Tips for Great NPW Photos

• Go to your camera settings and check to make sure you are shooting at maximum resolution and that your picture quality is set at the highest setting.

• While in settings, check to see if your camera has an image stabilization feature. If so, make sure it is turned on.

• Take your photos in a well-lit environment (turn on the flash if necessary), but avoid bright reflections.

• Use landscape orientation whenever possible, especially with large groups.

• If possible, use a ledge or table to rest your camera on while taking photos.

• Avoid zooming in on your subject. It will only lower your resolution.

• When sending images via email, make sure you send the image at full size.

• Clean your lens often.

Our work is guided by a Social Change Model based on the principle that treating individuals for their health problems alone is insufficient to change health disparities within an individual, a family, a community, or a nation.

We look at all of the pressures in people’s lives and deliver an integrated set of health care, education, and social services to guide our participants on the path toward good health, stable families, and economic independence.

Fathers Who Care
COMMUNITY TALKS—KEYS TO STRENGTHENING OUR COMMUNITIES

By Rev. Walter Amir Jones, Jr.

ENGAGING AND EMPOWERING SECTORS’ PARTNERS THROUGH COMMUNITY TALK...

- **Fathers Who Care** - History (West Side Men, Illinois Council on Responsible Fatherhood, and the National Fatherhood Buzz)

- West Side Community Stakeholders, West Garfield Park Community Stakeholders, and West Garfield Park Youth Council

- Members with the 11th, 15th, and 25th District Chicago Police Department, Elected Officials (Aldermen, Commissioners, Senators, Representatives, and Congressman) from three (3) Wards, Districts on the West Side of Chicago
Oftentimes in getting sectors’ partners to work together, we have to motivate them with the presence of others who are also committed to doing the same work. (Try to recruit more than one partner in each of your 12 sectors.)
TEAMWORK CAN MAKE THE DREAM WORK

“When spider webs unite, they can tie up a lion…”

Ethiopian proverb
HOW DO WE ENGAGE OUR SECTOR PARTNERS TO WORK TOGETHER?

First, show members that we are agents for social change and community empowerment. All input matters.

Second, encourage them to use their influence to bring people together and build their communities. Teamwork.

Third, always acknowledge the work of others. Incentives (awards, gift cards, certificates, etc.)

Fourth, always provide refreshments!
