

YOU'VE BEEN THROUGH

The years have gone but you'll still talk
Talking 'bout the good, the good ole days
And your mistakes

And you were gone for oh so long
You had to find a way to communicate
To keep me safe

You talked to me a thousand times

If I could turn back time
I'd go back where you spoke your mind
Cause that's where I learned something new
And I know your words are gold
It's been tough but they have a hold
Cause everything I've been through, you've been through

I grew up seeing way too much
So I'd be there to help you find your way, with all I say

Wouldn't change a thing
Wouldn't change anything
Wouldn't change a thing even if we tried

If I could turn back time
I'd go back where you spoke your mind
Cause that's where I learned something new
And I know your words are gold
It's been tough but they have a hold
Cause everything I've been through, you've been through

If I could turn back time
I'd go back where you spoke your mind
Cause that's where I learned something new
And I know your words are gold
It's been tough but they have a hold
Cause everything I've been through, you've been through

You've been through
You've been through
You've been through

Cause everything I've been through, you've been through
You've been through
You've been through

You've been through
You've been through

Cause everything I've been through, you've been through
