TIME AND ROOM  EVENT

8:45 AM–9:35 AM  OPENING PLENARY

POTOMAC BALLROOM A–B

Introduction of SAMHSA’s Prevention Day

David Lamont Wilson, Master of Ceremonies
Center for Substance Abuse Prevention (CSAP), Substance Abuse and Mental Health Services Administration (SAMHSA)

Welcome

Luis “Lucho” Vasquez, LICSW, Acting Director, CSAP, SAMHSA

National Prevention Week Update

David Lamont Wilson, CSAP, SAMHSA

9:45 AM–11:15 AM  INSTITUTES

POTOMAC C

E-Cigarette Use Among Youth and Young Adults

Douglas Tipperman, MSW
Tobacco Policy Liaison, Office of Intergovernmental and External Affairs (OIEA), SAMHSA

Brian King, Ph.D., MPH
Deputy Director, Research Translation, Office on Smoking and Health, National Center for Chronic Disease Prevention and Health Promotion, Centers for Disease Control and Prevention

Mitchell Zeller, JD
Director, Center for Tobacco Products, U.S. Food and Drug Administration

This session will provide an overview of e-cigarette use among youth in the United States. Presenters will discuss the types and characteristics of different e-cigarettes, patterns of use, health risks, and strategies and efforts to reduce their use among young people.

**POTOMAC D**

**Marijuana 2019: The Science and Non-Science**

**Charles LoDico, MS, F-ABFT**
Senior Chemist/Toxicologist, CSAP, SAMHSA

**Patrick Kelly**, Assistant Special Agent in Charge, Chief of Staff, Office of Congressional & Public Affairs, U.S. Drug Enforcement Administration

This session's objective and focus is to dispel the myths or non-science about marijuana. The session will also cover data that demonstrates a correlation of increased use of marijuana with increased vehicular traffic accidents/deaths and other societal unintended ills as a result of legalizing/marketing marijuana.

**NATIONAL HARBOR 10-11**

**The 21st Century Cures Act: Updates from SAMHSA’s Policy Lab and Office of the Chief Medical Officer**

**Thomas Clarke, Ph.D.**
Acting Director, National Mental Health and Substance Use Policy Laboratory, SAMHSA

**Cynthia Kemp, MA, LPC**
Deputy Director, SAMHSA’s Office of the Chief Medical Officer

In this session, presenters will provide an overview of the 21st Century Cures Act and its influence on states’ and communities’ prevention effort. Additionally, presenters will define the roles and functions of SAMHSA’s Office of the Chief Medical Officer and SAMHSA’s National Policy Lab, which were created as part of the 21st Century Cures Act to promote innovation, dissemination, and adoption of evidence-based practices and service delivery models related to mental health and substance use.
**INSTITUTES (continued)**

**9:45 AM–11:15 AM**

**NATIONAL HARBOR 2-3**

**Targeting the Opioid Crisis through SAMHSA Prevention Grants**

**Stephanie Ziomek, MA**  
Social Science Analyst, Center for Behavioral Health Statistics and Quality (CBHSQ), SAMHSA

**Tonia F. Gray, MPH**  
Senior Public Health Advisor, CSAP, SAMHSA

**Rafael Rivera, Ph.D., MBA**  
Deputy Director, Prevention Services  
National Prevention Network Representative  
Illinois Department of Human Services

This session will provide an overview of CSAP’s opioid overdose prevention grant programs and examples of how grant recipients are successfully establishing evidence-based programs and practices. Presenters will also share preliminary data results and the rationale behind outcome measures to better understand how prevention is part of the solution.

**11:30 AM–12:30 PM**

**BREAKOUT SESSIONS I**

**NATIONAL HARBOR 2–3**

**Opiates vs. Opioids: Understanding the Differences in Testing**

**CAPT Jennifer Fan, Phar, M.D., JD**  
Pharmacist, CSAP, SAMHSA

**Ron Flegel, MS, MT(ASCP)**  
Division Director, CSAP, SAMHSA

This session will focus on the differences between opiates and opioids, emerging issues, and trends, as well as information on drug testing through various matrices.

**NATIONAL HARBOR 10–11**

**The Successes of Underage Drinking Prevention Programs and How We Can Learn from Them**

*Shawn Cook, MSW*
Public Health Advisor, CSAP, SAMHSA

*Marion C. Pierce*
Public Health Analyst, CSAP, SAMHSA

*Rob Vincent, MSEd, NCAC II, CDP, NESAP*
Public Health Analyst, CSAP, SAMHSA

*Nelia Nadal, MPH*
Senior Public Health Analyst, CSAP, SAMHSA

The session will provide participants with useful tools on how to implement successful underage drinking prevention programs. Participants will also learn about the most updated Report to Congress on the Prevention and Education of Underage Drinking for use by states and communities.

**NATIONAL HARBOR 12–13**

**Purposeful Prevention Working with Today’s Military and Veteran Families**

*Cicely Burrows-McElwain, MSW, LCSW-C*
Military and Veteran Liaison, OIEA, SAMHSA

*Rajeev Ramchand, Ph.D.*
Senior Vice President of Research, Cohen Veterans Network

This session will engage participants in review and discussion focused on the role of prevention in supporting our nation’s military and veteran families. Presenters will provide an overview of the current landscape of suicide prevention efforts and methods for increasing the wellbeing of today’s military, veterans, and their families.
**National Harbor 4-5**

**Addressing the Opioid Crisis Through the Continuum of Prevention, Treatment, and Recovery**

**Tonia F. Gray, MPH**
Senior Public Health Advisor, CSAP, SAMHSA

**Jamal Bankhead, MPH**
Public Health Advisor, Center for Substance Abuse Treatment (CSAT), SAMHSA

**Sarah Mariani, CPP**
Behavioral Health Administrator, National Prevention Network Representative
Washington State Division of Behavioral Health and Recovery

This session will highlight how the opioid crisis and opioid-related deaths continue to devastate communities across the United States. The session will inform participants about the integration of prevention and treatment services to address the needs of individuals at risk for opioid addiction and death. The presenters will discuss proven strategies to assist in establishing collaborative processes, effective partnerships, and ways to increase awareness about naloxone and the risks of opioid addiction.

**Chesapeake A-C**

**State of HIV and Opioid Use Disorders**

**Charles Reynolds**
Division Director, CSAP, SAMHSA

**Judith Ellis, MS**
Senior Public Health Advisor, CSAP, SAMHSA

**Beverly Watts Davis**
Chief Operating Officer, WestCare Foundation

In this session, presenters will provide an overview of the opioid crisis in the United States and a snapshot of federally funded HIV and hepatitis prevention services. Presenters will also discuss how providers are coordinating efforts to provide quality care for high-risk populations and share promising practices to reduce the spread of HIV and Hepatitis and opioid use disorders.
**Faith and Opioid Prevention**

**Tracy Johnson**  
Managing Partner, TTJ Group, LLC

**Peggy Dowd**  
Program Coordinator, One Voice of Hunterdon, Inc.

**Rev. Harry Mazujian**  
Project Outreach Coordinator, One Voice of Hunterdon, Inc.

**Rev. Walter Jones, MA**  
Executive Director, Fathers Who Care/West Garfield Park Community Stakeholders and the West Garfield Park Youth Council

In this session, presenters will discuss the importance of engaging faith-based stakeholders at the community level and how to plan and implement successful and sustainable prevention activities. Presenters will also share the key roles of faith-based groups, organizations, and individuals in combating the opioid crisis.

**Understanding the Developmental Impacts of Opioid Exposure on Infants and Young Children**

**Justine Larson, M.D., MPH, MHS**  
Senior Medical Advisor, Center for Mental Health Services (CMHS), SAMHSA

**Jennifer Oppenheim, Psy.D.**  
Senior Advisor on Early Childhood  
Lead, Project LAUNCH, CMHS, SAMHSA

In this session, the presenters will discuss basic epidemiology about opiate use disorder (OUD) in pregnancy and describe commonly accepted treatments for OUD in pregnancy. The presenters will next use the description and outcome of an expert panel as a platform to describe the current state of the literature on the developmental impact of in utero opioid exposure. Finally, the presenters will describe systems in perinatal women’s health and systems for infants and toddlers that can be leveraged to provide support for the affected families.

**NATIONAL HARBOR 2-3**

**Advancing Prevention Science Through SAMHSA’s National Prevention Network**

*Tonia Schaffer, MPH*
Public Health Advisor, CSAP, SAMHSA

*Holly Hagle, Ph.D.*
Program Director/Assistant Research Professor
Collaborative to Advance Health Services, University of Missouri-Kansas City

*Laurie Krom, MS*
Program Director, School of Nursing and Health Studies,
University of Missouri-Kansas City

*Deborah Nixon Hughes, LCSW-C*
Project Director, Central East Prevention Technology Transfer Center

This session will provide an overview of the newly formed National Prevention Technology Transfer Center Network. Presenters will discuss the configuration of the network and the process of technology transfer for advancing evidence-based practices for the prevention community.

**NATIONAL HARBOR 10-11**

**Using Science to Prevent Opioid Use and Other Substances**

*Wilson Compton, M.D., MPH*
Deputy Director, National Institute on Drug Abuse, National Institutes of Health

This session will discuss how prevention science is based on an understanding of the developmental, biological, genetic, and neurobiological mechanisms underlying drug use and addiction. At the end of this session, participants will understand how science is being used to address the opioid crisis and how applying this science to help families and communities prevent opioid misuse and addiction is a key challenge.

CHESAPEAKE A-C

Engaging Communities as Partners to Address Underage Drinking: A Strategic Framework

Marion C. Pierce  
Public Health Analyst, CSAP, SAMHSA

Rev. Walter Jones, MA  
Executive Director, Fathers Who Care/West Garfield Park Community Stakeholders and the West Garfield Park Youth Council

This session will note how engaging community and coalition stakeholders as partners in addressing underage drinking is critical to reducing risks associated with substance misuse. Presenters will examine how SAMHSA's Communities Talk: Town Hall Meetings to Prevent Underage Drinking events create a collaborative environment for substance abuse prevention initiatives. The process for registering for a Communities Talk event, with details about SAMHSA support, will be highlighted. Included will be a case study of a successful event, with supporting evidence demonstrating the positive impact on the community.

CHESAPEAKE D-F

Co-occurring Disorders and Suicide Prevention

Richard McKeon, Ph.D., MPH  
Branch Chief, CMHS, SAMHSA

Julie Goldstein, Ph.D.  
Director of Health and Behavioral Health Initiatives, Suicide Prevention Resource Center, EDC

This session will provide an overview of suicide and substance use and misuse, including the relationship between suicide and opioid use. Presenters will also provide an overview of prevention and intervention approaches with the potential to impact the risk of both suicide death and accidental overdose, as well as available resources.

### CHESAPEAKE G-1

**Addressing Reentry Populations and Medication-Assisted Treatment**

**Jon Berg, M.Ed., LCPC**  
Public Health Advisor, CSAT, SAMHSA

**Susan James-Andrews, MS**  
President, James-Andrews & Associates

This session will address how communities have benefited from federal funding to enhance treatment services to the criminal justice populations through treatment drug courts and reentry efforts. Prevention efforts can play an important role through its coalitions to support initiatives in their community and this interactive session shares lessons learned from the field and how to work closely with treatment partners.

### CHESAPEAKE 4-6

**Recovery Connection: Increasing Access and Reducing Barriers for Urban Youth Through a Culturally Competent Lens**

**Felecia Pullen, LMSW, CASAC-t, Ph.D. Candidate**  
Executive Director, PILLARS NYC

**Timothy James**  
Motivational Speaker and Preventionist

This session will discuss prevention efforts through a culturally competent lens to increase access and reduce barriers for urban youth. Presenters will share approaches to implement and prevent youth from engaging in substance use and misuse.

### CHESAPEAKE 7-9

**Stop the Addiction Fatality Epidemic (S.A.F.E.) Project US**

**Jeff Horwitz, JD**  
Executive Director, SAFE Project US

**Stephanie Weaver, MPA**  
SAFE Project US

**Sarah Camille Godfrey, MSC**  
Director of Communications, SAFE Project US

In this session, SAFE Project US will deliver an overview of its history and mission. Presenters will describe the six lines of operations as they are woven into SAFE Communities and SAFE Campuses and provide a description of the collaboration, programs, and assets that are available to support the coalition’s mission.
**KEYNOTE**

**Alex M. Azar II**
Secretary of Health and Human Services

**Elinore F. McCance-Katz, M.D., Ph.D.**
Assistant Secretary for Mental Health and Substance Use
Substance Abuse and Mental Health Services Administration
GAYLORD HOTEL MAP
ALEX M. AZAR II
Secretary of Health and Human Services

Alex M. Azar II was sworn in as the Secretary of Health and Human Services on January 29, 2018. Mr. Azar has spent his career working in both the public and private sectors, as an attorney and in senior leadership roles focused on advancing healthcare reform, research and innovation.

From 2001 to 2007, Mr. Azar served at the U.S. Department of Health and Human Services – first as its General Counsel (2001–2005) and then as Deputy Secretary. During his time as Deputy Secretary, Azar was involved in improving the department’s operations; advancing its emergency preparedness and response capabilities as well as its global health affairs activities; and helping oversee the rollout of the Medicare Part D prescription drug program.

In 2007, Mr. Azar rejoined the private sector as senior vice president for corporate affairs and communications at Eli Lilly and Co. From 2012 to 2017, he served as president of Lilly USA LLC, the company’s largest affiliate.

Mr. Azar clerked for U.S. Supreme Court Justice Antonin Scalia prior to practicing law for several years. Azar graduated summa cum laude with a bachelor’s degree in economics and government from Dartmouth College and earned his law degree from Yale University.

For the past 10 years, Mr. Azar has lived in Indiana with his wife and their two children.
Elinore McCance-Katz, M.D., Ph.D.
Assistant Secretary for Mental Health and Substance Use

Elinore McCance-Katz, M.D., Ph.D. is the first Assistant Secretary for Mental Health and Substance Use. She obtained her Ph.D. from Yale University with a specialty in Infectious Disease Epidemiology and is a graduate of the University of Connecticut School of Medicine. She is board certified in General Psychiatry and in Addiction Psychiatry. She is a Distinguished Fellow of the American Academy of Addiction Psychiatry with more than 25 years as a clinician, teacher, and clinical researcher. Most recently she served as the Chief Medical Officer for the Rhode Island Department of Behavioral Healthcare, Developmental Disabilities and Hospitals and as the Chief Medical Officer for the Eleanor Slater Hospital system which is Rhode Island's state resource for patients with the most serious mental illnesses and medical illnesses requiring long term, inpatient care. She was also Professor of Psychiatry and Human Behavior at Brown University. Previously, she served as the first Chief Medical Officer for the Substance Abuse and Mental Health Services Administration (SAMHSA). Prior to coming to SAMHSA, she served at the University of California, San Francisco as a Professor of Psychiatry, as the Medical Director for the California Department of Alcohol and Drug Programs, and as the Medical Director of SAMHSA's Clinical Support Systems for Buprenorphine (PCSS-B) and Opioids (PCSS-O).

Dr. McCance-Katz has published extensively in the areas of clinical pharmacology, medications development for substance use disorders, drug-drug interactions, addiction psychiatry, and treatment of HIV infection in drug users. She served on the World Health Organization (WHO) committee that developed guidelines on the treatment of drug users living with HIV/AIDS. She has been a national leader in addressing the overprescribing of opioid analgesics and in providing consultation on management of patients with chronic pain and opioid overuse. She was a participant in the development of SAMHSA TIP 40 which provided the initial guidance to physicians utilizing buprenorphine in the treatment of opioid use disorder, contributed to the development and maintenance of the legislatively required 8 hours of physician training for prescribing buprenorphine products and has continued to be actively involved in the development and delivery of physician training on office-based treatment of opioid use disorders. She has been one of the architects of Rhode Island’s plan for addressing the opioid epidemic including new approaches to treatment in the form of a statewide system of Centers of Excellence in the treatment of opioid use disorder, new approaches to training in the utilization of DATA 2000 (Drug Abuse Treatment Act of 2000) to bring DATA waiver training to medical students, and going forward, nurse practitioner and physician assistant students, and legislative/regulatory work addressing safe use of opioids in acute pain.

Dr. McCance-Katz lives in Cranston, Rhode Island with her husband. She has three grown children and one grandchild.
LUIS “LUCHO” VASQUEZ, LICSW
Acting Director
Center for Substance Abuse Prevention
Substance Abuse and Mental Health Services Administration

Luis “Lucho” Vasquez is the Acting Director of the Center for Substance Abuse Prevention. Through this position, he provides national leadership in the development of policies, programs, and services to prevent the onset of illegal drug use, prescription drug misuse and abuse, alcohol misuse and abuse, and underage alcohol and tobacco use; and promotes effective substance abuse prevention practices that enable states, communities, and other organizations to apply prevention knowledge effectively.

Previously, Mr. Vasquez served as Director of the Division of Service and Systems Improvement in the Center for Mental Health Services at SAMHSA. In that capacity, he provided leadership for federal programs that fund and coordinate mental health efforts related to children, adolescents, families, community support programs, homelessness, and HIV/AIDS.

Before coming to federal service, Mr. Vasquez worked as the Director of Homeless and Housing Services Department with Catholic Charities in Washington, DC, and as Director of Mobile Crisis Services in the DC Department of Mental Health. Mr. Vasquez is a licensed independent clinical social worker who has more than 20 years of experience in the behavioral health field.

PREVENTION RESOURCES

CHECK OUT OUR LATEST PREVENTION RESOURCES AT STORE.SAMHSA.GOV
Talking about alcohol use isn’t easy.

SAMHSA CAN HELP.

Young adults still need—and value—their parents’ guidance as they make decisions about their future.

Research suggests that teens who talked with their parents about alcohol avoidance strategies before they began their first year of college were more likely to not use alcohol, or to limit its use.

SAMHSA has two resources that can help jump-start a conversation:

1. The Sound of Your Voice
   This short, animated video outlines the consequences of underage alcohol use, as well as how parents of college-bound young adults have an important role to play in prevention.

2. Talking With Your College-Bound Young Adult About Alcohol
   This companion guide to the video offers tips on when and how to have conversations about alcohol use with young adults.

Visit store.samhsa.gov to find these and other resources about underage drinking prevention.
HOST OR SUPPORT A MEETING TO PREVENT UNDERAGE DRINKING

#CommunitiesTalk

Planning stipends are available for eligible community-based organizations, colleges, and universities.

NEW RESOURCES AND ENHANCED WEBSITE

SAMHSA
Substance Abuse and Mental Health Services Administration
Get SAMHSA’s App for Underage Drinking Prevention

Alcohol’s Effects on the Brain (AlcoholFX) teaches students ages 10–12 how alcohol harms their brains.

With AlcoholFX:

• **Students** play research-based, interactive games that explore brain science while practicing their responses to difficult social situations involving alcohol.

• **Educators** use science-based lesson plans, resources, and recorded scenarios to help students and parents learn about the dangers of alcohol.

• **Parents** learn how alcohol impacts their child’s brain and can put their children at risk for falling behind in school.

It is never too early to talk with children about the dangers of alcohol.

**Why talk about alcohol early?**

Some children may try alcohol when they are as young as 9 years old. Between the ages of 9 and 13, children start to view alcohol more positively. Many children begin to think underage drinking is OK. Some even start to experiment.

Download AlcoholFX today.

Google Play  Apple iTunes

www.samhsa.gov/too-smart-start
PREVENT SUBSTANCE USE

Substance Abuse and Mental Health Services Administration’s “Talk. They Hear You.”® Parent-Oriented National Media Campaign empowers parents and caregivers to talk with children early about alcohol and other drugs.

Share new products on marijuana and opioids to encourage parents and caregivers to talk with their children—short, everyday conversations work best.

TALK ABOUT MARIJUANA

Marijuana use in any form is not safe for a child's brain development. Parents should know the risks of marijuana use and start talking with their children about them early on.

TALK ABOUT OPIOIDS

More than half of people ages 12 and older have obtained prescription pain medication for nonmedical use from a friend or relative.¹ Parents should talk with their children about the dangers of taking prescription pain relievers that don’t belong to them and help them develop an “exit plan” if they are offered medication that isn’t theirs.

FIND AND SHARE RESOURCES

To find resources—such as public service announcements, brochures, infographics, and more—to share with your community on talking to children about alcohol and other drugs, visit: www.samhsa.gov/underage-drinking.
