Funding Opportunity Announcement (FOA) No. TI-17-009

Catalogue of Federal Domestic Assistance (CFDA) No.: 93.243

PART 1: Programmatic Guidance

Note to Applicants: This document MUST be used in conjunction with SAMHSA’s “Funding Opportunity Announcement (FOA) PART II: Administrative and Application Submission Requirements for Discretionary Grants and Cooperative Agreements.” PART I is individually tailored for each FOA. PART II includes requirements that are common to all SAMHSA FOAs. You MUST use both documents in preparing your application.

EXECUTIVE SUMMARY

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment (CSAT), is accepting applications for fiscal year (FY) 2017 Grants for the Benefit of Homeless Individuals (Short Title: GBHI). The purpose of this program is to support the development and/or expansion of local implementation of a community infrastructure that integrates behavioral health treatment and services for substance use disorders (SUD) and co-occurring mental and substance use disorders (COD), permanent housing, and other critical services for individuals (including youth) and families experiencing homelessness.

Be sure to check the SAMHSA website periodically for any updates on this program.

**IMPORTANT:** SAMHSA is transitioning to the National Institutes of Health (NIH)’s electronic Research Administration (eRA) grants system. Due to this transition, SAMHSA has made changes to the application registration, submission, and formatting requirements for all Funding Opportunity Announcements (FOAs). All applicants must register with NIH’s eRA Commons in order to submit an application. Applicants also must register with the System for Award Management (SAM) and Grants.gov (see PART II: Section I-1 and Section II-1 for all registration requirements).

Due to the new registration and application requirements, it is strongly recommended that applicants start the registration process **six (6) weeks in advance** of the application due date.

## 1. PURPOSE

The Substance Abuse and Mental Health Services Administration (SAMHSA), Center for Substance Abuse Treatment (CSAT) is accepting applications for fiscal year (FY) 2017 Grants for the Benefit of Homeless Individuals (Short Title: GBHI). The purpose of this program is to support the development and/or expansion of local implementation of a community infrastructures that integrates behavioral health treatment and services for substance use disorders (SUD) and co-occurring mental and substance use disorders (COD), permanent housing, and other critical services for individuals (including youth) and families experiencing homelessness.

SAMHSA funds will support three primary types of activities: 1) behavioral health and other recovery-oriented services; 2) coordination of housing and services that support the implementation and/or enhance the long-term sustainability of integrated community systems that provide permanent housing and supportive services to the target population; and 3) efforts to engage and connect clients who experience SUDs or CODs to enrollment resources for health insurance, Medicaid, and mainstream benefits programs (e.g. Supplemental Security Income (SSI)/Social Security Disability Insurance (SSDI), Temporary Assistance for Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), etc.).

The GBHI Program is one of SAMHSA’s services grant programs. SAMHSA intends that its services grants result in the delivery of services as soon as possible after award. Service delivery should begin by the fourth month of the project at the latest. This four month start up is provided as a standard because of SAMHSA’s need to collect and report performance data for the first year of the program.

The GBHI grants are authorized under Section 506 of the Public Health Service Act, as amended. This announcement addresses Healthy People 2020 Mental Health and Mental Disorders Topic Area HP 2020-MHMD and/or Substance Abuse Topic Area HP 2020-SA.
Definitions

“Permanent housing” means community-based housing without a designated length of stay (e.g., no limit on the length of stay). The phrase “permanent housing that supports recovery” refers to housing that is considered permanent (rather than temporary or short-term) and offers tenants a range of supportive services aimed at promoting recovery from mental and/or substance use disorders. There should not be any arbitrary limits for the length of stay for the tenant as long as the tenant complies with the lease requirements (consistent with the local landlord-tenant law).

“Homeless” as characterized under the Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act of 2009, and defined by the December 5, 2011, Final Rule Defining Homeless (76 FR 75994), establishes four categories of homelessness. These categories are: (1) Individuals and families who lack a fixed, regular, and adequate nighttime residence and includes a subset for an individual who is exiting an institution where he or she resided for 90 days or less and who resided in an emergency shelter or a place not meant for human habitation immediately before entering that institution; (2) Individuals and families who will imminently lose their primary nighttime residence; (3) Unaccompanied youth and families with children and youth who are defined as homeless under other federal statutes who do not otherwise qualify as homeless under this definition; or (4) Individuals and families who are fleeing, or are attempting to flee, domestic violence, dating violence, sexual assault, stalking, or other dangerous or life-threatening conditions that relate to violence against the individual or a family member.

In addition, for the purposes of this FOA, the term “Homeless” also includes “doubled-up” – a residential status that places individuals at imminent risk for becoming homeless – defined as sharing another person’s dwelling on a temporary basis where continued tenancy is contingent upon the hospitality of the primary leaseholder or owner and can be rescinded at any time without notice.

2. EXPECTATIONS

SAMHSA expects grantees to develop and implement an array of integrated services and supports designed to reduce homelessness among individuals (including youth) who experience homelessness and have SUDs or CODs, and/or families who experience homelessness with one or more family members that have an SUD or COD. This service array may involve collaboration across multiple organizations. Services may be provided by the grantee, purchased through contract(s) with other providers, or made available through memoranda of understanding or agreement (MOUs/MOAs) with other providers. SAMHSA seeks to increase the number of program-enrolled individuals placed in permanent housing that supports recovery through comprehensive treatment and recovery-oriented services for behavioral health.

Grantees must screen and assess clients for the presence of CODs, and use the information obtained from the screening and assessment to develop appropriate treatment approaches for the persons identified as having such co-occurring disorders.
Grantees will be required to report aggregate diagnostic information utilizing the Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition (DSM-5) in semi-annual reports.

Grantees must utilize a steering committee to meet and monitor the goals outlined in the program. Membership will be comprised of, at a minimum: local or regional representatives from substance abuse and mental health authorities; Medicaid Agency; health department; public housing authorities; service providers; individuals (including youth) and/or families who are currently experiencing homelessness or have experienced homelessness and are recovering from SUDs or CODs; the Cooperative Agreements to Benefit Homeless Individuals (CABHI)-States grantee (if applicable in the state); and the SAMHSA government project officer (GPO). Additional membership based on the goals, objectives, or specific population of focus is encouraged (e.g., criminal justice, veterans’ affairs).

Grantees are expected to link all enrolled individuals and/or families to permanent housing. However, at minimum grantees are required to utilize the U.S. Department of Housing and Urban Development (HUD) Coordinated Entry Process, https://www.hudexchange.info/resource/4427/coordinated-entry-policy-brief/.

The key staff for this program will be the Project Director and the Evaluator.

**SAMHSA grant funds may not be used to pay for housing.**

**Required Activities:**

You must use SAMHSA’s services grant funds primarily to support direct services. This includes the following activities:

- Providing outreach and other engagement strategies to increase participation in, and access to, treatment for the population(s) of focus. If you are proposing to provide only outreach and other strategies to increase access, you must show that there are treatment services available and your organization has the ability to connect individuals with those services;

- Providing direct treatment (including screening, assessment, and care management) for the population(s) of focus. Treatment must be provided in outpatient, day treatment (including outreach-based services), intensive outpatient, or short-term residential programs *(90 days or less in duration and at a cost not to exceed 6.5 percent of the total grant funds)*;

- Providing case management or other strategies to link with and retain clients in permanent housing and other necessary services, including but not limited to primary care services, and to coordinate these services with other services provided to the client;
• Engaging and enrolling the population(s) of focus or connecting the population(s) of focus to enrollment resources for Medicaid and other benefits programs (e.g. SSI/SSDI, TANF, SNAP, etc.); and

• Providing "wrap-around"/recovery support services (e.g., child care, vocational, educational, and transportation services) designed to improve access and retention in services. [Note: Grant funds may be used to purchase such services from another provider.]

Allowable Activities:

• Education, screening, and counseling for hepatitis and other sexually transmitted infections;

• Active steps to reduce HIV/AIDS risk behaviors by their clients. Active steps include client screening and assessment, and either direct provision of appropriate services or referral to and close coordination with other providers of appropriate services. For information on homelessness and HIV, and on other HIV/AIDS topics relevant to this program, see the Health Resources and Services Administration Web page: http://hab.hrsa.gov;

• Trauma-informed services, including assessment and interventions for emotional, sexual, and physical abuse;

• Use of an integrated primary/substance use disorder/mental health care approach in developing the service delivery plan. This approach involves screening for health issues and delivery of client-centered substance abuse and mental health services in collaboration and consultation with medical care providers. The National Council for Community Behavioral Healthcare Web site describes what integrated primary care is like in practice by linking with descriptions of and resources from existing programs. For more information, visit http://www.thenationalcouncil.org/. The following Web sites, http://www.centerforintegratedhealthsolutions.org and https://www.samhsa.gov/health-care-health-systems-integration, describe integrated primary care by linking applicants with existing programs. Special attention is paid to low-income and underserved populations;

• Training in evidence-based practices (EBP) for service providers, such as motivational interviewing or critical time intervention (See Appendix A for additional information about using EBPs); and

• Limited in-reach services, such as, outreach and screening to identify incarcerated individuals who may experience homelessness upon release from a jail or detention facility; and to provide those identified with a post-release housing and behavioral health services plan.
Other Expectations:

If your application is funded, you will be expected to develop a behavioral health disparities impact statement no later than 60 days after your award. (See PART II: Appendix E, Addressing Behavioral Health Disparities).

Although people with behavioral health conditions represent about 25 percent of the U.S. adult population, these individuals account for nearly 40 percent\(^1\) of all cigarettes smoked and can experience serious health consequences\(^2\). A growing body of research shows that quitting smoking can improve mental health and addiction recovery outcomes. Research shows that many smokers with behavioral health conditions want to quit, can quit, and benefit from proven smoking cessation treatments. SAMHSA strongly encourages all grantees to adopt a tobacco-free facility/grounds policy and to promote abstinence from all tobacco products (except in regard to accepted tribal traditions and practices).

Grantees must utilize third party and other revenue realized from provision of services to the extent possible and use SAMHSA grant funds only for services to individuals who are not covered by public or commercial health insurance programs, individuals for whom coverage has been formally determined to be unaffordable, or for services that are not sufficiently covered by an individual’s health insurance plan. Grantees should also consider other systems from which a potential service recipient may be eligible for services (for example, the Veterans Health Administration or senior services), if appropriate for and desired by that individual to meet his/her needs. In addition, grantees are required to implement policies and procedures that ensure other sources of funding are utilized first when available for that individual.

Recovery from mental and/or substance use disorders has been identified as a primary goal for behavioral health care. SAMHSA’s Recovery Support Strategic Initiative is leading efforts to advance the understanding of recovery and ensure that vital recovery supports and services are available and accessible to all who need and want them. Building on research, practice, and the lived experiences of individuals in recovery from mental and/or substance use disorders, SAMHSA has developed the following working definition of recovery: a process of change through which individuals improve their health and wellness, live a self-directed life, and strive to reach their full potential. See

SAMHSA’s standard, unified working definition of recovery is intended to advance recovery opportunities for all Americans, particularly in the context of health reform, and to help clarify these concepts for peers/persons in recovery, families, funders, providers, and others. The definition is to be used to assist in the planning, delivery, financing, and evaluation of behavioral health services. SAMHSA grantees are expected to integrate the definition and principles of recovery into their programs to the greatest extent possible.

SAMHSA encourages all grantees to address the behavioral health needs of returning veterans and their families in designing and developing their programs and to consider prioritizing this population for services, where appropriate. SAMHSA will encourage its grantees to utilize and provide technical assistance regarding locally customized web portals that assist veterans and their families with finding behavioral health treatment and support.

2.1 Using Evidence-Based Practices

SAMHSA’s services grants are intended to fund services or practices that have a demonstrated evidence base and that are appropriate for the population(s) of focus. An EBP refers to approaches to prevention or treatment that are validated by some form of documented research evidence. However, SAMHSA recognizes that EBPs have not been developed for all populations and/or service settings. See Appendix A of this document for additional information about using EBPs. In Section C of your project narrative, you will need to:

- Identify the EBP(s) you propose to implement for the specific population(s) of focus. If an EBP does not exist/apply for your program/population(s) of focus, describe the service/practice you plan to implement as an appropriate alternative.

- If you are proposing to use more than one EBP, provide a justification for doing so and clearly identify which service modality and population of focus each practice will support.

- Discuss the population(s) for which the practice(s) has (have) been shown to be effective and show that it (they) is (are) appropriate for your population(s) of focus. Indicate whether/how the practice(s) will be adapted for a specific population. SAMHSA encourages you to consult with an expert or the program developer to complete any modifications to the chosen EBP. This is especially important when adapting EBPs for specific underserved populations for whom there are fewer EBPs.
Discuss training needs or plans for training to successfully implement the proposed EBP(s). Explain how you will monitor the delivery of the EBPs to ensure that they are implemented according to the EBP guidelines.

In selecting an EBP, be mindful of how your choice of an EBP or practice may impact disparities in service access, use, and outcomes for your population(s) of focus. While this is important in providing services to all populations, it is especially critical for those working with underserved and minority populations.

[Note: See PART II: Appendix C – Standard Funding Restrictions, regarding allowable costs for EBPs.]

2.2 Data Collection and Performance Measurement

All SAMHSA grantees are required to collect and report certain data so that SAMHSA can meet its obligations under the Government Performance and Results (GPRA) Modernization Act of 2010. You must document your ability to collect and report the required data in Section E: Data Collection and Performance Measurement of your application. Grantees will be required to report performance on the following performance measures: abstinence from use, housing status, employment status, criminal justice system involvement, access to services, retention in services, and social connectedness. This information will be gathered using a uniform data collection tool provided by SAMHSA. Grantees will be required to submit data via SAMHSA’s Performance Accountability and Reporting System (SPARS); access will be provided upon award. An example of the type of data collection tool required can be found at http://www.samhsa.gov/grants/gpra-measurement-tools/csat-gpra/csat-gpra-discretionary-services. Data will be collected via a face-to-face interview using this tool at three data collection points: at intake to services, at six months post intake, and at discharge. Grantees will be expected to do a GPRA interview on all clients in their specified unduplicated target number and are also expected to achieve a six-month follow-up rate of 80 percent. All data must be submitted through the specified online data submission tool within seven days of data collection or as specified after award. Grantees and sub-awardees will be provided extensive training on the system and its requirements post award. The collection of these data will enable SAMHSA to report on key outcome measures relating to the grant program. In addition to these outcomes, data collected by grantees will be used to demonstrate how SAMHSA’s grant programs are reducing disparities in access, service use, and outcomes nationwide.

In addition to these measures, grantees will be expected to report biannually on their progress and performance on achieving the goals and objectives of the grant project resulting from the three primary grant activities (see Section I-1 Purpose).

Performance data will be reported to the public, the Office of Management and Budget (OMB) and Congress as part of SAMHSA’s budget request.
2.3 Local Performance Assessment

Grantees must periodically review the performance data they report to SAMHSA (as required above), assess their progress, and use this information to improve management of their grant projects. The assessment should be designed to help you determine whether you are achieving the goals, objectives, and outcomes you intend to achieve and whether adjustments need to be made to your project. Performance assessments also should be used to determine whether your project is having/will have the intended impact on behavioral health disparities. You will be required to report on your progress achieved, barriers encountered, and efforts to overcome these barriers in a performance assessment report to be submitted at least annually. The assigned SAMHSA GPO and Grants Management Specialist will review the performance assessment report and provide feedback on the extent to which progress is consistent with stated goals of the application and requirements of this FOA. At a minimum, your performance assessment should include the required performance measures identified above. You may also consider outcome and process questions, such as the following:

**Outcome Questions:**
- What was the effect of the intervention on key outcome goals?
- What program/contextual/cultural/linguistic factors were associated with outcomes?
- What individual factors were associated with outcomes, including race/ethnicity/sexual orientation/gender identity?
- How durable were the effects?

As appropriate, describe how the data, including outcome data, will be analyzed by racial/ethnic group or other demographic factors to ensure that appropriate populations are being served and that disparities in services and outcomes are minimized.

**Process Questions:**
- How closely did implementation match the plan?
- What types of changes were made to the originally proposed plan?
- What types of changes were made to address disparities in access, service use, and outcomes across subpopulations, including the use of the National Standards for Culturally and Linguistically Appropriate Services (CLAS) in Health and Health Care?
- What led to the changes in the original plan?
- What effect did the changes have on the planned intervention and performance assessment?
• Who provided (program staff) what services (modality, type, intensity, duration), to whom (individual characteristics), in what context (system, community), and at what cost (facilities, personnel, dollars)?

• What strategies were used to maintain fidelity to the EBP or intervention across providers over time?

No more than 20 percent of the total grant award may be used for data collection, performance measurement, and performance assessment, e.g., activities required in Sections I-2.2 and 2.3 above.

2.4 Infrastructure Development (maximum 15 percent of total grant award)

Although services grant funds must be used primarily for direct services, SAMHSA recognizes that infrastructure changes may be needed to implement the services or improve their effectiveness. You may use no more than 15 percent of the total services grant award for the following types of infrastructure development, if necessary to support the direct service expansion of the grant project, and describe your use of grant funds for these activities in Section B of the Project Narrative.

Following are examples of infrastructure activities:

• Developing partnerships with other service providers for service delivery.

• Adopting and/or enhancing your computer system, management information system (MIS), electronic health records (EHRs), etc., to document and manage client needs, care process, integration with related support services, and outcomes.

• Training/workforce development to help your staff or other providers in the community identify mental health or substance abuse issues or provide effective services consistent with the purpose of the grant program.

• Policy development to support needed service system improvements (e.g., rate-setting activities, establishment of standards of care, adherence to the National CLAS Standards, development/revision of credentialing, licensure, or accreditation requirements)\(^3\).

---

\(^3\) For purposes of this FOA, “policy” refers to programs and guidelines adopted and implemented by institutions, organizations and others to inform and establish practices and decisions and to achieve organizational goals. Policy efforts do not include activities designed to influence the enactment of legislation, appropriations, regulations, administrative actions, or Executive Orders (“legislation and other orders”) proposed or pending before the Congress or any State government, State legislature or local legislature or legislative body, and awardees may not use federal funds for such activities. This restriction extends to both grass-roots lobbying efforts and direct lobbying. However, for state, local, and other governmental grantees, certain activities falling within the normal and recognized executive-legislative relationships or participation by an agency or officer of a state, local, or tribal government in policymaking...
2.5 Grantee Meetings

Grantees must plan to send a minimum of two people (including the Project Director) to at least one joint grantee meeting during the grant cycle. For this grant cohort, the grantee meeting will likely be held in year two of the grant cycle. You must include a detailed budget and narrative for this travel in your budget. At these meetings, grantees will present the results of their projects and federal staff will provide technical assistance. Each meeting will be up to three days. These meetings are usually held in the Washington, D.C., area and attendance is mandatory.

II. AWARD INFORMATION

Funding Mechanism: Grant
Anticipated Total Available Funding: $9,506,438
Estimated Number of Awards: Up to 24
Estimated Award Amount: Up to $400,000 per year
Length of Project Period: Up to 5 years

Proposed budgets cannot exceed $400,000 in total costs (direct and indirect) in any year of the proposed project. Annual continuation awards will depend on the availability of funds, grantee progress in meeting project goals and objectives, timely submission of required data and reports, and compliance with all terms and conditions of award.

Funding estimates for this announcement are based on an annualized Continuing Resolution and do not reflect the final FY 2017 appropriation. Applicants should be aware that funding amounts are subject to the availability of funds.

III. ELIGIBILITY INFORMATION

1. ELIGIBLE APPLICANTS

Eligible applicants are domestic public and private nonprofit entities. For example:

- Local governments;

and administrative processes within the executive branch of that government are not considered impermissible lobbying activities and may be supported by federal funds.
• Federally recognized American Indian/Alaska Native (AI/AN) tribes, tribal organizations, Urban Indian Organizations (UIO), and consortia of tribes or tribal organizations;

• Public or private universities and colleges; and

• Community- and faith-based organizations.

Tribal organization means the recognized body of any AI/AN tribe; any legally established organization of AI/ANs which is controlled, sanctioned, or chartered by such governing body, or which is democratically elected by the adult members of the Indian community to be served by such organization and which includes the maximum participation of AI/ANs in all phases of its activities. Consortia of tribes or tribal organizations are eligible to apply, but each participating entity must indicate its approval. A single tribe in the consortium must be the legal applicant, the recipient of the award, and the entity legally responsible for satisfying the grant requirements.

UIO (as identified by the Office of Indian Health Service Urban Indian Health Programs through active Title V grants/contracts) means a non-profit corporate body situated in an urban center governed by an urban Indian-controlled board of directors, and providing for the maximum participation of all interested individuals and groups, which body is capable of legally cooperating with other public and private entities for the purpose of performing the activities described in 25 U.S.C. 1653(a). UIOs are not tribes or tribal governments and do not have the same consultation rights or trust relationship with the federal government.

SAMHSA seeks to further expand the impact and geographical distribution of its targeted homeless programs. Therefore, grantees awarded in FY 2015 for Grants for the Benefit of Homeless Individuals – Services in Supportive Housing (GBHI-SSH) and FY 2016 and FY 2017 Cooperative Agreements to Benefit Homeless Individuals (CABHI) are not eligible to apply. Additionally, the statutory authority for this program states that these grants must be made to community-based public and private non-profit entities. Therefore, states are not eligible to apply.

2. COST SHARING and MATCH REQUIREMENTS

Cost sharing/match is not required in this program.

3. EVIDENCE OF EXPERIENCE AND CREDENTIALS

SAMHSA believes that only existing, experienced, and appropriately credentialed organizations with demonstrated infrastructure and expertise will be able to provide required services quickly and effectively. You must meet three additional requirements related to the provision of services.

The three requirements are:
A provider organization for direct client (e.g., substance abuse treatment, substance abuse prevention, mental health) services appropriate to the grant must be involved in the proposed project. The provider may be the applicant or another organization committed to the project. More than one provider organization may be involved;

- Each mental health/substance abuse treatment provider organization must have at least two years’ experience (as of the due date of the application) providing relevant services (official documents must establish that the organization has provided relevant services for the last two years); and

- Each mental health/substance abuse treatment provider organization must comply with all applicable local (city, county) and state licensing, accreditation, and certification requirements, as of the due date of the application.

[Note: The above requirements apply to all service provider organizations. A license from an individual clinician will not be accepted in lieu of a provider organization’s license. Eligible tribes and tribal organization mental health/substance abuse treatment providers must comply with all applicable tribal licensing, accreditation, and certification requirements, as of the due date of the application. See Appendix B – Statement of Assurance.]

Following application review, if your application’s score is within the fundable range, the GPO may contact you to request that additional documentation be sent by email, or to verify that the documentation you submitted is complete.

If the GPO does not receive this documentation within the time specified, your application will not be considered for an award.

IV. APPLICATION AND SUBMISSION INFORMATION

In addition to the application and submission language discussed in PART II: Sections I and II, you must include the following in your application:

1. ADDITIONAL REQUIRED APPLICATION COMPONENTS

- **Budget Information Form** – Use SF-424A. Fill out Sections B, C, and E of the SF-424A. A sample budget and justification is included in Appendix D of this document. **It is highly recommended that you use the sample budget format in Appendix D.** This will expedite review of your application.

- **Project Narrative and Supporting Documentation** – The Project Narrative describes your project. It consists of Sections A through E. Sections A-E together may not be longer than 30 pages. (Remember that if your Project Narrative starts on page 5 and ends on page 35, it is 31 pages long, not 30 pages.) More detailed instructions for completing each section of the Project
Narrative are provided in Section V – Application Review Information of this document.

The Supporting Documentation section provides additional information necessary for the review of your application. This supporting documentation must be attached to your application using the Other Attachments Form from the Grants.gov application package. Additional instructions for completing these sections and page limitations for Biographical Sketches/Position Descriptions are included in PART II: Section II-3.1, Required Application Components, and Appendix D, Biographical Sketches and Position Descriptions. Supporting documentation should be submitted in black and white (no color).

- **Budget Justification and Narrative** – The budget justification and narrative must be submitted as file BNF when you submit your application into Grants.gov. (See PART II: Section II-3.1, Required Application Components.)

- Applicants for this program are required to complete the Assurance of Compliance with SAMHSA Charitable Choice Statutes and Regulations Form SMA 170. This form is posted on SAMHSA’s website at [http://www.samhsa.gov/grants/applying/forms-resources](http://www.samhsa.gov/grants/applying/forms-resources).

- **Attachments 1 through 5** – Use only the attachments listed below. If your application includes any attachments not required in this document, they will be disregarded. Do not use more than a total of 30 pages for Attachments 1, 3, and 4 combined. There are no page limitations for Attachments 2 and 5. Do not use attachments to extend or replace any of the sections of the Project Narrative. Reviewers will not consider them if you do. Please label the attachments as: Attachment 1, Attachment 2, etc. Use the Other Attachments Form from Grants.gov to upload the attachments.

  - **Attachment 1**: (1) Identification of at least one experienced, licensed mental health/substance abuse treatment provider organization; (2) a list of all direct service provider organizations that have agreed to participate in the proposed project, including the applicant agency, if it is a treatment or prevention service provider organization; (3) letters of commitment from these direct service provider organizations (Do not include any letters of support. Reviewers will not consider them if you do.); (4) the Statement of Assurance (provided in Appendix B of this announcement) signed by the authorized representative of the applicant organization identified on the first page (SF-424) of the application, that assures SAMHSA that all listed providers meet the two-year experience requirement, are appropriately licensed, accredited and certified, and that if the application is within the funding range for an award, the applicant will send the GPO the required documentation within the specified time.
Attachment 2: Data Collection Instruments/Interview Protocols – if you are using standardized data collection instruments/interview protocols, you do not need to include these in your application. Instead, provide a web link to the appropriate instrument/protocol. If the data collection instrument(s) or interview protocol(s) is/are not standardized, you must include a copy in Attachment 2.

Attachment 3: Sample Consent Forms

Attachment 4: Copy of letter to the SSA transmitting the PHSIS (if applicable; see PART II: Appendix B, Intergovernmental Review (E.O. 12372) Requirements).

Attachment 5: A letter from the state or county indicating that the proposed project addresses a state- or county-identified priority. Tribal applicants must provide similar documentation relating to tribal priorities.

2. APPLICATION SUBMISSION REQUIREMENTS

Applications are due by 11:59 PM (Eastern Time) on April 25, 2017.

IMPORTANT: Due to SAMHSA’s transition to NIH’s eRA grants system, SAMHSA has made changes to the application registration, submission, and formatting requirements. Please be sure to read PART II of this FOA very carefully to understand the requirements for SAMHSA’s new grant system. Applicants will need to register with NIH’s eRA Commons in order to submit an application. Applicants also must register with the System for Award Management (SAM) and Grants.gov (see PART II: Section I-1 and Section II-1 for all registration requirements).

Due to the new registration and application requirements, it is strongly recommended that applicants start the registration process six (6) weeks in advance of the application due date.

3. FUNDING LIMITATIONS/RESTRICTIONS

- No more than 15 percent of the total grant award may be used for developing the infrastructure necessary for expansion of services.

- No more than 20 percent of the total grant award may be used for data collection, performance measurement, and performance assessment, including incentives for participating in the required data collection follow-up.

- No more than 6.5 percent of the total grant award may be used for short-term residential treatment (90 days or less).

- SAMHSA funds may not be used to pay for housing.
Be sure to identify these expenses in your proposed budget.

**SAMHSA grantees also must comply with SAMHSA’s standard funding restrictions, which are included in PART II: Appendix C, Standard Funding Restrictions.**

### 4. INTERGOVERNMENTAL REVIEW (E.O. 12372) REQUIREMENTS

All SAMHSA grant programs are covered under Executive Order (EO) 12372, as implemented through Department of Health and Human Services (HHS) regulation at 45 CFR Part 100. Under this Order, states may design their own processes for reviewing and commenting on proposed federal assistance under covered programs. See PART II: Appendix B for additional information on these requirements as well as requirements for the Public Health System Impact Statement.

### V. APPLICATION REVIEW INFORMATION

#### 1. EVALUATION CRITERIA

The Project Narrative describes what you intend to do with your project and includes the Evaluation Criteria in Sections A-E below. Your application will be reviewed and scored according to the quality of your response to the requirements in Sections A-E.

- In developing the Project Narrative section of your application, use these instructions, which have been tailored to this program.

- The Project Narrative (Sections A-E) together may be no longer than 30 pages.

- You must use the five sections/ headings listed below in developing your Project Narrative. **You must indicate the Section letter and number in your response, i.e., type “A-1”, “A-2”, etc., before your response to each question.** You may not combine two or more questions or refer to another section of the Project Narrative in your response, such as indicating that the response for B.2 is in C.7. **Only information included in the appropriate numbered question will be considered by reviewers.** Your application will be scored according to how well you address the requirements for each section of the Project Narrative.

- The number of points after each heading is the maximum number of points a review committee may assign to that section of your Project Narrative. Although scoring weights are not assigned to individual bullets, each bullet is assessed in deriving the overall Section score.
Section A: Population of Focus and Statement of Need (15 points)

1. Identify your population(s) of focus (i.e., individuals [including youth] and/or families). Provide a comprehensive demographic profile of this population in your local area in terms of race, ethnicity, federally recognized tribe (if applicable), language, sex, gender identity, sexual orientation, age, and socioeconomic status.

2. Discuss the differences in access, service use, and outcomes for your population of focus in comparison with the general population in the local service area, citing relevant data. Describe how the proposed project will improve these disparities in access, service use, and outcomes.

3. Describe the nature of the problem, including service gaps, and document the extent of the need (i.e., current prevalence rates or incidence data) for the population(s) of focus identified in your response to question A.1. To the extent available, use local data to describe need and service gaps, supplemented with state and/or national data. Identify the source of the data.

Section B: Proposed Implementation Approach (30 points)

1. Describe the purpose of the proposed project, including its goals and measurable objectives. These must relate to the intent of the FOA and performance measures you identify in Section E: Data Collection and Performance Measurement.

2. Provide a chart or graph depicting a realistic timeline for the entire five years of the project period showing dates, key activities, and responsible staff. These key activities should include the requirements outlined in Section I-2: Expectations. [NOTE: Be sure to show that the project can be implemented and service delivery can begin as soon as possible and no later than four months after grant award. The timeline should be part of the Project Narrative. It should not be placed in an attachment.]

3. Describe how the key activities in your timeline will be implemented, including the following required activities as outlined in Section I-2: Expectations:

   a. Providing outreach and other engagement strategies to increase participation in, and access to, treatment for the population(s) of focus. If you are proposing to provide only outreach and other strategies to increase access, show that there are treatment services available and your organization has the ability to connect individuals with those services;

   b. Providing direct treatment (including screening, assessment, and care management) for the population(s) of focus. Treatment must be provided in outpatient, day treatment (including outreach-based services), intensive outpatient, or short-term residential programs (90 days or less in duration and at a cost not to exceed 6.5 percent of the total grant funds);
c. Providing case management or other strategies to link with and retain clients in permanent housing and other necessary services, including but not limited to primary care services, and to coordinate these services with other services provided to the client;

d. Engaging and enrolling the population(s) of focus or connecting the population(s) of focus to enrollment resources for Medicaid and other benefits programs (e.g. SSI/SSDI, TANF, SNAP, etc.); and

e. Providing “wrap-around”/recovery support services (e.g., child care, vocational, educational, and transportation services) designed to improve access and retention in services.

4. Describe how the proposed activities will adhere to the National CLAS Standards (go to http://ThinkCulturalHealth.hhs.gov). Select one element from each of the CLAS Standards: 1) Governance, Leadership, and Workforce; 2) Communication and Language Assistance; and 3) Engagement, Continuous Improvement, and Accountability, and specifically describe how these activities will address each element you selected.

5. Describe how you will screen and assess clients for the presence of CODs and use the information obtained from the screening and assessment to develop appropriate treatment approaches for the persons identified as having such co-occurring disorders.

6. Describe how you will identify, recruit, and retain the population(s) of focus, and how this approach will take into consideration the language, beliefs, norms, values, and socioeconomic factors of this/these populations(s).

7. Describe the process for establishing a steering committee to meet and monitor the goals outlined in the program. The steering committee must be comprised of, at a minimum, local or regional representatives from substance abuse and mental health authorities; Medicaid Agency; health department; public housing authorities; service providers; individuals (including youth) and/or families who are currently experiencing homelessness or have experienced homelessness and are recovering from SUDs or CODs; the CABHI-States grantee (if applicable in the state); and the SAMHSA government project officer.

8. Describe the availability of permanent housing in your community for the population(s) of focus and the strategies you will utilize to support linkage for all enrolled individuals and/or families to HUD’s Coordinated Entry Process and how it is ultimately connected to permanent housing.

9. Identify any other organization(s) that will partner in the proposed project. Describe their specific roles and responsibilities. Demonstrate their commitment to the project by including Letters of Commitment from each partner in Attachment 1 of your application. If you are not partnering with any other organization(s), indicate so in your response.
10. State the unduplicated number of individuals you propose to serve (annually and over the entire project period) with grant funds, including the types and numbers of services to be provided and anticipated outcomes. Explain how you arrived at this number and that it is reasonable given your budget request. You are required to include the numbers to be served by race, ethnicity, gender (including transgender populations), and sexual orientation.

11. If you plan to use grant funds for infrastructure development, describe the infrastructure changes you plan to implement and how they will enhance/improve access, service use, and outcomes for the population of focus. If you do not plan to use grant funds for infrastructure development, indicate so in your response.

Section C: Proposed Evidence-Based Service/Practice (25 points)

1. Describe the EBP(s) that will be used. Document how each EBP chosen is appropriate for the outcomes you want to achieve. Justify the use of each EBP for your population of focus. Explain how the chosen EBP(s) meet SAMHSA’s goals for this program. If an EBP does not exist/apply for your program, fully describe the practice you plan to implement, explain why it is appropriate for the population of focus, and justify its use compared to an appropriate existing EBP.

2. Explain how your choice of an EBP or practice will help you address disparities in service access, use, and outcomes for your population(s) of focus.

3. Describe any modifications that will be made to the EBP or practice and the reasons the modifications are necessary. If you are not proposing any modifications, indicate so in your response.

4. Discuss training needs or plans for training to successfully implement the proposed EBP(s). Explain how you will monitor the delivery of the EBPs to ensure that they are implemented according to the EBP guidelines.

Section D: Staff and Organizational Experience (10 points)

1. Discuss the capability and experience of the applicant organization with similar projects and populations. Demonstrate that the applicant organization has linkages to the population(s) of focus and ties to grassroots/community-based organizations that are rooted in the culture(s) and language(s) of the population(s) of focus.

2. Discuss the capability and experience of other partnering organizations with similar projects and populations. Demonstrate that other partnering organizations have linkages to the population(s) of focus and ties to grassroots/community-based organizations that are rooted in the culture(s) and language(s) of the population(s) of focus. If you are not partnering with any other organizations, indicate so in your response.
3. Provide a complete list of staff positions for the project, including the Project Director, and other key personnel, showing the role of each and their level of effort and qualifications. Demonstrate successful project implementation for the level of effort budgeted for the Project Director and key staff.

4. Discuss how key staff members have demonstrated experience and are qualified to serve the population(s) of focus and are familiar with their culture(s) and language(s). If key staff members are to be hired, discuss the credentials and experience the new staff must possess to work effectively with the population of focus.

5. Describe how your staff will ensure the input of the clients in assessing, planning, and implementing your project.

Section E: Data Collection and Performance Measurement (20 points)

1. Document your ability to collect and report on the required performance measures as specified in Section I-2.2 of this FOA.

2. Describe your specific plan for:
   - data collection,
   - management,
   - analysis, and
   - reporting.

   The data collection plan must specify the staff person(s) responsible for tracking the measureable objectives that are identified in your response to question B1.

3. Describe your plan for conducting the local performance assessment as specified in Section I-2.3 of this FOA and document your ability to conduct the assessment.

4. Describe the quality improvement process that will be used to track whether your performance measures and objectives are being met, and how these data will inform the ongoing implementation of the project.

Budget Justification, Existing Resources, Other Support (other federal and non-federal sources)

You must provide a narrative justification of the items included in your proposed budget, as well as a description of existing resources and other support you expect to receive for the proposed project. Other support is defined as funds or resources, whether federal, non-federal or institutional, in direct support of activities through fellowships, gifts, prizes, in-kind contributions, or non-federal means. (This should correspond to Item #18 on your SF-424, Estimated Funding.) Other sources of funds may be used for unallowable costs, e.g., meals, sporting events, entertainment.
An illustration of a budget and narrative justification is included in Appendix D - Sample Budget and Justification, of this document. It is highly recommended that you use the Sample Budget format in Appendix D. This will expedite review of your application.

Be sure your proposed budget reflects the funding limitations/restrictions specified in Section IV-3. Specifically identify the items associated with these costs in your budget.

The budget justification and narrative must be submitted as file BNF when you submit your application into Grants.gov. (See PART II: Section II-3.1, Required Application Components.)

REQUIRED SUPPORTING DOCUMENTATION

Section F: Biographical Sketches and Position Descriptions.

See PART II: Appendix D, Biographical Sketches and Job Descriptions, for instructions on completing this section.

Section G: Confidentiality and SAMHSA Participant Protection/Human Subjects

You must describe procedures relating to Confidentiality, Participant Protection, and the Protection of Human Subjects Regulations in Section G of your application. Failure to include these procedures will impact the review of your application. See Appendix C of this document for guidelines on these requirements.

2. REVIEW AND SELECTION PROCESS

SAMHSA applications are peer-reviewed according to the evaluation criteria listed above.

Decisions to fund a grant are based on:

- the strengths and weaknesses of the application as identified by peer reviewers;
- when the individual award is over $150,000, approval by the CSAT National Advisory Council;
- availability of funds;
- equitable distribution of awards in terms of geography (including urban, rural, and remote settings) and balance among populations of focus and program size; and
- In accordance with 45 CFR 75.212, SAMHSA reserves the right not to make an award to an entity if that entity does not meet the minimum qualification standards as described in section 75.205(a)(2). If SAMHSA chooses not to
award a fundable application, SAMHSA must report that determination to the designated integrity and performance system accessible through the System for Award Management (SAM) [currently the Federal Awardee Performance and Integrity Information System (FAPIIS)].

VI. ADMINISTRATION INFORMATION

1. REPORTING REQUIREMENTS

In addition to the data reporting requirements listed in Section I-2.2, grantees must comply with the reporting requirements listed on the SAMHSA website at http://www.samhsa.gov/grants/grants-management/reporting-requirements. Grantees will be required to submit reports semi-annually. Grantees will be required to report aggregate diagnostic information utilizing the DSM-5 in semi-annual reports.

VII. AGENCY CONTACTS

For questions about program issues contact:

Valerie Tarantino, LCSW-C
Center for Substance Abuse Treatment, Division of States and Community Assistance
Substance Abuse Mental Health Services Administration
(240) 276-1745
Valerie.tarantino@samhsa.hhs.gov

For questions on grants management and budget issues contact:

Eileen Bermudez
Office of Financial Resources, Division of Grants Management
Substance Abuse and Mental Health Services Administration
(240) 276-1412
FOACSAT@samhsa.hhs.gov
Appendix A – Using Evidence-Based Practices (EBPs)

SAMHSA recognizes that EBPs have not been developed for all populations and/or service settings. For example, certain practices for American Indians/Alaska Natives, rural or isolated communities, or recent immigrant communities may not have been formally evaluated and, therefore, have a limited or nonexistent evidence base. In addition, other practices that have an established evidence base for certain populations or in certain settings may not have been formally evaluated with other subpopulations or within other settings. Applicants proposing to serve a population with a practice that has not been formally evaluated with that population are required to provide other forms of evidence that the practice(s) they propose is appropriate for the population(s) of focus. Evidence for these practices may include unpublished studies, preliminary evaluation results, clinical (or other professional association) guidelines, findings from focus groups with community members, etc. You may describe your experience either with the population(s) of focus or in managing similar programs. Information in support of your proposed practice needs to be sufficient to demonstrate the appropriateness of your practice to the individuals reviewing your application.

- Document the EBP(s) you have chosen is appropriate for the outcomes you want to achieve.
- Explain how the practice you have chosen meets SAMHSA’s goals for this grant program.
- Describe any modifications/adaptations you will need to make to your proposed practice(s) to meet the goals of your project and why you believe the changes will improve the outcomes. We expect that you will implement your evidence-based service(s)/practice(s) in a way that is as close as possible to the original service(s)/practice(s). However, SAMHSA understands that you may need to make minor changes to the service(s)/practice(s) to meet the needs of your population(s) of focus or your program, or to allow you to use resources more efficiently. You must describe any changes to the proposed service(s)/practice(s) that you believe are necessary for these purposes. You may describe your own experience either with the population(s) of focus or in managing similar programs. However, you will need to convince the people reviewing your application that the changes you propose are justified.
- Explain why you chose this EBP over other evidence-based practices.
- If applicable, justify the use of multiple EBPs. Discuss how the use of multiple EBPs will be integrated into the program. Describe how the effectiveness of each evidence-based practice will be quantified in the performance assessment of the project.
- Discuss training needs or plans for training to successfully implement the proposed evidence-based practice(s).
Resources for Evidence-Based Practices (EBPs):

You will find information on EBPs at http://store.samhsa.gov/resources/term/Evidence-Based-Practice-Resource-Library. SAMHSA has developed this website to provide a simple and direct connection to websites with information about evidence-based interventions to prevent and/or treat mental and substance use disorders. The Resource Library provides a short description and a link to dozens of websites with relevant EBPs information – either specific interventions or comprehensive reviews of research findings.

In addition to the website noted above, you may provide information on research studies to show that the services/practices you plan to implement are evidence-based. This information is usually published in research journals, including those that focus on minority populations. If this type of information is not available, you may provide information from other sources, such as unpublished studies or documents describing formal consensus among recognized experts.

[Note: Please see PART II: Appendix C – Standard Funding Restrictions, regarding allowable costs for EBPs.]
Appendix B – Statement of Assurance

As the authorized representative of [insert name of applicant organization]
_________________________________________________, I assure SAMHSA that all participating service provider organizations listed in this application meet the two-year experience requirement and applicable licensing, accreditation, and certification requirements. If this application is within the funding range for a grant award, we will provide the SAMHSA Government Project Officer (GPO) with the following documents.

I understand that if this documentation is not received by the GPO within the specified timeframe, the application will be removed from consideration for an award and the funds will be provided to another applicant meeting these requirements.

- official documentation that all mental health/substance abuse treatment provider organizations participating in the project have been providing relevant services for a minimum of two years prior to the date of the application in the area(s) in which services are to be provided. Official documents must definitively establish that the organization has provided relevant services for the last two years; and

- official documentation that all mental health/substance abuse treatment provider organizations: 1) comply with all local (city, county) and state requirements for licensing, accreditation and certification; OR 2) official documentation from the appropriate agency of the applicable state, county, or other governmental unit that licensing, accreditation, and certification requirements do not exist.4 (Official documentation is a copy of each service provider organization’s license, accreditation, and certification. Documentation of accreditation will not be accepted in lieu of an organization’s license. A statement by, or letter from, the applicant organization or from a provider organization attesting to compliance with licensing, accreditation, and certification or that no licensing, accreditation, certification requirements exist does not constitute adequate documentation.)

- for tribes and tribal organizations only, official documentation that all participating mental health/substance abuse treatment provider organizations: 1) comply with all applicable tribal requirements for licensing, accreditation, and certification; OR 2) documentation from the tribe or other tribal governmental unit that licensing, accreditation, and certification requirements do not exist.

______________________________________________  ______________________
Signature of Authorized Representative            Date

4 Tribes and tribal organizations are exempt from these requirements.
Appendix C – Confidentiality and SAMHSA Participant Protection/Human Subjects Guidelines

Confidentiality and Participant Protection:

Because of the confidential nature of the work in which many SAMHSA grantees are involved, it is important to have safeguards protecting individuals from risks associated with their participation in SAMHSA projects. All applicants (including those who plan to obtain IRB approval) must address the seven elements below. Be sure to discuss these elements as they pertain to on-line counseling (i.e., telehealth) if they are applicable to your program. If some are not applicable or relevant to the proposed project, simply state that they are not applicable and indicate why. In addition to addressing these seven elements, read the section that follows entitled “Protection of Human Subjects Regulations” to determine if the regulations may apply to your project. If so, you are required to describe the process you will follow for obtaining Institutional Review Board (IRB) approval. While we encourage you to keep your responses brief, there are no page limits for this section and no points will be assigned by the Review Committee. Problems with confidentiality, participant protection, and the protection of human subjects identified during peer review of the application must be resolved prior to funding.

1. Protect Clients and Staff from Potential Risks

   - Identify and describe any foreseeable physical, medical, psychological, social and legal risks or potential adverse effects as a result of the project itself or any data collection activity.

   - Describe the procedures you will follow to minimize or protect participants against potential risks, including risks to confidentiality.

   - Identify plans to provide guidance and assistance in the event there are adverse effects to participants.

   - Where appropriate, describe alternative treatments and procedures that may be beneficial to the participants. If you choose not to use these other beneficial treatments, provide the reasons for not using them.

2. Fair Selection of Participants

   - Describe the population(s) of focus for the proposed project. Include age, gender, and racial/ethnic background and note if the population includes homeless youth, foster children, children of substance abusers, pregnant women or other targeted groups.

   - Explain the reasons for including groups of pregnant women, children, people with mental disabilities, people in institutions, prisoners and individuals who are likely to be particularly vulnerable to HIV/AIDS.
• Explain the reasons for including or excluding participants.

• Explain how you will recruit and select participants. Identify who will select participants.

3. Absence of Coercion

• Explain if participation in the project is voluntary or required. Identify possible reasons why participation is required, for example, court orders requiring people to participate in a program.

• If you plan to compensate participants, state how participants will be awarded incentives (e.g., money, gifts, etc.). Provide justification that the use of incentives is appropriate, judicious and conservative and that incentives do not provide an “undue inducement” which removes the voluntary nature of participation. Incentives should be the minimum amount necessary to meet the programmatic and performance assessment goals of the grant. Applicants should determine the minimum amount that is proven effective by consulting with existing local programs and reviewing the relevant literature. In no case may the value if an incentive paid for with SAMHSA discretionary grant funds exceed $30.

• State how volunteer participants will be told that they may receive services intervention even if they do not participate in or complete the data collection component of the project.

4. Data Collection

• Identify from whom you will collect data (e.g., from participants themselves, family members, teachers, others). Describe the data collection procedures and specify the sources for obtaining data (e.g., school records, interviews, psychological assessments, questionnaires, observation or other sources). Where data are to be collected through observational techniques, questionnaires, interviews, or other direct means, describe the data collection setting.

• Identify what type of specimens (e.g., urine, blood) will be used, if any. State if the material will be used just for evaluation or if other use(s) will be made. Also, if needed, describe how the material will be monitored to ensure the safety of participants.

• Provide in Attachment 2, “Data Collection Instruments/Interview Protocols,” copies of all available data collection instruments and interview protocols that you plan to use (unless you are providing the web link to the instrument(s)/protocol(s)).

5. Privacy and Confidentiality
• Explain how you will ensure privacy and confidentiality. Include who will collect data and how it will be collected.

• Describe:
  o How you will use data collection instruments.
  o Where data will be stored.
  o Who will or will not have access to information.
  o How the identity of participants will be kept private, for example, through the use of a coding system on data records, limiting access to records, or storing identifiers separately from data.

**NOTE:** If applicable, grantees must agree to maintain the confidentiality of alcohol and drug abuse client records according to the provisions of *Title 42 of the Code of Federal Regulations, Part II.*

6. **Adequate Consent Procedures**

• List what information will be given to people who participate in the project. Include the type and purpose of their participation. Identify the data that will be collected, how the data will be used and how you will keep the data private.

• State:
  o Whether or not their participation is voluntary.
  o Their right to leave the project at any time without problems.
  o Possible risks from participation in the project.
  o Plans to protect clients from these risks.

• Explain how you will obtain consent for youth, the elderly, people with limited reading skills, and people who do not use English as their first language.

**NOTE:** If the project poses potential physical, medical, psychological, legal, social or other risks, you must obtain written informed consent.

• Indicate if you will obtain informed consent from participants or assent from minors along with consent from their parents or legal guardians. Describe how the consent will be documented. For example: Will you read the consent forms? Will you ask prospective participants questions to be sure they understand the forms? Will you give them copies of what they sign?
Include, as appropriate, sample consent forms that provide for: (1) informed consent for participation in service intervention; (2) informed consent for participation in the data collection component of the project; and (3) informed consent for the exchange (releasing or requesting) of confidential information. The sample forms must be included in Attachment 3, “Sample Consent Forms”, of your application. If needed, give English translations.

NOTE: Never imply that the participant waives or appears to waive any legal rights, may not end involvement with the project, or releases your project or its agents from liability for negligence.

- Describe if separate consents will be obtained for different stages or parts of the project. For example, will they be needed for both participant protection in treatment intervention and for the collection and use of data?

- Additionally, if other consents (e.g., consents to release information to others or gather information from others) will be used in your project, provide a description of the consents. Will individuals who do not consent to having individually identifiable data collected for evaluation purposes be allowed to participate in the project?

7. Risk/Benefit Discussion

- Discuss why the risks are reasonable compared to expected benefits and importance of the knowledge from the project.

Protection of Human Subjects Regulations

SAMHSA expects that most grantees funded under this announcement will not have to comply with the Protection of Human Subjects Regulations (45 CFR 46), which requires Institutional Review Board (IRB) approval. However, in some instances, the applicant’s proposed performance assessment design may meet the regulation’s criteria for research involving human subjects.

In addition to the elements above, applicants whose projects must comply with the Human Subjects Regulations must fully describe the process for obtaining IRB approval. While IRB approval is not required at the time of grant award, these grantees will be required, as a condition of award, to provide documentation that an Assurance of Compliance is on file with the Office for Human Research Protections (OHRP). IRB approval must be received in these cases prior to enrolling participants in the project. General information about Human Subjects Regulations can be obtained through OHRP at http://www.hhs.gov/ohrp or (240) 453-6900. SAMHSA–specific questions should be directed to the program contact listed in Section VII of this announcement.
Appendix D – Sample Budget and Justification (no match required)

THIS IS AN ILLUSTRATION OF A SAMPLE DETAILED BUDGET AND NARRATIVE JUSTIFICATION WITH GUIDANCE FOR COMPLETING SF-424A: SECTION B FOR THE BUDGET PERIOD

A. Personnel: Provide employee(s) (including names for each identified position) of the applicant/recipient organization, including in-kind costs for those positions whose work is tied to the grant project.

FEDERAL REQUEST

<table>
<thead>
<tr>
<th>Position</th>
<th>Name</th>
<th>Annual Salary/Rate</th>
<th>Level of Effort</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>(1) Project Director</td>
<td>John Doe</td>
<td>$64,890</td>
<td>10%</td>
<td>$6,489</td>
</tr>
<tr>

<tr>
<td>(3) Clinical Director</td>
<td>Jane Doe</td>
<td>In-kind cost</td>
<td>20%</td>
<td>0</td>
</tr>
<tr>
<td><strong>TOTAL</strong></td>
<td></td>
<td></td>
<td></td>
<td><strong>$52,765</strong></td>
</tr>
</tbody>
</table>

JUSTIFICATION: Describe the role and responsibilities of each position.

(1) The Project Director will provide daily oversight of the grant and will be considered key staff.

(2) The Coordinator will coordinate project services and project activities, including training, communication and information dissemination.

(3) The Clinical Director will provide necessary medical direction and guidance to staff for 540 clients served under this project.

Key staff positions require prior approval by SAMHSA after review of credentials of resume and job description.

FEDERAL REQUEST (enter in Section B column 1 line 6a of form S-424A) $52,765

B. Fringe Benefits: List all components that make up the fringe benefits rate
## FEDERAL REQUEST

<table>
<thead>
<tr>
<th>Component</th>
<th>Rate</th>

</tr>
</tbody>
</table>
JUSTIFICATION: Describe the purpose of travel and how costs were determined.

(1) Two staff (Project Director and Evaluator) to attend mandatory grantee meeting in Washington, DC.

(2) Local travel is needed to attend local meetings, project activities, and training events. Local travel rate is based on organization’s policies/procedures for privately owned vehicle reimbursement rate. If policy does not have a rate use GSA.

FEDERAL REQUEST (enter in Section B column 1 line 6c of form SF-424A) $2,444

D. Equipment: An article of tangible, nonexpendable, personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit (federal definition). Organizations should follow their documented capitalization policy thresholds.

FEDERAL REQUEST – (enter in Section B column 1 line 6d of form SF-424A) $ 0

E. Supplies: Materials costing less than $5,000 per unit (federal definition) and often having one-time use

JUSTIFICATION: Describe the need and include an adequate justification of how each cost was estimated.

(1) Office supplies, copies and postage are needed for general operation of the project.
(2) The laptop computer and printer are needed for both project work and presentations for Project Director

(3) The projector is needed for presentations and workshops. All costs were based on retail values at the time the application was written.

FEDERAL REQUEST – (enter in Section B column 1 line 6e of form SF-424A) $ 3,796

F. Contract: A contractual arrangement to carry out a portion of the programmatic effort or for the acquisition of routine goods or services under the grant. Such arrangements may be in the form of consortium agreements or contracts. A consultant is an individual retained to provide professional advice or services for a fee. The applicant/grantee must establish written procurement policies and procedures that are consistently applied. All procurement transactions shall be conducted in a manner to provide to the maximum extent practical, open and free competition.

COSTS FOR CONTRACTS MUST BE BROKEN DOWN IN DETAIL AND A NARRATIVE JUSTIFICATION PROVIDED. IF APPLICABLE, NUMBERS OF CLIENTS SHOULD BE INCLUDED IN THE COSTS.

**JUSTIFICATION:** Explain the need for each contractual agreement and how it relates to the overall project.

(1) Certified trainers are necessary to carry out the purpose of the statewide Consumer Network by providing recovery and wellness training, preparing consumer leaders statewide, and educating the public on mental health recovery.

(2) Treatment services for clients to be served based on organizational history of expenses.
(3) Case manager is vital to client services related to the program and outcomes.

(4) Evaluator is provided by an experienced individual (Ph.D. level) with expertise in substance abuse, research and evaluation, is knowledgeable about the population of focus, and will report GPRA data.

(5) Marketing Coordinator will develop a plan to include public education and outreach efforts to engage clients of the community about grantee activities, and provision of presentations at public meetings and community events to stakeholders, community civic organizations, churches, agencies, family groups and schools.

*Represents separate/distinct requested funds by cost category

**FEDERAL REQUEST** – (enter in Section B column 1 line 6f of form SF-424A) $86,997

**G. Construction:** NOT ALLOWED – Leave Section B columns 1 & 2 line 6g on SF-424A blank.

**H. Other:** Expenses not covered in any of the previous budget categories

</tr>
</tbody>
</table>

**JUSTIFICATION:** Break down costs into cost/unit (e.g. cost/square foot). Explain the use of each item requested.

(1) Office space is included in the indirect cost rate agreement; however, if other rental costs for service site(s) are necessary for the project, they may be requested as a direct charge. The rent is calculated by square footage or FTE and reflects SAMHSA’s fair share of the space.

*If rent is requested (direct or indirect), provide the name of the owner(s) of the space/facility. If anyone related to the project owns the building which is less than an arms length arrangement, provide cost of ownership/use allowance
calculations. Additionally, the lease and floor plan (including common areas) are required for all projects allocating rent costs.

(2) The monthly telephone costs reflect the percent of effort for the personnel listed in this application for the SAMHSA project only.

(3) The $10 incentive is provided to encourage attendance to meet program goals for 278 client follow-ups.

(4) Brochures will be used at various community functions (health fairs and exhibits).

**FEDERAL REQUEST** – (enter in Section B column 1 line 6h of form SF-424A) **$15,815**

*Indirect Cost Rate:* Indirect costs can be claimed if your organization has a negotiated indirect cost rate agreement. It is applied only to direct costs to the agency as allowed in the agreement. For information on applying for the indirect rate go to: [https://rates.psc.gov/fms/dca/map1.html](https://rates.psc.gov/fms/dca/map1.html). Effective with 45 CFR 75.414(f), any non-federal entity that has never received a negotiated indirect cost rate, except for those non-federal entities described in Appendix VII part 75 (D)(1)(b), may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) which may be used indefinitely. If an organization has a federally approved rate of 10%, the approved rate would prevail.

**FEDERAL REQUEST** (enter in Section B column 1 line 6j of form SF-424A)  

8% of personnel and fringe (.08 x $63,661) $5,093

*FOR REQUESTED FUTURE YEARS:*

1. Please justify and explain any changes to the budget that differs from the reflected amounts reported in the 01 Year Budget Summary.

2. If a cost of living adjustment (COLA) is included in future years, provide your organization’s personnel policy and procedures that state all employees within the organization will receive a COLA.

**IN THIS SECTION, REFLECT OTHER FEDERAL AND NON-FEDERAL SOURCES OF FUNDING BY DOLLAR AMOUNT AND NAME OF FUNDER e.g., Applicant, State, Local, Other, Program Income, etc.**

Other support is defined as funds or resources, whether federal, non-federal or institutional, in direct support of activities through fellowships, gifts, prizes, in-kind contributions or non-federal means. [Note: Please see PART II: Appendix C – Standard Funding Restrictions, regarding allowable costs.]

**IN THIS SECTION,** include a narrative and separate budget for each year of the grant that shows the percent of the total grant award that will be used for infrastructure development; data collection, performance measurement, and performance assessment; and short-term residential treatment (90 days or less). **Be sure the budget reflects the funding restrictions in Section IV-3.**
