authorized Representative section on the SF-424, and a PD/PI to submit an application. The primary BO/SO must create the account for the PD/PI listed as the person to contact regarding the application on page 1 of the SF-424 assigning that person the 'PI' role in eRA Commons. Note that you must also enter the PD/PI's Commons Username into the 'Applicant Identifier' field of the SF-424 document (Line 4). **The individual designated as the BO cannot also be a PD.**

2. WRITE AND COMPLETE APPLICATION

SAMHSA strongly encourages you to sign up for Grants.gov email notifications regarding this NOFO. If the NOFO is cancelled or modified, individuals who sign up with Grants.gov for updates will be automatically notified.

2.1 Obtaining Paper Copies of Application Materials

If your organization has difficulty accessing high-speed internet and cannot download the required documents, you may request a paper copy of the application materials.

Contact the Division of Grant Review at dgr.applications@samhsa.hhs.gov for additional information on obtaining paper copies.

2.2 Required Application Components

After downloading and retrieving the required application components and completing the registration processes, it is time to write and complete your application. All files uploaded with the Grants.gov application **MUST** be in **Adobe PDF** file format. Directions for creating PDF files can be found on the Grants.gov website. See [Appendix B](#) for all application formatting and validation requirements.

Standard Application Components

Applications must include the following required application components listed in the table below. This table consists of a full list of standard application components, a description of each required component, and where you can find each document.

#	Standard Application Components	Description	Where to Find Document
1	SF-424 (Application for Federal Assistance) Form	<p>This form must be completed by applicants for all SAMHSA awards. The names and contact information for Project Director (PD) and Business Official (BO) are required for SAMHSA applications and are to be entered on the SF-424 form.</p> <ul style="list-style-type: none"> The PD must have an eRA Commons account: the PD's Commons Username must be entered in field 4. Applicant Identifier; and the PD's name, phone number and email address must be entered in Section 8. APPLICANT INFORMATION: item f. Name and contact information of person to be contacted on matters involving this application. <u>The PD listed in the SF-424 must match the PD in the Personnel Costs section in the budget.</u> The BO name, title, email address and phone number must be entered in the Authorized Representative section fields on page three of the SF 424. The organization mailing address is required in section 8. APPLICANT INFORMATION item d. Address. <p>All SAMHSA Notices of Award (NoAs) will be emailed by SAMHSA via NIH's eRA Commons to the Project Director/Principal Investigator (PD/PI), and the Signing Official/Business Official (SO/BO).</p>	Grants.gov/forms
2	SF-424 A (Budget Information – Non-Construction Programs) Form	Use SF-424A. Fill out Sections A, B, D and E of the SF-424A. Section C should only be completed if applicable. It is highly recommended that you use the budget template. (See Section IV.2)	Grants.gov/forms

#	Standard Application Components	Description	Where to Find Document
3	Project/Performance Site Location(s) Form	The purpose of this form is to collect physical location information on the site(s) where work funded under this announcement will be performed. The address cannot be a P.O. Box.	Grants.gov/forms
4	Project Abstract Summary	It is recommended the abstract is no more than one page. It should include the project name, population(s) to be served (demographics and clinical characteristics), strategies/interventions, project goals and measurable objectives, including the number of people to be served annually and throughout the lifetime of the project, etc. In the first five lines or less of your abstract, write a summary of your project that can be used, if your project is funded, in publications, reports to Congress, or press releases.	
5	Project Narrative Attachment	The Project Narrative is your response to the Evaluation Criteria found at Section V.1 of this NOFO. It cannot be longer than 10 pages. You must attach the Project Narrative file (Adobe PDF format only) inside the Project Narrative Attachment Form.	
6	Budget Justification and Narrative Attachment	You must include a detailed Budget Narrative in addition to Budget Form SF-424A. In preparing the budget, adhere to any existing federal award or agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. The budget justification and narrative must be submitted as file name " BNF " when you submit your application into Grants.gov.	SAMHSA Website
7	SF-424 B (Assurances for Non-Construction) Form	You must read the list of assurances provided on the SAMHSA website and check the box marked 'I Agree' before signing the first page (SF-424) of the application.	SAMHSA Website
8	Disclosure of Lobbying Activities (SF-LLL) Form	Federal law prohibits the use of appropriated funds for publicity or propaganda purposes or for the preparation, distribution, or use of the information designed to support or defeat legislation pending before Congress or state legislatures. For SAMHSA to determine whether or not your organization participates in lobbying activities, a signed copy of the SF-LLL form must be submitted. If your organization does not participate in lobbying activities, indicate "Not Applicable" on the form.	Grants.gov/forms

#	Standard Application Components	Description	Where to Find Document
9	Other Attachments Form	Refer to the Supporting Documents below. Use the Other Attachments Form to attach all required additional/supporting documents listed in the table below.	

Supporting Documents

In addition to the Standard Application Components listed above, the following supporting documents are necessary for the review of your application. Supporting documents must be attached to your application. **For each of the following application components, attach each document (Adobe PDF format only) using the Other Attachments Form in ASSIST, Workspace, or other S2S provider.**

#	Supporting Documents	Description	Where to Find Document
1	HHS 690 Form	Every applicant must have a completed HHS 690 form (PDF 291 KB) on file with the Department of Health and Human Services.	SAMHSA Website
2	Charitable Choice Form SMA 170 (Attachment 7)	See Section IV-1 of the NOFO to determine if you are required to submit Charitable Choice Form SMA 170.	SAMHSA Website
3	Biographical Sketches and Job Descriptions (Attachment 5)	See Appendix G of this document for additional instructions for completing these sections. Formatting requirements outlined in Appendix B are not applicable for these documents.	Appendix G of this document.
4	Confidentiality and SAMHSA Participant Protection/Human Subjects (Attachment 6)	See the NOFO for requirements related to confidentiality, participant protection, and the protection of human subject's regulations.	Appendix D of this document.
5	Additional Documents in the NOFO	The NOFO will indicate the attachments you need to include in your application.	NOFO: Section IV.

2.3 Additional Documents for Submission (SAMHSA Website)

You will find additional materials you will need to complete your application on the SAMHSA website at <http://www.samhsa.gov/grants/applying/forms-resources>.

3. SUBMIT APPLICATION

3.1 Electronic Submission (eRA ASSIST, Grants.gov Workspace, or other S2S provider)

After completing all required registration and application requirements, SAMHSA requires applicants to **electronically submit** using eRA ASSIST, Grants.gov Workspace, or another system to system (S2S) provider. Information on each of these options is below:

- 1) **ASSIST** – The Application Submission System and Interface for Submission Tracking (ASSIST) is an NIH sponsored online interface used to prepare applications using the SF-424 form set, submit electronically through Grants.gov to SAMHSA and other participating agencies, and track applications. [Note: ASSIST requires an eRA Commons ID to access the system]
- 2) **Grants.gov Workspace** – You can use the shared, online environment of the Grants.gov Workspace to collaboratively work on different forms within the application.

The specific actions you need to take to submit your application will vary by submission method as listed above. The steps to submit your application are as follows:

To submit to Grants.gov using ASSIST: [eRA Modules, User Guides, and Documentation | Electronic Research Administration \(eRA\)](#)

To submit to Grants.gov using the Grants.gov Workspace:

<http://www.grants.gov/web/grants/applicants/workspace-overview.html>

Regardless of the option you use, your application will be subject to the same registration requirements, completed with the same data items, routed through Grants.gov, validated against the same agency business rules, assembled in a consistent format for review consideration, and tracked in eRA Commons. All applications that are successfully submitted must be validated by Grants.gov before proceeding to the NIH eRA Commons system and validations.

3.2 Waiver from Electronic Submission

SAMHSA will not accept paper applications except under very special circumstances. If you need special consideration, SAMHSA must approve the waiver of this requirement in advance.

If you do not have the technology to apply online, or your physical location has no Internet connection, you may request a waiver of electronic submission. **You must send a written request to the Division of Grant Review at least 15 calendar days before the application due date.**

Direct any questions regarding the submission waiver process to the Division of Grant Review at dgr.applications@samhsa.hhs.gov.

3.3 Deadline

On-time submission requires that electronic applications be error-free and made available to SAMHSA for processing from the NIH eRA system on or before the application due date and time. Applications must be submitted to and validated successfully by Grants.gov and eRA Commons no later than 11:59 PM Eastern Time on the application due date. Applications submitted in Grants.gov after the application due date will not be considered for review.

You are strongly encouraged to allocate additional time prior to the submission deadline to submit your application and to correct errors identified in the validation process. You are also encouraged to check the status of your application submission to determine if the application is complete and error-free.

3.4 Resources for Assistance

If you encounter problems when submitting your application in Grants.gov, you must attempt to resolve them by contacting the Grants.gov Service Desk at the following:

- By e-mail: support@grants.gov
- By phone: (toll-free) 1-800-518-4726 (1-800-518-GRANTS). The Grants.gov Contact Center is available 24 hours a day, 7 days a week, excluding federal holidays.

Make sure you receive a case/ticket/reference number that documents the issues/problems with Grants.gov.

Additional support is also available from the NIH eRA Service desk at:

- To submit a service request ticket: <http://grants.nih.gov/support/index.html>
- By phone: 301-402-7469 or (toll-free) 1-866-504-9552. (Press menu option 6 for SAMHSA). The NIH eRA Service desk is available Monday – Friday, 7 a.m. to 8 p.m. Eastern Time, excluding federal holidays.

If you experience problems accessing or using ASSIST (see below), you can:

- Access the ASSIST Online Help Site at: <https://era.nih.gov/erahelp/assist/>
- Or contact the NIH eRA Service Desk

SAMHSA highly recommends that you submit your application 24-72 hours before the submission deadline. Many submission issues can be fixed within that time and you can attempt to re-submit.

4. AFTER SUBMISSION

4.1 System Validations and Tracking

After you complete and comply with all registration and application requirements and submit your application, the application will be validated by Grants.gov. You will receive a notification that your application is being processed. You will receive two additional e-mails from Grants.gov within the next 24-48 hours (one notification email will confirm receipt of the application in Grants.gov, and the other notification email will indicate that the application was either successfully validated by the Grants.gov system or rejected due to errors). It is important that you retain this Grants.gov tracking number. **Receipt of the Grants.gov tracking number is the only indication that Grants.gov has successfully received and validated your application.** If you do not receive a Grants.gov tracking number, you may want to contact the Grants.gov help desk for assistance (see Resources for Assistance in Section 3.4).

If Grants.gov identifies any errors and rejects your application with a “Rejected with Errors” status, you must address all errors and resubmit. If no problem is found, Grants.gov will allow the eRA system to retrieve the application and check it against its own agency business rules (eRA Commons validations). If you use ASSIST to complete your application, you can validate your application and fix errors before submission.

After you successfully submit your application through Grants.gov, your application will go through eRA Commons validations. If no errors are found, the application will be assembled in eRA Commons. At this point, you can view your application in eRA Commons. It will then be forwarded to SAMHSA as the receiving institution for further review.

If errors are found during eRA Commons validation, you will receive a System Error and/or Warning notification regarding the problems found in the application (see 4.2 below). You must take action to make the required corrections and resubmit the application through Grants.gov before the application due date and time (**See 4.4 below**). Do not assume that if your application passes the Grants.gov validations that it will successfully pass eRA validations and will be received by SAMHSA. You must check your application status in eRA Commons to ensure that no errors were identified. It is critical that you allow for sufficient time to resubmit the application if errors are detected.

You are responsible for viewing and tracking your applications in the eRA Commons after submission through Grants.gov to ensure accurate and successful submission. Once you can access your application in the eRA Commons, be sure to review it carefully as this is what reviewers will see.

4.2 eRA Commons: Warning vs. Error Notifications

You may receive a System Warning and/or Error notification after submitting an application. Take note that there is a distinction between System Errors and System Warnings.

Warnings – If you receive a Warning notification after the application is submitted, you are not required to resubmit the application. The reason for the Warning will be identified in the notification. It is at your discretion to choose to resubmit, but if the application was successfully received, it does not require any additional action.

Errors – If you receive an Error notification after the applications is submitted, you must correct and resubmit the application. The word Error is used to characterize any condition which causes the application to be deemed unacceptable for further consideration.

4.3 System or Technical Issues

If you encounter a system error that prevents you from completing the application submission process on time, the BO from your organization will receive an email notification from eRA Commons. SAMHSA highly recommends contacting the eRA Service Desk and submitting a web ticket to document your good faith attempt to submit your application and determining next steps. See Section 3.4 for more information on contacting the eRA Service Desk.

4.4 Resubmitting a Changed/Corrected Application

If SAMHSA does not receive your application by the application due date as a result of a failure in the SAM, Grants.gov, or NIH's eRA Commons systems, you must contact the Division of Grant Review within one business day after the official due date at: dgr.applications@samhsa.hhs.gov and provide the following:

- A case number or email from SAM, Grants.gov, and/or NIH's eRA system that allows SAMHSA to obtain documentation from the respective entity for the cause of the error.

SAMHSA will consider the documentation to determine **if** you followed Grants.gov and NIH's eRA requirements and instructions, met the deadlines for processing paperwork within the recommended time limits, met NOFO requirements for submission of electronic applications, and made no errors that caused submission through Grants.gov or NIH's eRA to fail. No exceptions for submission are allowed when user error is involved. Note that system errors are extremely rare.

[Note: When resubmitting an application after revisions have been made, ensure that the **Project Title is identical to the Project Title in the originally submitted application** (i.e., no extra spacing) as the Project Title is a free-text form field.] In addition, check the Changed/Corrected Application box in #1.

Appendix B - Formatting Requirements and System Validation

1. SAMHSA FORMATTING REQUIREMENTS

SAMHSA's goal is to review all applications submitted for funding. However, this goal must be balanced against SAMHSA's obligation to ensure equitable treatment of applications. For this reason, SAMHSA has established certain formatting requirements for its applications. See below for a list of formatting requirements required by SAMHSA:

- Text must be legible. Pages must be typed in black, single-spaced, using a font of Times New Roman 12, with all margins (left, right, top, bottom) at least one inch each. You may use Times New Roman 10 only for charts or tables.
- **You must submit your application and all attached documents in Adobe PDF format, or your application will not be forwarded to eRA Commons and will not be reviewed. See Section 3 below for more details on PDF requirements.**
- To ensure equity among applications, the 10-page limit for the Project Narrative cannot be exceeded. If an application exceeds the 10-page limit, the application will not be reviewed.
- Citations can be put in an Attachment. They do not have to be placed in the Project Narrative.
- Black print should be used throughout your application, including charts and graphs (no color).
- If you are submitting more than one application under the same announcement number, you must ensure that the Project Title in Field 15 of the SF-424 is unique for each submission.

2. GRANTS.GOV FORMATTING AND VALIDATION REQUIREMENTS

- Grants.gov allows the following list of UTF-8 characters when naming your attachments: A-Z, a-z, 0-9, underscore, hyphen, space, and period. Other UTF-8 characters should not be used as they will not be accepted by NIH's eRA Commons, as indicated in item #9 in the table below.
- Scanned images must be scanned at 150-200 dpi/ppi resolution and saved as a PDF file. Using a higher resolution setting or different file type will result in a larger file size, which could result in rejection of your application.

- Any files uploaded or attached to the Grants.gov application must be PDF file format and must contain a valid file format extension in the filename. In addition, the use of compressed file formats such as ZIP, RAR or Adobe Portfolio will not be accepted.

3. eRA COMMONS FORMATTING AND VALIDATION REQUIREMENTS

The following are formatting requirements and system validations required by eRA Commons and will result in errors if not met. The application must be 'error free' to be processed through the eRA Commons. There may be additional validations which will result in Warnings but these will not prevent the application from processing through the submission process. (See Appendix A, Section 4.2)

ASSIST File Formatting Requirements

The eRA system contains file formatting requirements for uploading documents in ASSIST. The only accepted file type for submission is PDF and each file may be no larger than 6 MB. Fillable forms must be 'flattened' and saved as a PDF prior to upload. Adobe Portfolio file types will not be accepted.

Files for Upload to ASSIST must be:

- PDF Format
- Under 6MB in File Size
- 8.5 x 11 Page Size
- Flat (*No Fillable/Editable Fields*)

Files must **NOT** contain:

- Password-Protection
- Live hyperlinks (*only plain text URLs*)
- Bookmarks or Signature Boxes
- A filename exceeding 50 Characters (*including spaces*)

Flatten Fillable Forms Prior to Upload in ASSIST

A completed fillable form (an electronic document that can be filled out and edited digitally—also called fillable, dynamic, or interactive forms) should not only be saved as a PDF; it must also be flattened to remove the interactive fields so that the final answers are saved. Flattening a form is not the same as “locking” it; locking a form restricts access to editing, printing, and copying the document.

Flattening a PDF document:

- **Keeps form values permanent.** When an interactive PDF is uploaded or emailed, every field remains open to accidental or deliberate revision. Flattening the form ensures that only the completed version of the form is visible.
- **Removes values on drop down lists.** A flattened document will show only the selected text or value, no other values and options are shown and there is no indication that options were present.
- **Simplifies the PDF.** Interactive forms are larger than normal files, which may prevent upload for submission. Flattening reduces the file size which makes it easier to render and view.

To flatten a file, follow the steps below.

1. Ensure that the form is completed and the information is correct. Go to the print settings by selecting **File > Print**.
2. On the pull-down menu of printer options, choose Adobe PDF or Microsoft Print to PDF, then click OK.
3. After clicking **OK**, a pop-up will open with options to save the PDF. Be sure to select a specific location to save the document where it can easily be found and give it a unique file name. Use a file name that clearly differentiates the completed form from the original fillable form. File names cannot exceed 50 characters.
4. The flattened form should appear in the new location with the new file name. Open it to check once more for any changes and to confirm that the conversion worked.

If you do not adhere to these requirements, you will receive an email notification from era-notify@mail.nih.gov to take action and adhere to the requirements so that your application can be processed successfully. It is highly recommended that you submit your application 24-72 hours before the submission deadline to allow for sufficient time to correct errors and resubmit the application. If you experience any system validation or technical issues after hours on the application due date, contact the eRA Service Desk and submit a Web ticket to document your good faith attempt to submit your application.

eRA Commons Validation Table

The following table shows formatting requirements and system validations required by eRA Commons and will result in errors if not met.

eRA Validations	eRA Error Messages
<p>#1: Applicant Identifier (Item 4 on the SF-424):</p> <p>The PD/PI Credentials must be provided</p> <p>Username provided must be a valid Commons account</p> <p>Username must be affiliated with the organization submitting the application and/or have the PI role</p>	<p>The Commons Username must be provided in the Applicant Identifier field for the PD/PI.</p> <p>The Commons Username provided in the Applicant Identifier is not a recognized Commons account.</p> <p>The Commons account provided in the Applicant Identifier field for the PD/PI is either not affiliated with the applicant organization or does not hold the PI role. Check with your Commons Account Administrator to make sure your account affiliation and roles are set-up correctly.</p>
<p>#2. The UEI number provided must include valid characters (12 numbers)</p>	<p>The UEI number provided has invalid characters (other than 12 numbers)</p>
<p>#3. The documentation (forms) required for the NOFO must be submitted</p>	<p>The format of the application does not match the format of the NOFO. Contact the eRA Service Desk for assistance.</p>
<p>(#4 If a change or correction is made to address an error, "Changed/Corrected" must be selected. Item #1 on the SF-424). Refer to Appendix A II-4.4 for more information on resubmission criteria.</p>	<p>This application has been identified as a duplicate of a previous submission. The 'Type of Submission' should be set to Changed/Corrected if you are addressing errors/warnings.</p>
<p>#5. The application cannot exceed 1.2GB.</p>	<p>The application did not follow the agency-specific size limit of 1.2 GB. Resize the application to be no larger than 1.2 GB before submitting.</p>
<p>#6. The correct Notice of Funding Opportunity (NOFO) number must be provided</p>	<p>The Funding Opportunity Announcement number does not exist.</p>
<p>#7 All documents and attachments must be submitted in PDF format.</p>	<p>"The <attachment> attachment is not in PDF format. All attachments must be provided to the agency in PDF format with a .pdf extension. Help with PDF attachments can be found at http://grants.nih.gov/grants/ElectronicReceipt/pdf_guidelines.htm."</p>

eRA Validations	eRA Error Messages
<p>#8. All attachments must comply with the following formatting requirements: PDF attachments cannot be empty (0 bytes).</p> <p>All PDF attachments cannot have Meta data missing, cannot be encrypted, password protected or secured documents.</p> <p>The size of PDF attachments cannot be larger than 8.5 x 11 inches (horizontally or vertically). [Note: It is recommended that you limit the size of attachments to 35 MB.]</p> <p>PDF attachments must have a valid file name. Valid file names must include the following UTF-8 characters: A-Z, a-z, 0-9, underscore (_), hyphen (-), space, period.</p>	<p>The {attachment} attachment was empty. PDF attachments cannot be empty, password protected or encrypted.</p> <p>The <attachment> attachment contained formatting or features not currently supported by NIH: <condition returned>.</p> <p>Filename <file> cannot be larger than U.S. standard letter paper size of 8.5 x 11 inches. See the PDF guidelines at http://grants.nih.gov/grants/ElectronicReceipt/pdf/guidelines.htm</p> <p>The <attachment> attachment filename is invalid. Valid filenames may only include the following characters: A-Z, a-z, 0-9, underscore (_), hyphen (-), space, or period. No special characters (including brackets) can be part of the filename.</p>
<p>#9. The email addresses for the Contact Person (SF-424 Section F) and the Authorized Representative (SF-424 below Section 21) must contain a '@', with at least 1 and at most 64 chars preceding and following the '@'. Control characters (ASCII 0 through 31 and 127), spaces and special chars < > () [] \ , ; : are not valid.</p>	<p>The submitted e-mail address for the person to be contacted {email address}, is invalid. Must contain a '@', with at least 1 and at most 64 chars preceding and following the '@'. Control characters (ASCII 0 through 31 and 127), spaces and special chars < > () [] \ , ; : are not valid.</p>
<p>#10. Congressional district code of applicant (after truncating) must be valid. (SF-424, item 16 a and b)</p>	<p>Congressional district <Congressional District> is invalid. To locate your district, visit http://www.house.gov/</p>

Budget Errors	
eRA Validations	eRA Error Messages
<p><u>SF424-A: Section A – Budget Summary</u> The total fields at the end of rows or at the bottom of columns must equal the sum of the elements for that row or column</p>	<p>Ensure that the sum of Grant Program Function or Activity (a) elements entered equals the total amounts in the Total field</p>
<p><u>SF424-A: Section B – Budget Categories</u> The Total in Section B (Column 5 - Row k) must equal the Total in Section A – Budget Summary: (Row 5, Column g).</p>	<p>Ensure that the TOTALS Total (row k, column 5) equals the Budget Summary Totals in section A, row 5 column g.</p>
<p><u>SF424-A: Section D – Forecasted Cash Needs</u> The Federal Total for the 1st Year (Line 13) must equal the Total in Section A (Row 5, Column g)</p> <p>The Non-Federal Total for 1st Year sum must equal Estimated Unobligated Funds Non-Federal Totals in Section A (d-5) + New or Revised Budget Non-Federal Totals (f-5)</p>	<p>Ensure that the Federal Total for 1st year, in Section D- Forecasted Needs equals the Section A, New or Revised Budget Federal Totals (e-5) amount.</p> <p>Ensure that the Non-Federal Total for 1st year equals the sum of Estimated Unobligated Funds Non-Federal Totals (d-5) and New or Revised Budget Non-Federal Totals (f-5) on Section A.</p>
<p>The Total for 1st Year TOTAL in Section D must equal the Total (Row 5, Column G) in Section A</p>	<p>Ensure that the Forecasted Cash Needs: 15 TOTAL equals to SECTION A – Budget Summary: Line 5. Totals, Column (g).</p>
<p><u>SF424-A: Section E – Budget Estimates of Federal Funds Needed for Balance of The Project</u></p> <p>The number of budget years/periods must match the span of the project. The number of years in the project period in Block 17 on the SF-424 must align with the future funding periods.</p>	<p>Ensure that the project period years on the SF 424 block 17 matches the provided budget periods in the SF-424A. Enter data for the first budget period in Section D and enter future budget periods in Section E.</p>

Appendix C – General Eligibility Information

Determining whether you are eligible to apply for and receive a SAMHSA award is very important. If you are not legally eligible for a specific funding opportunity, you would spend considerable time and money completing the application process when you cannot receive the award.

There are many types of organizations generally eligible to apply for SAMHSA funding opportunities. However, eligibility is strictly tied to the statutory authority governing this award. Please be sure to double check the NOFO for eligibility. Eligibility for this NOFO may include the following:

Government Organizations

- State governments and territories
- County governments
- City or township governments
- Special district governments
- Native American tribal governments (federally recognized)
- Native American tribal governments (other than federally recognized)
- State-Recognized Tribes

Other Tribal Entities

- Tribal organizations
- Consortia of tribes or tribal organizations
- Urban Indian Organizations

Education Organizations

- Independent school districts
- Public and state-controlled institutions of higher education
- Private institutions of higher education
- Education agencies/authorities serving children and youth residing in federally recognized American Indian/Alaska Native (AI/AN) tribes

Non-profit Organizations

- Non-profits having a 501(c)(3) status with the Internal Revenue Service (IRS), other than institutions of higher education
- Non-profits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education, including entities with 501(c)(4) status (civic leagues, social welfare organizations, and local associations of employees) and 501(c)(5) status (labor organizations).

Please note: For-profit organizations and foreign entities are not eligible to apply for SAMHSA awards.

Appendix D – Confidentiality and SAMHSA Participant Protection/Human Subjects Guidelines

CONFIDENTIALITY AND PARTICIPANT PROTECTION:

It is important to have safeguards protecting individuals from risks associated with their participation in SAMHSA projects. **As part of Attachment 7 of the application, all applicants (including those who plan to obtain Institutional Review Board (IRB) approval) must address all of the elements below.** If some elements are not applicable to the proposed project, explain why the element(s) is not applicable.

In addition to addressing these elements, you will need to determine if the section below titled “Protection of Human Subjects Regulations” applies to your project. If so, you must submit the required documentation as described below. There are no page limits for your response to the elements in this appendix.

1. Protect Participants and Staff from Potential Risks

- Identify and describe the foreseeable physical, medical, psychological, social, and legal risks or potential adverse effects **participants** may be exposed to because of the project.
- Identify and describe the foreseeable physical, medical, psychological, social, and legal risks or potential adverse effects **staff** may be exposed to as a result of the project.
- Describe the procedures you will follow to minimize or protect participants and staff against potential risks, including risks to confidentiality.
- Identify your plan to provide guidance and assistance in the event there are adverse effects to participants and/or staff.

Responses that will be considered unacceptable or incomplete:

- *Indicating that there are **no risks** to participants. If services are being delivered as part of the project, it is **very unlikely** that there will be no foreseeable physical, medical, psychological, social, or legal risks or potential adverse effects as a result of their involvement in the project.*
- *Addressing potential risks to participants but not addressing risks to staff*
- *Neglecting to describe how the organization will provide guidance and assistance in the event there are adverse effects to participants and whether alternative treatments will be available to participants.*

2. Fair Selection of Participants

- Explain how you will recruit and select participants ensuring all populations have equitable opportunities to participate in the program.
- Identify any individuals in the geographic catchment area where services will be delivered who will be excluded from participating in the project and explain the reasons for this exclusion.

Responses that will be considered unacceptable or incomplete:

- *Not explaining reasons for including or excluding participants*
- *Not identifying how participants will be selected*

3. Absence of Coercion

- If you plan to compensate participants, state how participants will be awarded incentives (e.g., gift cards, bus passes, gifts, etc.) If you plan to implement a contingency management program, specify the evidence-based model you will use and briefly justify its use with your population(s) of focus. If you have included funding for incentives in your budget, you **must** address this item. (For specific information about incentives, see <https://www.samhsa.gov/grants/grants-management/policies-regulations/additional-directives>)
- Provide justification that the use of incentives is appropriate, judicious, and conservative and that incentives do not provide an “undue inducement” that removes the voluntary nature of participation.
- Describe how you will inform participants in a culturally competent manner that they may receive services even if they choose to not participate in or complete the data collection component of the project.

Responses that will be considered unacceptable or incomplete:

- *Indicating that you do not plan to compensate participants, such as through incentives, but including funding for incentives in the budget or describing the use of incentives in the Project Narrative.*
- *Not specifying how participants will be told that they may receive services even if they choose not to participate in the data collection component of the project.*

4. Data Collection

- Identify from whom you will collect data (e.g., participants, clients, family members, teachers, others).
- Describe the data collection procedures and specify the sources for obtaining data (e.g., school records, interviews, psychological assessments, questionnaires, observation, or other sources). Identify what type of specimens (e.g., urine, blood) will be used, if any. State if the specimens will be used for purposes other than evaluation.
- In **Attachment 2**, “Data Collection Instruments/Interview Protocols,” you **must** provide copies of all available data collection instruments and interview protocols that you plan to use (unless you are providing the web link to the standardized instrument(s)/protocol(s). Include any culturally adapted data collection instruments and interview protocols.

Responses that will be considered unacceptable or incomplete:

- *Not clearly identifying all the entities from which data will be collected.*
- *Describing the use of drug testing in the Project Narrative but not providing the requested information about specimen collection.*
- *Not including data collection instruments/interview protocols (or links to websites for the instruments) in Attachment 2.*
- *Not including how the data collection will occur (i.e., paper surveys versus electronic survey links; at a school setting or at the organization’s clinic, etc.).*

5. Privacy and Confidentiality

- Explain how you will ensure privacy and confidentiality. Describe:
 - Where data will be stored,
 - Who will have access to the data collected, and
 - How the identity of participants will be kept private, for example, using a coding system on data records, limiting access to records, or storing identifiers separately from data.
- **NOTE:** Recipients must maintain the confidentiality of substance use disorder client records according to the provisions of **Title 42 of the Code of Federal Regulations, Part II, Subpart B.**

Responses that will be considered unacceptable or incomplete:

- *Not providing detailed information about where data is stored and how the identity of participants will be kept confidential.*
- *Not clearly identifying the individuals who will have access to the data.*
- *Not specifying that you agree to maintain the confidentiality substance use disorder client records according to the provisions of Title 42 of the Code of Federal Regulations, Part II.*

6. Adequate Consent Procedures

- Include, as appropriate, sample consent forms* that provide for:
 1. informed consent for participation in service intervention;
 2. informed consent for participation in the data collection component of the project, including information that participants are informed that they may receive services even if they choose not to participate in or complete this component of the project; and
 3. informed consent for the exchange (releasing or requesting) of confidential information.
 4. Informed consent for youth participants.

*Consent forms should be written at no higher than 8th grade reading level.

- The sample forms must be included in **Attachment 3, “Sample Consent Forms”**, of your application. If needed, provide translated forms.
- Explain how you will obtain consent for youth, the elderly, people with limited reading skills, and people who do not use English as their first language. Describe how the consent will be documented. For example: Will you read the consent forms? Will you ask prospective participants questions to be sure they understand the forms? Will you give them copies of what they sign?

NOTE: The consent forms should never imply that the participant waives or appears to waive any legal rights. The forms should also not imply that individuals cannot end involvement with the project or that your project or its agents will be released from liability for negligence.

Responses that will be considered unacceptable or incomplete:

- *Not providing copies of sample consent forms in Attachment 3.*

- *Not providing details on how consent/assent will be obtained for youth participants.*
- *Not providing details on how consent will be obtained for non-English speaking priority populations identified in the application.*

7. Risk/Benefit Discussion

- Discuss why the risks you have identified in **Element 1. Protect Participants and Staff from Potential Risks** are reasonable compared to the anticipated benefits to participants involved in the project.

- Responses that will be considered unacceptable or incomplete:*
- *Indicating there are no risks to participants in the first element and noting that this element is therefore not applicable.*
 - *Not mentioning any anticipated benefits to participants involved in the project.*

PROTECTION OF HUMAN SUBJECTS REGULATIONS

SAMHSA expects that most recipients funded under this announcement will not have to comply with the Protection of Human Subjects Regulations (45 CFR 46), which requires Institutional Review Board (IRB) approval. However, in some instances, the applicant’s proposed project may meet the regulation’s criteria for research involving human subjects. Although IRB approval is not required at the time of award, you are required to provide the documentation below prior to enrolling participants into your project.

In addition to the elements above, applicants whose projects must comply with the Human Subjects Regulations must:

- Describe the process for obtaining IRB approval for your project.
- Provide documentation that an Assurance of Compliance is on file with the Office for Human Research Protections (OHRP).
- Provide documentation that IRB approval has been obtained for your project prior to enrolling participants.

General information about Human Subjects Regulations can be obtained through OHRP at <http://www.hhs.gov/ohrp> or (240) 453-6900. SAMHSA–specific questions should be directed to the program contact listed in Section VII of this announcement.

Appendix E – Developing Goals and Measurable Objectives

To be able to effectively evaluate your project, it is critical that you develop realistic goals and measurable objectives. This appendix provides information on developing goals and objectives for use in your Project Narrative. It also provides examples of well-written goals and measurable objectives.

GOALS

Definition – a goal is a broad statement about the long-term expectation of what should happen because of your program (the desired result). It serves as the foundation for developing your program objectives. Goals should align with the statement of need that is described. Goals should only be one sentence.

The characteristics of effective goals include:

- Goals address outcomes, not how outcomes will be achieved.
- Goals describe the behavior or condition in the community expected to change.
- Goals describe who will be affected by the project.
- Goals lead clearly to one or more measurable results.
- Goals are concise.

Examples

Unclear Goal	Critique	Improved Goal
Increase the substance use and HIV/AIDS prevention capacity of the local school district	This goal could be improved by <i>specifying an expected program effect in reducing a health problem</i>	Increase the capacity of the local school district to reduce high-risk behaviors of students that may contribute to substance use and/or HIV/AIDS
Decrease the prevalence of marijuana, alcohol, and prescription drug use among youth in the community by increasing the number of schools that implement effective policies, environmental change, intensive training of teachers, and educational approaches to address high-risk behaviors, peer pressure, and tobacco use.	This goal is not concise	Decrease youth substance use in the community by implementing evidence-based programs within the school district that address behaviors that may lead to the initiation of use.

OBJECTIVES

Definition – Objectives describe the results to be achieved and the manner in which they will be achieved. Multiple objectives are generally needed to address a single

goal. Well-written objectives help set program priorities and targets for progress and accountability. It is recommended that you avoid verbs that may have vague meanings to describe the intended outcomes, like “understand” or “know” because it may prove difficult to measure them. Instead, use verbs that document action, such as: “By the end of 2020, 75% of program participants will be *placed* in permanent housing. To be effective, objectives should be clear and leave no room for interpretation.

SMART is a helpful acronym for developing objectives that are ***specific, measurable, achievable, realistic, and time-bound***:

Specific –

Includes the “who” and “what” of program activities. Use only one action verb to avoid issues with measuring success. For example, “Outreach workers will administer the HIV risk assessment tool to at least 100 injection drug users in the population of focus” is a more specific objective than “Outreach workers will use their skills to reach out to drug users on the street.”

Measurable –

How much change is expected. It must be possible to count or otherwise quantify an activity or its results. It also means that the source of and mechanism for collecting measurement data can be identified and that collection of the data is feasible for your program. A baseline measurement is required to document change (e.g., to measure the percentage of increase or decrease). If you plan to use a specific measurement instrument, it is recommended that you incorporate its use into the objective. Example: By 9/20 increase by 10% the number of 8th, 9th, and 10th grade students who disapprove of marijuana use as measured by the annual school youth survey.

Achievable –

Objectives should be attainable within a given time frame and with available program resources. For example, “The new part-time nutritionist will meet with seven teenage mothers each week to design a complete dietary plan” is a more achievable objective than “Teenage mothers will learn about proper nutrition.”

Realistic –

Objectives should be within the scope of the project and propose reasonable programmatic steps that can be implemented within a specific time frame. For example, “Two ex-gang members will make one school presentation each week for two months to raise community awareness about the presence of gangs” is a more realistic objective than “Gang-related violence in the community will be eliminated.”

Time-bound –

Provide a time frame indicating when the objective will be measured or a time by when the objective will be met. For example, “Five new peer educators will be recruited by the second quarter of the first funding year” is a better objective than “New peer educators will be hired.”

Examples:

Non-SMART Objective	Critique	SMART Objective
<p>Teachers will be trained on the selected evidence-based substance use prevention curriculum.</p>	<p>The objective is not SMART because it is not <i>specific</i>, <i>measurable</i>, or <i>time-bound</i>. It can be made SMART by <i>specifically</i> indicating who is responsible for training the teachers, how many will be trained, who they are, and by when the trainings will be conducted.</p>	<p><i>By June 1, 2022, LEA supervisory staff</i> will have trained <i>75% of health education</i> teachers <i>in the local school district</i> on the selected, evidence-based substance use prevention curriculum.</p>
<p>90% of youth will participate in classes on assertive communication skills.</p>	<p>This objective is not SMART because it is not <i>specific</i> or <i>time-bound</i>. It can be made SMART by indicating <i>who</i> will conduct the activity, <i>by when</i>, and <i>who</i> will participate in the lessons on assertive communication skills.</p>	<p>By the <i>end of the 2022 school year, district health educators</i> will have conducted classes on assertive communication skills for 90% of youth <i>in the middle school</i> receiving the <i>substance use and HIV prevention curriculum</i>.</p>
<p>Train individuals in the community on the prevention of prescription drug/opioid overdose-related deaths.</p>	<p>This objective is not SMART as it is not <i>specific</i>, <i>measurable</i>, or <i>time-bound</i>. It can be made SMART by specifically indicating <i>who</i> is responsible for the training, <i>how many</i> people will be trained, <i>who</i> they are, and by <i>when</i> the training will be conducted.</p>	<p><i>By the end of year two of the project, the Health Department</i> will have trained <i>75% of EMS staff in the County Government</i> on the selected curriculum addressing the prevention of prescription drug/opioid overdose-related deaths.</p>

Appendix F – Developing the Plan for Data Collection and Performance Measurement

Information in this Appendix should be taken into consideration when developing a response for criteria in Section E of the Project Narrative.

Data Collection:

In describing your plan for data collection, consider addressing the following points:

- Electronic data collection software that will be used
- Frequency of data collection?
- Organizational processes that will be implemented to ensure the accurate and timely collection and input of data.
- Staff that will be responsible for collecting and recording the data.
- Data source and data collection instruments that will be used to collect the data.
- How well the data collection methods will take into consideration the language, norms, and values of the population(s) of focus.
- Processes and policies to keep data secure.
- If applicable, the data collection procedures to ensure that confidentiality is protected and that informed consent is obtained.
- If applicable, data collection procedures from partners and/or sub-recipients.

It is not necessary to provide information related to data collection and performance measurement in a table, but the following samples may give you some ideas about how to display the information.

Table 1 [provides an example of how information for the required performance measures could be displayed]

Performance Measures	Data Source	Data Collection Frequency	Responsible Staff for Data Collection	Method of Data Analysis

Table 2 [provides an example of how information could be displayed for the data that will be collected to measure the objectives that are included in B.1]

Objective	Data Source	Data Collection Frequency	Responsible Staff for Data Collection	Method of Data Analysis
Objective 1.a				
Objective 1.b				

Data Management and Performance Monitoring

Points to consider:

- Data protection policies and procedures, including information about storage, retention, and access.
- Frequency of reviews and monitoring of performance data
- Staff conducting data analysis, including evaluation.
- Data analysis methods and how you will use data to monitor and evaluate activities and processes.
- Staff responsible for completing reports.
- How data will be reported to staff, stakeholders, SAMHSA, an Advisory Board, and other relevant project partners.

How Data Will Be Used to Enhance the Project/Quality Improvement (QI):

Points to consider:

- If applicable, the QI model that will be used.
- How will the QI process be used to track progress?
- Staff responsible for overseeing QI processes.
- Details of how to implement any needed changes to project implementation and/or project management.
 - What decision-making processes will be used??
 - When and by whom will decisions be made concerning project improvement?
 - What are the thresholds for determining that changes need to be made?
 - Will the Advisory Board have a role in the QI process?
 - How will the changes be communicated to staff and/or partners/sub-recipients?

Appendix G – Biographical Sketches and Position Descriptions

Include position descriptions and biographical sketches for all project staff as supporting documentation to the application. The formatting requirements outlined in Appendix B are not applicable for these documents.

Biographical Sketch

Existing curricula vitae of project staff members may be used if they are updated and contain all items of information requested below. You may add any information items listed below to complete existing documents. For development of new curricula vitae include items below in the most suitable format:

1. Name of staff member
2. Educational background: school(s), location, dates attended, degrees earned (specify year), major field of study
3. Professional experience
4. Recent relevant publications

Position Description

1. Title of position
2. Description of duties and responsibilities
3. Qualifications for position
4. Supervisory relationships
5. Skills and knowledge required
6. Amount of travel and any other special conditions or requirements
7. Salary range
8. Hours per day or week

Appendix H – Addressing Behavioral Health Disparities

SAMHSA expects recipients to submit a Behavioral Disparity Impact Statement (DIS) within 60 days of receiving the award.

SAMHSA’s Behavioral Health Disparity Impact Statement (DIS) is a data-driven, quality improvement approach to advance equity for all, and to identify racial, ethnic, sexual and gender minority populations at highest risk for experiencing behavioral health disparities as part of their projects. The purpose of the DIS is for recipients to identify and address health disparities⁴ and to develop and implement an action plan with a disparity reduction quality improvement process to close the identified gap(s). The aim is to achieve targeted behavioral health equity⁵ for disparate populations and improve systems.

SAMHSA provides a DIS Worksheet that award recipients are expected to use to respond to this special condition of award.

The main components of the DIS are:

- Identify and describe the scope of the problem (i.e., behavioral health disparity) related to the program and the population(s) of focus that experience disparate access, use, and outcomes. Identify data sources that will be used to inform the DIS (this should be in alignment with the information provided in your application). Complete a table that includes this information at the individual/client, organizational or systemic level as it relates to the data collection requirements: NOMS, IPP, or both, in relation to access, use, and outcomes.

⁴ Healthy People 2030 defines a health disparity as a “particular type of health difference that is closely linked with social, economic, and/or environmental disadvantage. Health disparities adversely affect groups of people who have systematically experienced greater obstacles to health based on their racial or ethnic group; religion; socioeconomic status; gender; age; disability; mental health; cognitive, sensory, or physical disability; sexual orientation or gender identity; geographic location; or other characteristics historically linked to discrimination or exclusion.”

⁵ Behavioral health equity is the right to access high quality and affordable health care services and supports for all populations regardless of the individual’s race, age, ethnicity, gender (including gender identity), disability, socioeconomic status, sexual orientation, or geographical location. Advancing behavioral health equity involves ensuring that everyone has a fair and just opportunity to be as healthy as possible. In conjunction with quality services, this involves addressing social determinants of health, such as employment and housing stability, insurance status, proximity to services, and culturally responsive care – all of which have an impact on behavioral health outcomes.

- Identify Social Determinant of Health (SDOH) domain(s) that your organization will work to address and improve for the identified population(s) of focus using the NOFO. Visit [Healthy People 2030](#) for more information on the five (5) domains. Using the Behavioral Health Implementation Guide, identify Culturally and Linguistically Appropriate Services (CLAS) standards that your organization plans to meet, expand, or improve through this funding opportunity. Review the [Behavioral Health Implementation Guide](#) for full explanations of the overarching themes and 15 CLAS Standards with behavioral health related samples, strategies, and examples.
- Develop and implement a disparity reducing quality improvement action plan to address the behavioral health disparity(ies) experienced by underserved population differences based on the GPRA data on access, use, and outcomes of activities. The plan should include realistic goals and SMART objectives (see [Appendix E](#)), the activities that will be implemented to address disparities, the intended impact, timeline, measurement, and evaluation. Ensure documentation of the processes, progress, and outcomes on how the identified behavioral health disparity(ies) have improved.

Recipients are expected to provide, at a minimum, an annual update on the DIS (e.g., what worked, what did not work, what modifications were made) as part of the programmatic progress reports per the NOFO.

Examples of a DIS are available on the SAMHSA website at <http://www.samhsa.gov/grants/grants-management/disparity-impact-statement>

DIS Related Terminology and Resources

Definition of Health Disparities

Healthy People 2030 defines a health disparity as a “particular type of health difference that is closely linked with social, economic, and/or environmental disadvantage. Health disparities adversely affect groups of people who have systematically experienced greater obstacles to health based on their racial or ethnic group; religion; socioeconomic status; gender; age; disability; mental health; cognitive, sensory, or physical disability; sexual orientation or gender identity; geographic location; or other characteristics historically linked to discrimination or exclusion.”

Social Determinants of Health (SDOH)

[SDOH](#) are the conditions in the environment where people are born, live, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks. SDOH can be grouped into 5 domains:

- Economic Stability
- Education Access and Quality

- Health Care Access and Quality
- Neighborhood and Built Environment
- Social and Community Context

For more information about SDOH Z codes and how SDOH are being used to narrow the health disparities gaps, see <https://www.cms.gov/files/document/zcodes-infographic.pdf>; <https://www.cms.gov/files/document/cms-omh-january2020-zcode-data-highlightpdf.pdf>; and <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6207437/pdf/18-095.pdf>

Definition of Equity

Equity is the consistent and systematic fair, just, and impartial treatment of all individuals, including individuals who belong to underserved communities that have been denied such treatment, such as Black, Latino, Indigenous and Native American persons, Asian Americans and Pacific Islanders and other persons of color; members of religious minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality. Addressing issues of equity should include an understanding of intersectionality and how multiple forms of discrimination impact individuals' lived experiences. Individuals and communities often belong to more than one group that has been historically underserved, marginalized, or adversely affected by persistent poverty and inequality. Individuals at the nexus of multiple identities often experience unique forms of discrimination or systemic disadvantages, including in their access to needed services.

Definition of Health Equity

Health equity is the attainment of the highest level of health for all people. Achieving health equity requires valuing everyone equally with focused and ongoing societal efforts to address avoidable inequalities, historical and contemporary injustices, and the elimination of health and health care disparities. Behavioral health equity is the right to access quality health care for all populations regardless of the individual's race, ethnicity, gender, socioeconomic status, sexual orientation, or geographical location. This includes access to prevention, treatment, and recovery services for mental and substance use disorders.

Underserved populations

SAMHSA applicants are routinely asked to define the population they intend to serve given the focus of a particular program (e.g., adults with opioid use disorders at risk of overdose; adults with serious mental illness [SMI]; adolescents engaged in underage drinking; populations at risk for contracting HIV/AIDS, etc.). Within these populations of focus are *underserved populations* that may have unequal access to, use of, or outcomes from provided services. These disparities may be the result of differences in race, ethnicity, language, culture, and/or socioeconomic factors specific to that underserved population. For instance, Latino adults with opioid use disorder may be at

heightened risk for overdoses due to lack of in-language prevention campaigns and treatment; African Americans with an SMI may more likely to terminate treatment prematurely due to lack of providers with whom they can develop a therapeutic relationship; Native American youth may have an increased incidence of underage drinking due to coping patterns related to historical trauma; and African American women may be at greater risk for contracting HIV/AIDS due to lack of access to education on risky sexual behaviors in urban low-income communities, etc. While these factors might not be pervasive among the general population served by a recipient, they may be predominant among underserved populations or groups vulnerable to disparities. It is imperative that recipients understand who is being served, who is underserved, and who is not being served within their community in order to provide outreach and care that will yield positive outcomes, per the focus of the award. For organizations to attend to the potentially disparate impact of their award efforts, recipients are asked to address access, use and outcomes, disaggregated by underserved populations. Underserved populations can be defined by the following factors:

- By race
- By ethnicity
- By gender identity (including transgender populations)
- By sexual orientation (including lesbian, gay and bisexual populations)

Access refers to which populations/underserved populations are being served/reached by the program. Use refers to what interventions/services are received by the various populations. Outcomes refers to the outcome measures stipulated by the award and examined across underserved populations.

Culturally and Linguistically Appropriate Services in Health and Health Care (CLAS Standards)

The ability to address the quality of care provided to underserved populations served within SAMHSA's programs is enhanced by programmatic alignment with the federal National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care (CLAS Standards).

The CLAS Standards are comprised of 15 Standards that provide a blueprint for health and health care organizations to implement culturally and linguistically appropriate, respectful, and responsive services that will advance health equity, improve quality, and help eliminate health care disparities.

The CLAS Standards are grouped into a Principal Standard and three themes focused on

- 1) Governance and Leadership.
- 2) Communication and Language Assistance.
- 3) Engagement, Continuous Improvement and Accountability.

Widely embraced by States and health care systems, the National CLAS Standards are more recently being promoted in behavioral health care, which includes a Behavioral Health CLAS Implementation Guide at https://www.minorityhealth.hhs.gov/Assets/PDF/clas%20standards%20doc_v06.28.21.pdf. You can learn more about the CLAS mandates, guidelines, and recommendations at: <https://thinkculturalhealth.hhs.gov/clas>.

Guidelines for behavioral health implementation of the CLAS Standards can be found at <https://thinkculturalhealth.hhs.gov/clas>. This document addresses the importance of improving access to behavioral health care, promoting quality behavioral health programs and practice, and ultimately reducing persistent disparities in mental health and substance use prevention, treatment, and recovery for underserved, minority populations and communities.

Appendix I – Standard Funding Restrictions

HHS codified the *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards*, 45 CFR Part 75. In Subpart E, cost principles are described and allowable/unallowable expenditures for HHS recipients are delineated. 45 CFR Part 75 is available at <https://ecfr.federalregister.gov/current/title-45/subtitle-A/subchapter-A/part-75>. Unless superseded by program statute or regulation, follow the cost principles in 45 CFR Part 75 and the standard funding restrictions below.

Guidelines for recipients on financial management requirements are available at <https://www.samhsa.gov/grants/grants-management/policies-regulations/financial-management-requirements>.

SAMHSA funds may not be used to:

- Purchase, prescribe, or provide marijuana or treatment using marijuana. See, e.g., 45 CFR 75.300(a) (requiring HHS to ensure that Federal funding is expended in full accordance with U.S. statutory and public policy requirements); 21 U.S.C. 812(c)(10) and 841 (prohibiting the possession, manufacture, sale, purchase, or distribution of marijuana).
- Purchase, procure, or distribute pipes or cylindrical objects intended to be used to smoke or inhale illegal scheduled substances.
- Pay for promotional items including, but not limited to, clothing and commemorative items such as pens, mugs/cups, folders/folios, lanyards, and conference bags. (See 45 CFR 75.421(e)(3))
- Pay for the purchase or construction of any building or structure to house any part of the program. Minor alterations and renovations (A&R) may be authorized for up to 25% of a given budget period or \$150,000 (whichever is less) for existing facilities, if necessary and appropriate to the project. Minor A&R may not include a structural change (e.g., to the foundation, roof, floor, or exterior or loadbearing walls of a facility, or extension of an existing facility) to achieve the following: Increase the floor area; and/or, change the function and purpose of the facility. All minor A&R must be approved by SAMHSA.
- Provide inpatient treatment or hospital-based detoxification services. Residential services are not considered to be inpatient or hospital-based services.
- Pay for housing other than recovery housing which includes application fees and security deposits.
- Make direct payments to individuals to enter treatment or continue to participate in prevention or treatment services (See 42 U.S.C. § 1320a-7b).

Note: A recipient or treatment or prevention provider may provide up to \$30 non-cash incentive to individuals to participate in required data collection follow-up. This amount may be paid for participation in each required follow-up interview. For programs including contingency management as a component of the treatment program, each individual contingency must be \$15 or less in value and clients may not receive contingencies totaling more than \$75 per budget period.

- Meals are generally unallowable unless they are an integral part of a conference award or specifically stated as an allowable expense in the NOFO (See <https://www.hhs.gov/grants/contracts/contract-policies-regulations/spending-on-food/index.html>)
- Purchase firearms.
- General Provisions under Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act Public Law 117-328, Consolidated Appropriations Act, 2023, Division H, Title V, Section 526, notwithstanding any other provision of this Act, no funds appropriated in this Act shall be used to purchase sterile needles or syringes for the hypodermic injection of any illegal drug. Provided, that such limitation does not apply to the use of funds for elements of a program other than making such purchases if the relevant State or local health department, in consultation with the Centers for Disease Control and Prevention, determines that the State or local jurisdiction, as applicable, is experiencing, or is at risk for, a significant increase in hepatitis infections or an HIV outbreak due to injection drug use, and such program is operating in accordance with state and local law.
- **Salary Limitation:** The Consolidated Appropriations Act, 2023 (Public Law 117-328), Division H, Title II, Section 202, provides a salary rate limitation. The law limits the salary amount that may be awarded and charged to SAMHSA awards and cooperative agreements. Award funds may not be used to pay the salary of an individual at a rate in excess of Executive Level II, which is **\$212,100**. This amount reflects an individual's base salary exclusive of fringe and any income that an individual may be permitted to earn outside of the duties to your organization. This salary limitation does not apply to consultants but does apply to subrecipients under a SAMHSA award or cooperative agreement . Note that these or other salary limitations will apply in the following fiscal years, as required by law.

Appendix J – Intergovernmental Review (E.O. 12372) Requirements

States with SPOCs

All SAMHSA programs are covered under Executive Order (EO) 12372, as implemented through Department of Health and Human Services (DHHS) regulation at 45 CFR Part 100. Under this Order, states may design their own processes for reviewing and commenting on proposed federal assistance under covered programs. Certain jurisdictions have elected to participate in the EO process and have established State Single Points of Contact (SPOCs). Information on the SPOC for participating states can be found at: <https://www.whitehouse.gov/wp-content/uploads/2020/04/SPOC-4-13-20.pdf>

This requirement does not apply to American Indian/Alaska Native tribes or tribal organizations. If your state participates, contact your SPOC as early as possible to alert him/her to the prospective application(s) and to receive any necessary instructions on the state's review process. For proposed projects serving more than one state, you are advised to contact the SPOC of each affiliated state.

The SPOC should send any state review process recommendations to the following address within 60 days of the application deadline:

Director, Division of Grants Management
Office of Financial Resources,
ATTN: SPOC – Funding Announcement No. TI-23-023
Substance Abuse and Mental Health Services Administration,
5600 Fishers Lane, Room 17E20
Rockville, MD 20857

States without SPOCs

If your state does not have a SPOC and you are a community-based, non-governmental service provider, you must submit a Public Health System Impact Statement (PHSIS)⁶ to the head(s) of appropriate state and local health agencies in the area(s) to be affected no later than the application deadline. The PHSIS is intended to keep state and local health officials informed of proposed health services applications submitted by community-based, non-governmental organizations within their jurisdictions. If you are

⁶ Approved by OMB under control no. 0920-0428; Public reporting burden for the Public Health System Reporting Requirement is estimated to average 10 minutes per response, including the time for copying the first page of SF-424 and the abstract and preparing the letter for mailing. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0920-0428. Send comments regarding this burden to CDC Clearance Officer, 1600 Clifton Road, MS D-24, Atlanta, GA 30333, ATTN: PRA (0920-0428).

a state or local government or American Indian/Alaska Native tribe or tribal organization, you are not subject to these requirements.

The PHSIS consists of the following information:

- A copy of the first page of the application (SF-424); and
- A summary of the project, no longer than one page in length that provides: 1) a description of the population to be served; 2) a summary of the services to be provided; and 3) a description of the coordination planned with appropriate state or local health agencies.

For SAMHSA awards, the appropriate state agencies are the Single State Agencies (SSAs) for substance abuse and mental health. A listing of the SSAs for substance abuse and the SSAs for mental health can be found on SAMHSA's website at <http://www.samhsa.gov/grants/applying/forms-resources>. If the proposed project falls within the jurisdiction of more than one state, you should notify all representative SSAs.

Review Section IV of the NOFO carefully to determine if you must include an attachment with a copy of a letter transmitting the PHSIS to the SSA. The letter must notify the state that, if it wishes to comment on the proposal, its comments should be sent no later than 60 days after the application deadline to the following address:

Director of Grants Management
Office of Financial Resources,
ATTN: SSA – Funding Announcement No. TI-23-023
Substance Abuse and Mental Health Services Administration
5600 Fishers Lane, Room 17E20
Rockville, MD 20857

In addition, applicants may request that the SSA send them a copy of any state comments. The applicant must notify the SSA within 30 days of receipt of an award.

Appendix K – Administrative and National Policy

If your application is funded, you must comply with all terms and conditions of the NoA. SAMHSA's standard terms and conditions are available on the SAMHSA website.

HHS Grants Policy Statement (GPS)

If your application is funded, you are subject to the requirements of the HHS Grants Policy Statement (GPS) that are applicable based on recipient type and purpose of award. This includes any requirements in Parts I and II of the HHS GPS that apply to the award. The HHS GPS is available at <http://www.samhsa.gov/grants/grants-management/policies-regulations/hhs-grants-policy-statement>. The general terms and conditions in the HHS GPS will apply as indicated unless there are statutory, regulatory, or award-specific requirements to the contrary (as specified in the NoA).

HHS Award Regulations

If your application is funded, you agree that the award and any activities thereunder are subject to all provisions of 45 CFR part 75, currently in effect or implemented during the period of the award, other Department regulations and policies in effect at the time of the award, and applicable statutory provisions. For more information see the SAMHSA website at <http://www.samhsa.gov/grants/grants-management/policies-regulations/requirements-principles>.

Additional Terms and Conditions

Depending on the nature of the specific funding opportunity and/or your proposed project as identified during review, SAMHSA may negotiate additional terms and conditions with you prior to award. These may include, for example:

- actions required to be in compliance with confidentiality and participant protection/human subjects requirements.
- requirements relating to additional data collection and reporting.
- requirements relating to participation in a cross-site evaluation.
- requirements to address problems identified in review of the application or the budget and narrative justification.

Performance Goals and Objectives

If your application is funded, you will be held accountable for the information provided in the application relating to performance targets. SAMHSA program officials will consider your progress in meeting goals and objectives, as well as your failures and strategies for overcoming them, when making an annual recommendation to continue the award and the amount of any continuation award. In addition, you must relate financial data and accomplishments to the performance goals and objectives of the award. Failure to meet stated goals and objectives may result in suspension or termination (see [2 CFR](#)

[200.202](#), [2 CFR 200.301](#) and [2 CFR 200.329](#)) of the award, or in reduction or withholding of continuation awards.

Termination of Federal Award

Note that the OMB revisions to Guidance for Grants and Agreements termination provisions located at [2 CFR § 200.340](#) - Termination apply to all federal awards effective August 13, 2020.

Accessibility Provisions for All Award Application Packages and Funding Opportunity Announcements

Should you successfully compete for an award, recipients of federal financial assistance (FFA) from HHS will be required to complete an HHS Assurance of Compliance form (HHS 690) in which you agree, as a condition of receiving the grant, to administer your programs in compliance with federal civil rights laws that prohibit discrimination on the basis of race, color, national origin, age, sex, and disability, and agreeing to comply with federal conscience laws, where applicable. This includes ensuring that entities take meaningful steps to provide meaningful access to persons with limited English proficiency; and ensuring effective communication with persons with disabilities. Where applicable, Title XI and Section 1557 prohibit discrimination on the basis of sexual orientation, and gender identity, the HHS Office for Civil Rights provides guidance on complying with civil rights laws enforced by HHS. See <https://www.hhs.gov/civil-rights/for-providers/provider-obligations/index.html> and <https://www.hhs.gov/civil-rights/for-individuals/nondiscrimination/index.html>.

You will administer your project in compliance with federal civil rights laws that prohibit discrimination on the basis of race, color, national origin, disability, age, and comply with applicable conscience protections. You will comply with applicable laws that prohibit discrimination on the basis of sex, which includes discrimination on the basis of gender identity, sexual orientation, and pregnancy. Compliance with these laws require taking reasonable steps to provide meaningful access to persons with limited English proficiency and providing programs that are accessible to and usable by persons with disabilities. The HHS Office for Civil Rights provides guidance on complying with civil rights laws enforced by HHS. See <https://www.hhs.gov/civil-rights/for-providers/provider-obligations/index.html> and <https://www.hhs.gov/civil-rights/for-individuals/nondiscrimination/index.html>.

- For guidance on meeting your legal obligation to take reasonable steps to ensure meaningful access to your programs or activities by limited English proficient individuals, see <https://www.hhs.gov/civil-rights/for-individuals/special-topics/limited-english-proficiency/fact-sheet-guidance/index.html> and <https://www.lep.gov>.
- For information on your specific legal obligations for serving qualified individuals with disabilities, including providing program access, reasonable

- modifications, and to provide effective communication, see <https://www.hhs.gov/ocr/civilrights/understanding/disability/index.html>
- HHS funded health and education programs must be administered in an environment free of sexual harassment, see <https://www.hhs.gov/civil-rights/for-individuals/sex-discrimination/index.html>.
 - For guidance on administering your project in compliance with applicable federal religious nondiscrimination laws and applicable federal conscience protection and associated antidiscrimination laws, see <https://www.hhs.gov/conscience/conscience-protections/index.html> and <https://www.hhs.gov/conscience/religious-freedom/index.html>.

Acknowledgement of Federal Funding

As required by HHS appropriations acts, all HHS recipients must acknowledge Federal funding when issuing statements, press releases, publications, requests for proposal, bid solicitations, and other documents, such as tool-kits, resource guides, websites, and presentations describing the projects or programs funded in whole or in part with HHS federal funds. The recipient must clearly state: 1) the percentage and dollar amount of the total costs of the program or project funded with federal money; and 2) the percentage and dollar amount of the total costs of the project or program funded by non-governmental sources.

Supplement Not Supplant

Funds may be used to supplement existing activities. Award funds may not be used to supplant current funding of existing activities. “Supplant” is defined as replacing funding of a recipient’s existing program with funds from a federal award (2 CFR Part 200, Appendix XI).

Mandatory Disclosures

A term may be added to the NoA which states: Consistent with 45 CFR 75.113, applicants and recipients must disclose in a timely manner, in writing to the HHS awarding agency, all information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Sub-recipients must disclose, in a timely manner, in writing to the prime recipient (pass through entity), all information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Disclosures must be sent in writing to SAMHSA at the following address:

SAMHSA
Attention: Office of Financial Advisory Services
5600 Fishers Lane
Rockville, MD 20857

You may also submit a complaint via the [OIG Hotline online form](https://oig.hhs.gov/fraud/report-fraud/) (see <https://oig.hhs.gov/fraud/report-fraud/>), by phone (1-800-447-8477), or by mail to the following address:

U.S. Dept. of Health and Human Services
Office of the Inspector General
ATTN: OIG Hotline Operations
P.O. Box 23489
Washington, DC 20026

Failure to make required disclosures can result in any of the remedies described in 45 CFR 75.371 Remedies for noncompliance; including suspension or debarment (See 2 CFR parts 180 & 376 and 31 U.S.C. 3321).”

System for Award Management (SAM) Reporting

A term may be added to the NoA that states: “In accordance with the regulatory requirements provided at 45 CFR 75.113, 2 CFR 25, and Appendix XII to 45 CFR Part 75, recipients that have currently active federal awards and procurement contracts with cumulative total value greater than \$10,000,000, must report and maintain information in the System for Award Management (SAM) about civil, criminal, and administrative proceedings in connection with the award or performance of a federal award that reached final disposition within the most recent five-year period. The recipient also must make semiannual disclosures regarding such proceedings. Proceedings information will be made publicly available in the designated integrity and performance system [currently Responsibility/Qualification in SAM.gov (R/Q)]. Full reporting requirements and procedures are found in Appendix XII to 45 CFR Part 75.”

Drug-Free Workplace

A term may be added to the NoA that states: “You as the recipient must comply with drug-free workplace requirements in Subpart B of part 382, which adopts the Government-wide implementation (2 CFR part 182) of section 5152-5158 of the Drug-Free Workplace Act of 1988 (Pub. L. 100-690, Title V, Subtitle D; 41 U.S.C. 701-707).”

Smoke-Free Workplace

The Public Health Service strongly encourages all award recipients to provide a smoke-free workplace and to promote the non-use of all tobacco products. Further, 20 USC 6081 et seq., the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care or early childhood development services are provided to children.

Standards for Financial Management

Recipients and subrecipients are required to meet the standards and requirements for financial management systems set forth in 45 CFR part 75 Subpart D. The financial

systems must enable the recipient and subrecipient to maintain records that adequately identify the sources of funds for federally assisted activities and the purposes for which the award was used, including authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and any program income. The system must also enable the recipient and subrecipient to compare actual expenditures or outlays with the approved budget for the award. SAMHSA funds must retain their award/subaward-specific identity and may not be commingled with non-federal funds or other federal funds. “Commingling funds” typically means depositing or recording funds in a general account without the ability to identify each specific source of funds with related expenditures. Common mistakes related to comingling are outlined below:

- **Commingling of Cost Centers:** Every business activity constitutes a cost center. Examples of cost centers include: a federal award, a state award, a private award, matching costs for a specific award, a self-funded project, fundraising activities, membership activities, lines of business, unallowable costs, indirect costs, etc. Recipients and subrecipients must establish a unique account(s) in the accounting system to capture and accumulate expenditures of each cost center, apart from other cost centers.
- **Commingling of Cost Categories:** Recipients and subrecipients must avoid budget fluctuations that violate programmatic restrictions. They must also avoid applying indirect cost rates to prohibited cost categories, such as equipment, participant support costs and subcontracts/subawards in excess of \$25,000. As a result, recipients must establish unique object codes in the accounting system to capture and 59 accumulate costs by budget category (i.e., salaries, fringe benefits, consultants, travel, participant support costs, subcontracts, etc.).
- **Commingling of Time Worked and Not Worked:** Recipients and subrecipients may not directly charge an award for employees’ time not spent working on the award. Therefore, Paid Time Off (PTO), such as vacation, holiday, sick and other paid leave, is not recoverable directly from awards, but rather must be allocated to all awards, projects, and cost centers over an entire cost accounting period through either an indirect cost or fringe benefit rate.
- **Unsupported Labor Costs:** To support charges for direct and indirect salaries and wages, recipients and subrecipients maintaining hourly timesheets must ensure that timesheets encompass all hours worked and not worked on a daily basis. The timesheet should identify the: (a) award, project or cost center being worked on; (b) number of hours worked on each; (c) description of work performed; and (d) Paid Time Off (PTO) hours. The total hours recorded each day should coincide with an individual’s employment status in accordance with established policy (i.e., fulltime employees work 8 hours each day, etc.).
- **Inconsistent Treatment of Costs:** Recipients and subrecipients must treat costs consistently across all federal and non-federal awards, projects, and cost centers. For example, recipients and subrecipients may not direct-charge federal awards for costs typically considered indirect in nature, unless done consistently. Examples of indirect costs include administrative salaries, office rent, accounting fees, utilities, etc. Additionally, in most cases, the cost to develop an accounting

system adequate to justify direct charging of the aforementioned items outweighs the benefits. As a result, use of an indirect cost rate is the most effective mechanism to recover these costs and not violate federal financial requirements of consistency, allocability and allowability. If typical indirect cost categories are included in the budget as direct costs, it is SAMHSA's understanding that the recipient or subrecipient has developed a cost accounting system that can withstand audit scrutiny and therefore the system must be adequate to justify the direct charges and to avoid an unfair allocation of these costs to the federal government. All costs are subject to subsequent agency review and/or audit scrutiny in accordance with awards' terms and conditions.

Trafficking in Persons

Awards issued by SAMHSA are subject to the requirements of [2 CFR part 175](#) and [22 USC 7104\(g\)](#). For the full text of the award term, go to <http://www.samhsa.gov/grants/grants-management/notice-award-noa/standard-terms-conditions>.

NOTE: The signature of the AOR on the application serves as the required certification of compliance for your organization regarding the administrative and national policy requirements.

Publications

Recipients are required to notify the Government Project Officer (GPO) of any materials based on the SAMHSA-funded project that are accepted for publication. In addition, SAMHSA requests that recipients:

- Provide the GPO with advance copies of publications.
- Include acknowledgment of the SAMHSA program as the source of funding for the project.
- Include a disclaimer stating that the views and opinions contained in the publication do not necessarily reflect those of SAMHSA or the U.S. Department of Health and Human Services and should not be construed as such.

SAMHSA reserves the right to issue a press release about any publication deemed by SAMHSA to contain information of program or policy significance to the substance use treatment/substance use prevention/mental health services community.

Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment

As described in [2 CFR 200.216](#), recipients and subrecipients are prohibited to obligate or spend award funds (to include direct and indirect expenditures as well as cost share and program) to:

- (1) Procure or obtain,

- (2) Extend or renew a contract to procure or obtain; or
- (3) Enter into contract (or extend or renew contract) to procure or obtain equipment, services, or systems that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Pub. L. 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).
 - i. For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).
 - ii. Telecommunications or video surveillance services provided by such entities or using such equipment.
 - iii. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise, connected to the government of a covered foreign country.

Appendix L – Budget and Justification

All applications must have a detailed budget justification and narrative that explains the federal and the non-federal expenditures broken out by the object class cost categories listed on SF-424A – Section B (Budget Category) for non-construction awards.

- The detailed budget must match the costs identified on the SF-424A and the total costs on the SF-424.
- The Budget Narrative and justification must be consistent with and support the Project Narrative.
- The Budget Narrative and justification must be concrete and specific. It must provide a justification for the basis of each proposed cost in the budget and how that cost was calculated. Examples to consider when justifying the basis of your estimates can be ongoing activities, market rates, quotations received from vendors, or historical records. The proposed costs must be reasonable, allowable, allocable, and necessary for the supported activity.
- NOFOs invite applications for periods of performance of one to up to five years. Generally, awards, on a competitive basis, will be for a one-year budget period but the period of performance may be up to five years. Submission and SAMHSA approval of the progress report(s) and any other required submission or reports is the basis for the budget period renewal and release of subsequent year funds. Funding beyond the one-year budget period but within the multi-year period of performance is subject to availability of funds and satisfactory progress of the recipient. Progress will be evaluated by submission of data on required performance measures, satisfactory achievement of identified goals and objectives, providing services to the projected number of individuals specified in the application, and satisfactory resolution of barriers and challenges that arise in the implementation of the project.
- Refer to the program specific Funding Restrictions/Limitations and the Standard Funding Restrictions in the NOFO, as well as to 45 CFR Part 75 (<https://www.ecfr.gov/cgi-bin/text-idx?node=pt45.1.75>), for applicable administrative requirements and cost principles.

SAMHSA Budget Template

To expedite review of your application, it is highly recommended you use the following PDF budget template to complete the Detailed Budget and Narrative Justification for submission with your application:

- The budget template can be found on the [SAMHSA Forms and Resources webpage](#) – scroll down to “**SAMHSA Budget Template**” section. You **must**

download the budget template PDF to your computer first before opening it directly in Adobe Acrobat or Acrobat Reader (not your internet browser):

1. Right-click the link "**SAMHSA Budget Template (PDF)**"
2. Select "save link as" and save to a location on your computer
3. Go to the saved location and open the "SAMHSA Budget Template (PDF)" using Adobe Acrobat or Acrobat Reader.

Guidance

The following documents provide guidance on using the budget template:

- [Key Features of the Budget Template](#)
- [Budget Template Users Guide](#)
- [Budget Review Checklist](#) – use this checklist to review your detailed budget and narrative justification before submission to SAMHSA.

Note: For SAMHSA to view all of your budget data, you must convert the PDF to a non-editable format by **PRINTING TO PDF** before submission.

Completing the SF-424A (see Section IV)

Budget Cost Categories

Personnel Costs: Explain personnel costs by listing each staff member who will be working directly on the award by name (if possible), position title, percentage level of effort or proposed hours and annual salary. Award funds may not be used to pay the salary of an individual at a rate in excess of Executive Level II or **\$212,100**. An individual's base salary, per se, is NOT constrained by the statutory provision for a limitation of salary. The rate limitation simply limits the amount that may be awarded and charged to SAMHSA awards and cooperative agreements. The salary limitation does not apply to consultants but does apply to all subawards and subcontracts.

Note: If an organization is selected for an award and chooses to move forward with hiring an individual for a Key Personnel position before receiving SAMHSA's formal approval, this will be done at the organization's own risk. If SAMHSA's review of the Key Personnel request results in the proposed individual not being approved or deemed not qualified for the position, the expectation is that the organization must submit a qualified candidate to be placed in the Key Personnel position. SAMHSA will not be liable for any costs incurred or pay for salaries of a Key Personnel that is not approved or deemed not qualified for the program.

Fringe Benefits: Fringe benefits typically include items, such as health insurance, taxes, unemployment insurance, life insurance, retirement plans, tuition reimbursement and

paid absences. Fringe benefits are recoverable in accordance with an organization's federally approved indirect cost rate agreement, if applicable, or the organization's accounting practices, provided those practices are consistent with federal cost principles and result in a fair and equitable allocation of fringe benefits.

Travel: List travel costs according to local and long-distance travel. For local travel, outline the mileage rate, number of miles, reason for travel and staff member/consumers completing the travel. The budget should also reflect the travel expenses (e.g., airfare, lodging, parking, per diem, etc.) for each person and trip associated with participating in meetings and other proposed trainings or workshops. Name the traveler(s) if possible, describe the purpose of the travel, provide number of trips involved, the destinations, and the number of individuals for whom funds are requested.

Equipment: List equipment costs and provide justification for the need of the equipment to carry out the program's goals. Extensive justification and a detailed status of current equipment must be provided when requesting funds for the purchase of items that meet the definition of equipment (a unit cost of \$5,000 or more and a useful life of one or more years). For example, large items of medical equipment.

Supplies: Include the programmatic items necessary to implement the proposed project (e.g., examination gloves, etc.). Conversely, general office supplies (e.g., paper, pencils, etc.) should be recovered through a federally-approved indirect cost rate or de minimis rate.

Per 45 CFR § 75.321, property will be classified as supplies if the acquisition cost is under \$5,000. Note that items such as laptops, tablets, and desktop computers are classified as a supply if the value is under the \$5,000 equipment threshold.

Vendor Contracts/Subawards & Subcontracts/Consortiums/Consultants: Provide a clear explanation as to the purpose, the basis for how costs were estimated, and the specific deliverables. You are responsible for ensuring that your organization has adequate procurement and merit review systems with fully developed written procedures for awarding and monitoring vendor contracts and subawards/subcontracts, respectively. Recipients must notify potential subrecipients to register in SAM and provide the recipient with their UEI number (see 2 CFR part 25). For consultant services, list the total costs for all consultant services. In the budget narrative, identify each consultant, the services he/she will perform, total number of days, travel costs, and total estimated costs.

Note: To assist with classifying costs and relationships, note that vendor contracts are for the purpose of obtaining goods and services (i.e., examination gloves provided by a medical supply company). Conversely, subawards/subcontracts are for the purpose of carrying out a portion of a federal award (i.e., a health care clinic providing substance use treatment services directly to patients). Your organization must ensure proper classification of costs and relationships. For subrecipient relationships, your

organization must ensure written subaward/subcontract agreements are in place. These written agreements must require that subrecipients comply with the same terms and conditions as the prime recipient, as applicable (i.e., financial management requirements, audit requirements, etc.) In other words, the requirements imposed on the prime recipient must “flow down” to subrecipients. Written agreements should also describe the scope of work, deliverables, etc.

Other: Include all costs that do not fit into any other category and provide an explanation of each cost in this category (e.g., provider licenses, dedicated space rental, etc.).

Indirect Costs: Indirect costs are those costs incurred for common or joint objectives which cannot be readily and specifically identified with a particular project or program but are necessary to the operations of the organization, e.g., the cost of operating and maintaining facilities, depreciation, and administrative salaries. For some institutions, the term “facilities and administration” (F&A) is used to denote indirect costs.

Applicants may request full indirect costs, subject to statutory and regulatory limitations.

Applicants may request full indirect costs, subject to statutory and regulatory limitations, and submission of an approved Negotiated Indirect Cost Rate Agreement (NICRA) established by the cognizant Federal agency (typically the agency that provides the most funds). If indirect costs are claimed, a copy of the NICRA must be submitted with the application. If unable to obtain a NICRA from the cognizant agency at the time of application, the applicant may elect to recover indirect costs using a de minimis rate as explained below. Otherwise, the applicant may only be reimbursed for allowable direct costs. Violation of cost accounting principles is not permitted when re-budgeting or charging costs to awards. Rather, costs must be consistently charged as either indirect or direct costs.

Applicants may elect a 10% de minimis indirect cost rate, subject to statutory and regulatory limitations.

Applicants who cannot obtain a NICRA from their cognizant Federal agency at the time of application may elect a 10% de minimis rate, subject to statutory and regulatory limitations.

The 10% *de minimis* rate may be used indefinitely and should be applied to Modified Total Direct Costs (MTDC). MTDC means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward (regardless of the period of performance of the subawards under the award.) MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs and the portion of each subaward in excess of \$25,000. Violation of cost accounting principles is not permitted when charging costs to awards. Rather, costs must be consistently charged as either direct or indirect costs. Additionally, once elected, the 10% *de minimis* rate must be applied to all existing awards. If the cognizant agency

issues a NICRA subsequent to the award, the negotiated rate may *not* be retroactively applied.

Waived Indirect Costs – An applicant may elect *not* to request recovery of indirect costs. If so, the applicant should write *None Requested* in the same space allotted for Item J of the budget sheet.
