

**Announcement of a Pre-application Conference Call
Funding Opportunity Announcement (FOA) No. TI-18-004
Opioid State Targeted Response Technical Assistance**

The Substance Abuse and Mental Health Services Administration is announcing a conference call for entities interested in applying for the FY 2018 Opioid State Targeted Response Technical Assistance grant (FOA No. TI-18-004).

This grant will be provided to a single entity who will serve as the central coordinating point for ensuring the requirements of this funding opportunity are met. Although there is a single grantee, applications including a consortia with other national allied professional associations are encouraged. The purpose of this program is to identify local physicians, other clinicians, and other providers, for example, advance practice nurses, physician assistants, peers and other healthcare professionals with expertise in treatment and in recovery services for opioid use disorders (OUDs). Based on a state, territory, or tribal nation's assessed need, these providers will serve as the primary providers of federally supported TA for the program's successful implementation. The goal of this TA is to ensure the provision of evidence-based prevention, treatment, and recovery support programs/services across the Opioid STR program.

The conference call will be held on the following date:

November 9, 2017 (Thursday)

Time: 3:00 – 4:00 pm ET
Dial-in Number: 800-779-6321
Passcode: 7405853
