DESCRIPTION: The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Mental Health Services (CMHS), is accepting applications for the fiscal year (FY) 2023 Promoting the Integration of Primary and Behavioral Health Care (Short Title: PIPBHC) program. The purpose of this program is to (1) promote full integration and collaboration in clinical practice between behavioral healthcare and primary physical healthcare, including for special populations; (2) support the improvement of integrated care models for behavioral healthcare and primary/physical healthcare to improve the overall wellness and physical health status of adults with a serious mental illness (SMI); adults who have co-occurring mental illness and physical health conditions or chronic disease; children and adolescents with a serious emotional disturbance (SED) who have a co-occurring physical health conditions or chronic disease; individuals with a substance use disorder (SUD); or individuals with co-occurring mental and substance use disorder (COD); and (3) promote the implementation and improvement of bidirectional integrated care services, including evidence-based or evidence-informed screening, assessment, diagnosis, prevention, treatment, and recovery services for mental and substance use disorders, and co-occurring physical health conditions and chronic diseases. With this program, SAMHSA aims to improve the health outcomes for persons with behavioral health conditions by supporting the adoption and improvement of integrated care models for behavioral and primary physical health, advancing bi-directional care integration of health care services across systems, and improving the integration of primary and physical health care within specialty behavioral health settings.
