DESCRIPTION:

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS) is accepting applications for the fiscal year (FY) 2024 Promoting the Integration of Primary and Behavioral Health Care: Collaborative Care Model. The purpose of this program is to support implementation of the Collaborative Care Model (CoCM). The CoCM is an evidence-based, integrated care approach that addresses mental and substance use conditions in primary care settings. Care is provided by a primary care team and includes a case manager, consulting psychiatrist, and other mental health professionals. Recipients will be expected to work with at least three primary care practices to develop the staffing and systems necessary to implement the CoCM. With this program, SAMHSA aims to increase the identification and treatment of mental health conditions for individuals who access care through primary care practices that too often go untreated and cause disability.
